MEMORANDUM FOR CHAIRMAN, EDUCATION AND TRAINING JOINT CROSS SERVICE GROUP

FROM: SAF/IEB

SUBJECT: Analysis of Ranges During BRAC 2005

In his 22 Oct 03, "Memorandum for Military Department Infrastructure Steering Group Members," Mr. Wynne; Acting Undersecretary of Defense for Acquisition, Technology and Logistics; requested each Military Department recommend "those classified ranges that should receive JCSG analysis."

Air Force Test and Evaluation (AF/TE) and Air Force Ranges and Airspace (XOO-RA) researched the matter and concluded the Air Force has ranges on which it conducts activities, some of which are classified, but has no classified ranges for JCSG analysis.

My POC for this subject is Lt Col Phil Lanman, SAF/IEBB, 703-692-9920 (DSN 222-9920).

MEMORANDUM FOR MILITARY DEPARTMENT INFRASTRUCTURE STEERING GROUP MEMBERS

SUBJECT: Analysis of Ranges During BRAC 2005

On October 10, 2003, the Education and Training Joint Cross-Service Group (JCSG) chairman briefed the Infrastructure Steering Group (ISG) on his group's approach to capacity analysis for ranges. The ISG members agreed that the Military Departments would recommend those specific classified ranges that should be considered by the Education and Training JCSG. All other classified ranges will be considered by the Military Departments.

I request that you recommend to the Education and Training JCSG chairman, within 60 days, those classified ranges that should receive JCSG analysis, with the understanding that you will be responsible for analyzing the remaining classified ranges as appropriate. Please provide copies of your correspondence with the JCSG to Mr. Peter Potochney, Director, OSD BRAC.
