We are writting in regard to the closing of the Cannon Air Force Base, Clovis New Mexico
We would like for you to re-consider this matter.
We have a very nice base, many new improvements have been made in the last few years. We have a lot of room for expansion if needed. There is an excellent bombing range for training, plenty of good flying weather,
There is good community support and we really need it.
Please reconsider this matter.

Cannon Air force has been the back bone - of N.M. and West Texas
The base has served lot of people in this area.
This has the best weather for the Air Force - a very wide bombing range -

Thank you.
