To allow time for SOP coordination and approval, I am requesting on behalf of the Chair, IJCSG that all capacity data call responses be held by your organization until 1 June 2004, the OSD BRAC office is aware of this action. Please deliver your data call responses to Ms. Lyn Young, IJCSG SCIF Security Manager. If you have questions, she can be contacted at 703-769-9450.

SUBJECT: Intelligence Joint Cross-Service Group Capacity Data Call Extension

By prior attached direction, the Military Departments and Defense Agencies were to deliver the Intelligence Joint Cross-Service Group (IJCSG) Capacity Data Call responses directly to the IJCSG Technology Information Center (TIC) by June 1, 2004. Unfortunately, the database and software code development and facility accreditation to handle and store the capacity data information at the TIC is behind schedule. The capacity data call responses cannot be moved into the database until the accreditation process is completed. Therefore, I request you maintain the Capacity Data Call responses in your custody until July 1, 2004, by which time the TIC will be certified to receive the information.

My point of contact for this action is Mr. Brian Buzzell. He may be contacted at (703) 604-6088 or brian.buzzell.CTR@osd.mil.
