The Honorable Anthony J. Principi

I am very concerned about the BRAC Commission's decision to close Cannon Air Force Base.

I do not know if the Commission has considered the total impact on Curry and Roosevelt Counties. If 20% of the workforce in those communities will be affected, then 10-20% of the schools will be affected if those air force families move to other communities. Many personnel act as volunteers in Scouting; Meals on Wheels; Habitat for Humanity, youth sports programs, etc.

I believe that closing CAFB will have a disastrous effect on the surrounding communities Clovis and Portales will suffer long-term hardship financially as well as spiritually.

Please reconsider your decision and keep Cannon open.

Sincerely,

Belinda Hilliard
