Niagara Falls, NY 14304-0231

Dear Chairman Principi and BRAC Commissioners:

I am deeply troubled by the Defense Department's recommendation to close the Niagara Falls Air Force Reserve Base. This recommendation is a terrible mistake and I urge the BRAC Commission to reverse this decision and remove the Niagara Falls Base from the list.

It is hard to understand why the Air Force has decided to take planes, missions, and jobs away from so many Air Guard and Air Reserve bases and put them on more costly Active Duty bases. Of all the bases to pick to close, how do you close the base whose unit was able to help rescue Jessica Lynch in Iraq because they are the lead night vision C-130 unit in the Reserves? You must also recognize:

1. The federal government has invested more than $35 million in Niagara Falls since 1995 in new facilities.
2. Base Operations Support costs have been reduced more than 33% (to include a 25% reduction in utilities) to make the base one of the most cost-efficient facilities in the Air Force Reserve Command.
3. Closure of the base eliminates the ability to recruit and retain New Yorkers in a region in which the units have both maintained in excess of 100% manning rates.
4. Niagara Falls' existing infrastructure can accommodate eight (8) additional C-130H model aircraft without any military construction.
5. Niagara Falls faces no physical encroachment nor air traffic control constraints and has acreage on the base and adjacent to the installation for expansion.

I urge the Commission, in the strongest possible terms, to remove the Niagara Falls AFB from the Pentagon's recommended list of base closures and to stop the continuing retreat of the military from our region of the country.

Sincerely,

Larry H Bieler

3. Closure of the base eliminates the ability to recruit and retain New Yorkers in a region in which the units have both maintained in excess of 100% manning rates.
4. Niagara Falls' existing infrastructure can accommodate eight (8) additional C-130H model aircraft without any military construction.
5. Niagara Falls faces no physical encroachment nor air traffic control constraints and has acreage on the base and adjacent to the installation for expansion.

I urge the Commission, in the strongest possible terms, to remove the Niagara Falls AFB from the Pentagon's recommended list of base closures and to stop the continuing retreat of the military from our region of the country.

Sincerely,

Dear Chairman Principi and BRAC Commissioners:

I am deeply troubled by the Defense Department's recommendation to close the Niagara Falls Air Force Reserve Base. This recommendation is a terrible mistake and I urge the BRAC Commission to reverse this decision and remove the Niagara Falls Base from the list.

It is hard to understand why the Air Force has decided to take planes, missions, and jobs away from so many Air Guard and Air Reserve bases and put them on more costly Active Duty bases. Of all the bases to pick to close, how do you close the base whose unit was able to help rescue Jessica Lynch in Iraq because they are the lead night vision C-130 unit in the Reserves? You must also recognize:

1. The federal government has invested more than $35 million in Niagara Falls since 1995 in new facilities.
2. Base Operations Support costs have been reduced more than 33% (to include a 25% reduction in utilities) to make the base one of the most cost-efficient facilities in the Air Force Reserve Command.
3. Closure of the base eliminates the ability to recruit and retain New Yorkers in a region in which the units have both maintained in excess of 100% manning rates.
4. Niagara Falls' existing infrastructure can accommodate eight (8) additional C-130H model aircraft without any military construction.
5. Niagara Falls faces no physical encroachment nor air traffic control constraints and has acreage on the base and adjacent to the installation for expansion.

I urge the Commission, in the strongest possible terms, to remove the Niagara Falls AFB from the Pentagon's recommended list of base closures and to stop the continuing retreat of the military from our region of the country.

Of all the bases to pick to close, how do you close the base whose unit was able to help rescue Jessica Lynch in Iraq because they are the lead night vision C-130 unit in the Reserves? You must also recognize:

1. The federal government has invested more than $35 million in Niagara Falls since 1995 in new facilities.
2. Base Operations Support costs have been reduced more than 33% (to include a 25% reduction in utilities) to make the base one of the most cost-efficient facilities in the Air Force Reserve Command.
3. Closure of the base eliminates the ability to recruit and retain New Yorkers in a region in which the units have both maintained in excess of 100% manning rates.
4. Niagara Falls' existing infrastructure can accommodate eight (8) additional C-130H model aircraft without any military construction.
5. Niagara Falls faces no physical encroachment nor air traffic control constraints and has acreage on the base and adjacent to the installation for expansion.

I urge the Commission, in the strongest possible terms, to remove the Niagara Falls AFB from the Pentagon's recommended list of base closures and to stop the continuing retreat of the military from our region of the country.

Sincerely,

Robert A Goffey

Dear Chairman Principi and BRAC Commissioners:

I am deeply troubled by the Defense Department's recommendation to close the Niagara Falls Air Force Reserve Base. This recommendation is a terrible mistake and I urge the BRAC Commission to reverse this decision and remove the Niagara Falls Base from the list.

It is hard to understand why the Air Force has decided to take planes, missions, and jobs away from so many Air Guard and Air Reserve bases and put them on more costly Active Duty bases. Of all the bases to pick to close, how do you close the base whose unit was able to help rescue Jessica Lynch in Iraq because they are the lead night vision C-130 unit in the Reserves? You must also recognize:

1. The federal government has invested more than $35 million in Niagara Falls since 1995 in new facilities.

Comment: The Def. Dept's recommendation To close the Niagara Falls NY Air Base is an unrealistic decision due to our extreme need for border protection (land, lake, river and power plants). It appears the Fed. gov't thinks W.N.Y. is the armpit of America & contributes little to our nation despite our "nation making" history in NY State. Please consider reversing this very bad decision.

P.O. Box 231
Niagara Falls, NY 14304-0231

Dear Chairman Principi and BRAC Commissioners:

I am deeply troubled by the Defense Department's recommendation to close the Niagara Falls Air Force Reserve Base. This recommendation is a terrible mistake and I urge the BRAC Commission to reverse this decision and remove the Niagara Falls Base from the list.

It is hard to understand why the Air Force has decided to take planes, missions, and jobs away from so many Air Guard and Air Reserve bases and put them on more costly Active Duty bases. Of all the bases to pick to close, how do you close the base whose unit was able to help rescue Jessica Lynch in Iraq because they are the lead night vision C-130 unit in the Reserves? You must also recognize:

1. The federal government has invested more than $35 million in Niagara Falls since 1995 in new facilities.
2. Base Operations Support costs have been reduced more than 33% (to include a 25% reduction in utilities) to make the base one of the most cost-efficient facilities in the Air Force Reserve Command.
3. Closure of the base eliminates the ability to recruit and retain New Yorkers in a region in which the units have both maintained in excess of 100% manning rates.
4. Niagara Falls' existing infrastructure can accommodate eight (8) additional C-130H model aircraft without any military construction.
5. Niagara Falls faces no physical encroachment nor air traffic control constraints and has acreage on the base and adjacent to the installation for expansion.

I urge the Commission, in the strongest possible terms, to remove the Niagara Falls AFB from the Pentagon's recommended list of base closures and to stop the continuing retreat of the military from our region of the country.

Sincerely,

MR & MRS E. N. LAZARUS

Dear Chairman Principi and BRAC Commissioners:

I am deeply troubled by the Defense Department's recommendation to close the Niagara Falls Air Force Reserve Base. This recommendation is a terrible mistake and I urge the BRAC Commission to reverse this decision and remove the Niagara Falls Base from the list.

It is hard to understand why the Air Force has decided to take planes, missions, and jobs away from so many Air Guard and Air Reserve bases and put them on more costly Active Duty bases. Of all the bases to pick to close, how do you close the base whose unit was able to help rescue Jessica Lynch in Iraq because they are the lead night vision C-130 unit in the Reserves? You must also recognize:

1. The federal government has invested more than $35 million in Niagara Falls since 1995 in new facilities.
2. Base Operations Support costs have been reduced more than 33% (to include a 25% reduction in utilities) to make the base one of the most cost-efficient facilities in the Air Force Reserve Command.
3. Closure of the base eliminates the ability to recruit and retain New Yorkers in a region in which the units have both maintained in excess of 100% manning rates.
4. Niagara Falls' existing infrastructure can accommodate eight (8) additional C-130H model aircraft without any military construction.
5. Niagara Falls faces no physical encroachment nor air traffic control constraints and has acreage on the base and adjacent to the installation for expansion.

I urge the Commission, in the strongest possible terms, to remove the Niagara Falls AFB from the Pentagon's recommended list of base closures and to stop the continuing retreat of the military from our region of the country.

3. Closure of the base eliminates the ability to recruit and retain New Yorkers in a region in which the units have both maintained in excess of 100% manning rates.
4. Niagara Falls' existing infrastructure can accommodate eight (8) additional C-130H model aircraft without any military construction.
5. Niagara Falls faces no physical encroachment nor air traffic control constraints and has acreage on the base and adjacent to the installation for expansion.

I urge the Commission, in the strongest possible terms, to remove the Niagara Falls AFB from the Pentagon's recommended list of base closures and to stop the continuing retreat of the military from our region of the country.

Sincerely,

Martha [illegible]

Dear Chairman Principi and BRAC Commissioners:

I am deeply troubled by the Defense Department's recommendation to close the Niagara Falls Air Force Reserve Base. This recommendation is a terrible mistake and I urge the BRAC Commission to reverse this decision and remove the Niagara Falls Base from the list.

It is hard to understand why the Air Force has decided to take planes, missions, and jobs away from so many Air Guard and Air Reserve bases and put them on more costly Active Duty bases. Of all the bases to pick to close, how do you close the base whose unit was able to help rescue Jessica Lynch in Iraq because they are the lead night vision C-130 unit in the Reserves? You must also recognize:

1. The federal government has invested more than $35 million in Niagara Falls since 1995 in new facilities.
2. Base Operations Support costs have been reduced more than 33% (to include a 25% reduction in utilities) to make the base one of the most cost-efficient facilities in the Air Force Reserve Command.
3. Closure of the base eliminates the ability to recruit and retain New Yorkers in a region in which the units have both maintained in excess of 100% manning rates.
4. Niagara Falls' existing infrastructure can accommodate eight (8) additional C-130H model aircraft without any military construction.
5. Niagara Falls faces no physical encroachment nor air traffic control constraints and has acreage on the base and adjacent to the installation for expansion.

I urge the Commission, in the strongest possible terms, to remove the Niagara Falls AFB from the Pentagon's recommended list of base closures and to stop the continuing retreat of the military from our region of the country.

Of all the bases to pick to close, how do you close the base whose unit was able to help rescue Jessica Lynch in Iraq because they are the lead night vision C-130 unit in the Reserves? You must also recognize:

1. The federal government has invested more than $35 million in Niagara Falls since 1995 in new facilities.
2. Base Operations Support costs have been reduced more than 33% (to include a 25% reduction in utilities) to make the base one of the most cost-efficient facilities in the Air Force Reserve Command.
3. Closure of the base eliminates the ability to recruit and retain New Yorkers in a region in which the units have both maintained in excess of 100% manning rates.
4. Niagara Falls' existing infrastructure can accommodate eight (8) additional C-130H model aircraft without any military construction.
5. Niagara Falls faces no physical encroachment nor air traffic control constraints and has acreage on the base and adjacent to the installation for expansion.

I urge the Commission, in the strongest possible terms, to remove the Niagara Falls AFB from the Pentagon's recommended list of base closures and to stop the continuing retreat of the military from our region of the country.

Sincerely,

Dear Chairman Principi and BRAC Commissioners:

I am deeply troubled by the Defense Department's recommendation to close the Niagara Falls Air Force Reserve Base. This recommendation is a terrible mistake and I urge the BRAC Commission to reverse this decision and remove the Niagara Falls Base from the list.

It is hard to understand why the Air Force has decided to take planes, missions, and jobs away from so many Air Guard and Air Reserve bases and put them on more costly Active Duty bases. Of all the bases to pick to close, how do you close the base whose unit was able to help rescue Jessica Lynch in Iraq because they are the lead night vision C-130 unit in the Reserves? You must also recognize:

1. The federal government has invested more than $35 million in Niagara Falls since 1995 in new facilities.
2. Base Operations Support costs have been reduced more than 33% (to include a 25% reduction in utilities) to make the base one of the most cost-efficient facilities in the Air Force Reserve Command.

Dear Chairman Principi and BRAC Commissioners:

I am deeply troubled by the Defense Department's recommendation to close the Niagara Falls Air Force Reserve Base. This recommendation is a terrible mistake and I urge the BRAC Commission to reverse this decision and remove the Niagara Falls Base from the list.

It is hard to understand why the Air Force has decided to take planes, missions, and jobs away from so many Air Guard and Air Reserve bases and put them on more costly Active Duty bases. Of all the bases to pick to close, how do you close the base whose unit was able to help rescue Jessica Lynch in Iraq because they are the lead night vision C-130 unit in the Reserves? You must also recognize:

1. The federal government has invested more than $35 million in Niagara Falls since 1995 in new facilities.
2. Base Operations Support costs have been reduced more than 33% (to include a 25% reduction in utilities) to make the base one of the most cost-efficient facilities in the Air Force Reserve Command.
3. Closure of the base eliminates the ability to recruit and retain New Yorkers in a region in which the units have both maintained in excess of 100% manning rates.
4. Niagara Falls' existing infrastructure can accommodate eight (8) additional C-130H model aircraft without any military construction.
5. Niagara Falls faces no physical encroachment nor air traffic control constraints and has acreage on the base and adjacent to the installation for expansion.

I urge the Commission, in the strongest possible terms, to remove the Niagara Falls AFB from the Pentagon's recommended list of base closures and to stop the continuing retreat of the military from our region of the country.

Sincerely,

Frank Almendinger

P.O. Box 231
Niagara Falls, NY 14304-0231

Dear Chairman Principi and BRAC Commissioners:

I am deeply troubled by the Defense Department's recommendation to close the Niagara Falls Air Force Reserve Base. This recommendation is a terrible mistake and I urge the BRAC Commission to reverse this decision and remove the Niagara Falls Base from the list.

It is hard to understand why the Air Force has decided to take planes, missions, and jobs away from so many Air Guard and Air Reserve bases and put them on more costly Active Duty bases. Of all the bases to pick to close, how do you close the base whose unit was able to help rescue Jessica Lynch in Iraq because they are the lead night vision C-130 unit in the Reserves? You must also recognize:

1. The federal government has invested more than $35 million in Niagara Falls since 1995 in new facilities.
2. Base Operations Support costs have been reduced more than 33% (to include a 25% reduction in utilities) to make the base one of the most cost-efficient facilities in the Air Force Reserve Command.
3. Closure of the base eliminates the ability to recruit and retain New Yorkers in a region in which the units have both maintained in excess of 100% manning rates.
4. Niagara Falls' existing infrastructure can accommodate eight (8) additional C-130H model aircraft without any military construction.
5. Niagara Falls faces no physical encroachment nor air traffic control constraints and has acreage on the base and adjacent to the installation for expansion.

I urge the Commission, in the strongest possible terms, to remove the Niagara Falls AFB from the Pentagon's recommended list of base closures and to stop the continuing retreat of the military from our region of the country.

Sincerely,

Dear Chairman Principi and BRAC Commissioners:

I am deeply troubled by the Defense Department's recommendation to close the Niagara Falls Air Force Reserve Base. This recommendation is a terrible mistake and I urge the BRAC Commission to reverse this decision and remove the Niagara Falls Base from the list.

It is hard to understand why the Air Force has decided to take planes, missions, and jobs away from so many Air Guard and Air Reserve bases and put them on more costly Active Duty bases. Of all the bases to pick to close, how do you close the base whose unit was able to help rescue Jessica Lynch in Iraq because they are the lead night vision C-130 unit in the Reserves? You must also recognize:

1. The federal government has invested more than $35 million in Niagara Falls since 1995 in new facilities.
2. Base Operations Support costs have been reduced more than 33% (to include a 25% reduction in utilities) to make the base one of the most cost-efficient facilities in the Air Force Reserve Command.
3. Closure of the base eliminates the ability to recruit and retain New Yorkers in a region in which the units have both maintained in excess of 100% manning rates.
4. Niagara Falls' existing infrastructure can accommodate eight (8) additional C-130H model aircraft without any military construction.
5. Niagara Falls faces no physical encroachment nor air traffic control constraints and has acreage on the base and adjacent to the installation for expansion.

I urge the Commission, in the strongest possible terms, to remove the Niagara Falls AFB from the Pentagon's recommended list of base closures and to stop the continuing retreat of the military from our region of the country.

Sincerely,

Dear Chairman Principi and BRAC Commissioners:

I am deeply troubled by the Defense Department's recommendation to close the Niagara Falls Air Force Reserve Base. This recommendation is a terrible mistake and I urge the BRAC Commission to reverse this decision and remove the Niagara Falls Base from the list.

It is hard to understand why the Air Force has decided to take planes, missions, and jobs away from so many Air Guard and Air Reserve bases and put them on more costly Active Duty bases. Of all the bases to pick to close, how do you close the base whose unit was able to help rescue Jessica Lynch in Iraq because they are the lead night vision C-130 unit in the Reserves? You must also recognize:

1. The federal government has invested more than $35 million in Niagara Falls since 1995 in new facilities.
2. Base Operations Support costs have been reduced more than 33% (to include a 25% reduction in utilities) to make the base one of the most cost-efficient facilities in the Air Force Reserve Command.
3. Closure of the base eliminates the ability to recruit and retain New Yorkers in a region in which the units have both maintained in excess of 100% manning rates.
4. Niagara Falls' existing infrastructure can accommodate eight (8) additional C-130H model aircraft without any military construction.
5. Niagara Falls faces no physical encroachment nor air traffic control constraints and has acreage on the base and adjacent to the installation for expansion.

I urge the Commission, in the strongest possible terms, to remove the Niagara Falls AFB from the Pentagon's recommended list of base closures and to stop the continuing retreat of the military from our region of the country.

You must also recognize:

1. The federal government has invested more than $35 million in Niagara Falls since 1995 in new facilities.
2. Base Operations Support costs have been reduced more than 33% (to include a 25% reduction in utilities) to make the base one of the most cost-efficient facilities in the Air Force Reserve Command.
3. Closure of the base eliminates the ability to recruit and retain New Yorkers in a region in which the units have both maintained in excess of 100% manning rates.
4. Niagara Falls' existing infrastructure can accommodate eight (8) additional C-130H model aircraft without any military construction.
5. Niagara Falls faces no physical encroachment nor air traffic control constraints and has acreage on the base and adjacent to the installation for expansion.

I urge the Commission, in the strongest possible terms, to remove the Niagara Falls AFB from the Pentagon's recommended list of base closures and to stop the continuing retreat of the military from our region of the country.

Sincerely,

Evelyn M. Pantler

Dear Chairman Principi and BRAC Commissioners:

I am deeply troubled by the Defense Department's recommendation to close the Niagara Falls Air Force Reserve Base. This recommendation is a terrible mistake and I urge the BRAC Commission to reverse this decision and remove the Niagara Falls Base from the list.

It is hard to understand why the Air Force has decided to take planes, missions, and jobs away from so many Air Guard and Air Reserve bases and put them on more costly Active Duty bases. Of all the bases to pick to close, how do you close the base whose unit was able to help rescue Jessica Lynch in Iraq because they are the lead night vision C-130 unit in the Reserves? You must also recognize:

1. The federal government has invested more than $35 million in Niagara Falls since 1995 in new facilities.
2. Base Operations Support costs have been reduced more than 33% (to include a 25% reduction in utilities) to make the base one of the most cost-efficient facilities in the Air Force Reserve Command.
3. Closure of the base eliminates the ability to recruit and retain New Yorkers in a region in which the units have both maintained in excess of 100% manning rates.

Dear Chairman Principi and BRAC Commissioners:

I am deeply troubled by the Defense Department's recommendation to close the Niagara Falls Air Force Reserve Base. This recommendation is a terrible mistake and I urge the BRAC Commission to reverse this decision and remove the Niagara Falls Base from the list.

It is hard to understand why the Air Force has decided to take planes, missions, and jobs away from so many Air Guard and Air Reserve bases and put them on more costly Active Duty bases. Of all the bases to pick to close, how do you close the base whose unit was able to help rescue Jessica Lynch in Iraq because they are the lead night vision C-130 unit in the Reserves? You must also recognize:

1. The federal government has invested more than $35 million in Niagara Falls since 1995 in new facilities.
2. Base Operations Support costs have been reduced more than 33% (to include a 25% reduction in utilities) to make the base one of the most cost-efficient facilities in the Air Force Reserve Command.
3. Closure of the base eliminates the ability to recruit and retain New Yorkers in a region in which the units have both maintained in excess of 100% manning rates.
4. Niagara Falls' existing infrastructure can accommodate eight (8) additional C-130H model aircraft without any military construction.
5. Niagara Falls faces no physical encroachment nor air traffic control constraints and has acreage on the base and adjacent to the installation for expansion.

I urge the Commission, in the strongest possible terms, to remove the Niagara Falls AFB from the Pentagon's recommended list of base closures and to stop the continuing retreat of the military from our region of the country.

Sincerely,

Dear Chairman Principi and BRAC Commissioners:

I am deeply troubled by the Defense Department's recommendation to close the Niagara Falls Air Force Reserve Base. This recommendation is a terrible mistake and I urge the BRAC Commission to reverse this decision and remove the Niagara Falls Base from the list.

It is hard to understand why the Air Force has decided to take planes, missions, and jobs away from so many Air Guard and Air Reserve bases and put them on more costly Active Duty bases. Of all the bases to pick to close, how do you close the base whose unit was able to help rescue Jessica Lynch in Iraq because they are the lead night vision C-130 unit in the Reserves? You must also recognize:

1. The federal government has invested more than $35 million in Niagara Falls since 1995 in new facilities.
2. Base Operations Support costs have been reduced more than 33% (to include a 25% reduction in utilities) to make the base one of the most cost-efficient facilities in the Air Force Reserve Command.
3. Closure of the base eliminates the ability to recruit and retain New Yorkers in a region in which the units have both maintained in excess of 100% manning rates.
4. Niagara Falls' existing infrastructure can accommodate eight (8) additional C-130H model aircraft without any military construction.
5. Niagara Falls faces no physical encroachment nor air traffic control constraints and has acreage on the base and adjacent to the installation for expansion.

I urge the Commission, in the strongest possible terms, to remove the Niagara Falls AFB from the Pentagon's recommended list of base closures and to stop the continuing retreat of the military from our region of the country.

Sincerely,

Catherine M. Hess

Niagara Falls, NY 14304-0231

Dear Chairman Principi and BRAC Commissioners:

I am deeply troubled by the Defense Department's recommendation to close the Niagara Falls Air Force Reserve Base. This recommendation is a terrible mistake and I urge the BRAC Commission to reverse this decision and remove the Niagara Falls Base from the list.

It is hard to understand why the Air Force has decided to take planes, missions, and jobs away from so many Air Guard and Air Reserve bases and put them on more costly Active Duty bases. Of all the bases to pick to close, how do you close the base whose unit was able to help rescue Jessica Lynch in Iraq because they are the lead night vision C-130 unit in the Reserves? You must also recognize:

1. The federal government has invested more than $35 million in Niagara Falls since 1995 in new facilities.
2. Base Operations Support costs have been reduced more than 33% (to include a 25% reduction in utilities) to make the base one of the most cost-efficient facilities in the Air Force Reserve Command.
3. Closure of the base eliminates the ability to recruit and retain New Yorkers in a region in which the units have both maintained in excess of 100% manning rates.
4. Niagara Falls' existing infrastructure can accommodate eight (8) additional C-130H model aircraft without any military construction.
5. Niagara Falls faces no physical encroachment nor air traffic control constraints and has acreage on the base and adjacent to the installation for expansion.

I urge the Commission, in the strongest possible terms, to remove the Niagara Falls AFB from the Pentagon's recommended list of base closures and to stop the continuing retreat of the military from our region of the country.

Sincerely,

Debra Rostert

Dear Chairman Principi and BRAC Commissioners:

I am deeply troubled by the Defense Department's recommendation to close the Niagara Falls Air Force Reserve Base. This recommendation is a terrible mistake and I urge the BRAC Commission to reverse this decision and remove the Niagara Falls Base from the list.

It is hard to understand why the Air Force has decided to take planes, missions, and jobs away from so many Air Guard and Air Reserve bases and put them on more costly Active Duty bases. Of all the bases to pick to close, how do you close the base whose unit was able to help rescue Jessica Lynch in Iraq because they are the lead night vision C-130 unit in the Reserves? You must also recognize:

1. The federal government has invested more than $35 million in Niagara Falls since 1995 in new facilities.
2. Base Operations Support costs have been reduced more than 33% (to include a 25% reduction in utilities) to make the base one of the most cost-efficient facilities in the Air Force Reserve Command.
3. Closure of the base eliminates the ability to recruit and retain New Yorkers in a region in which the units have both maintained in excess of 100% manning rates.
4. Niagara Falls' existing infrastructure can accommodate eight (8) additional C-130H model aircraft without any military construction.
5. Niagara Falls faces no physical encroachment nor air traffic control constraints and has acreage on the base and adjacent to the installation for expansion.

I urge the Commission, in the strongest possible terms, to remove the Niagara Falls AFB from the Pentagon's recommended list of base closures and to stop the continuing retreat of the military from our region of the country.

Sincerely,

William a Blyberg Sr.

Niagara Falls, NY 14304-0231

Dear Chairman Principi and BRAC Commissioners:

I am deeply troubled by the Defense Department's recommendation to close the Niagara Falls Air Force Reserve Base. This recommendation is a terrible mistake and I urge the BRAC Commission to reverse this decision and remove the Niagara Falls Base from the list.

It is hard to understand why the Air Force has decided to take planes, missions, and jobs away from so many Air Guard and Air Reserve bases and put them on more costly Active Duty bases. Of all the bases to pick to close, how do you close the base whose unit was able to help rescue Jessica Lynch in Iraq because they are the lead night vision C-130 unit in the Reserves? You must also recognize:

1. The federal government has invested more than $35 million in Niagara Falls since 1995 in new facilities.
2. Base Operations Support costs have been reduced more than 33% (to include a 25% reduction in utilities) to make the base one of the most cost-efficient facilities in the Air Force Reserve Command.
3. Closure of the base eliminates the ability to recruit and retain New Yorkers in a region in which the units have both maintained in excess of 100% manning rates.
4. Niagara Falls' existing infrastructure can accommodate eight (8) additional C-130H model aircraft without any military construction.
5. Niagara Falls faces no physical encroachment nor air traffic control constraints and has acreage on the base and adjacent to the installation for expansion.

I urge the Commission, in the strongest possible terms, to remove the Niagara Falls AFB from the Pentagon's recommended list of base closures and to stop the continuing retreat of the military from our region of the country.

Sincerely,

Ryan Hoerner

Dear Chairman Principi and BRAC Commissioners:

I am deeply troubled by the Defense Department's recommendation to close the Niagara Falls Air Force Reserve Base. This recommendation is a terrible mistake and I urge the BRAC Commission to reverse this decision and remove the Niagara Falls Base from the list.

It is hard to understand why the Air Force has decided to take planes, missions, and jobs away from so many Air Guard and Air Reserve bases and put them on more costly Active Duty bases. Of all the bases to pick to close, how do you close the base whose unit was able to help rescue Jessica Lynch in Iraq because they are the lead night vision C-130 unit in the Reserves? You must also recognize:

1. The federal government has invested more than $35 million in Niagara Falls since 1995 in new facilities.
2. Base Operations Support costs have been reduced more than 33% (to include a 25% reduction in utilities) to make the base one of the most cost-efficient facilities in the Air Force Reserve Command.
3. Closure of the base eliminates the ability to recruit and retain New Yorkers in a region in which the units have both maintained in excess of 100% manning rates.
4. Niagara Falls' existing infrastructure can accommodate eight (8) additional C-130H model aircraft without any military construction.
5. Niagara Falls faces no physical encroachment nor air traffic control constraints and has acreage on the base and adjacent to the installation for expansion.

I urge the Commission, in the strongest possible terms, to remove the Niagara Falls AFB from the Pentagon's recommended list of base closures and to stop the continuing retreat of the military from our region of the country.

You must also recognize:

1. The federal government has invested more than $35 million in Niagara Falls since 1995 in new facilities.
2. Base Operations Support costs have been reduced more than 33% (to include a 25% reduction in utilities) to make the base one of the most cost-efficient facilities in the Air Force Reserve Command.
3. Closure of the base eliminates the ability to recruit and retain New Yorkers in a region in which the units have both maintained in excess of 100% manning rates.
4. Niagara Falls' existing infrastructure can accommodate eight (8) additional C-130H model aircraft without any military construction.
5. Niagara Falls faces no physical encroachment nor air traffic control constraints and has acreage on the base and adjacent to the installation for expansion.

I urge the Commission, in the strongest possible terms, to remove the Niagara Falls AFB from the Pentagon's recommended list of base closures and to stop the continuing retreat of the military from our region of the country.

Sincerely,

Elizabeth A. Golden

Dear Chairman Principi and BRAC Commissioners:

I am deeply troubled by the Defense Department's recommendation to close the Niagara Falls Air Force Reserve Base. This recommendation is a terrible mistake and I urge the BRAC Commission to reverse this decision and remove the Niagara Falls Base from the list.

It is hard to understand why the Air Force has decided to take planes, missions, and jobs away from so many Air Guard and Air Reserve bases and put them on more costly Active Duty bases. Of all the bases to pick to close, how do you close the base whose unit was able to help rescue Jessica Lynch in Iraq because they are the lead night vision C-130 unit in the Reserves? You must also recognize:

1. The federal government has invested more than $35 million in Niagara Falls since 1995 in new facilities.
2. Base Operations Support costs have been reduced more than 33% (to include a 25% reduction in utilities) to make the base one of the most cost-efficient facilities in the Air Force Reserve Command.
3. Closure of the base eliminates the ability to recruit and retain New Yorkers in a region in which the units have both maintained in excess of 100% manning rates.

Dear Chairman Principi and BRAC Commissioners:

I am deeply troubled by the Defense Department's recommendation to close the Niagara Falls Air Force Reserve Base. This recommendation is a terrible mistake and I urge the BRAC Commission to reverse this decision and remove the Niagara Falls Base from the list.

It is hard to understand why the Air Force has decided to take planes, missions, and jobs away from so many Air Guard and Air Reserve bases and put them on more costly Active Duty bases. Of all the bases to pick to close, how do you close the base whose unit was able to help rescue Jessica Lynch in Iraq because they are the lead night vision C-130 unit in the Reserves? You must also recognize:

1. The federal government has invested more than $35 million in Niagara Falls since 1995 in new facilities.
2. Base Operations Support costs have been reduced more than 33% (to include a 25% reduction in utilities) to make the base one of the most cost-efficient facilities in the Air Force Reserve Command.
3. Closure of the base eliminates the ability to recruit and retain New Yorkers in a region in which the units have both maintained in excess of 100% manning rates.
4. Niagara Falls' existing infrastructure can accommodate eight (8) additional C-130H model aircraft without any military construction.
5. Niagara Falls faces no physical encroachment nor air traffic control constraints and has acreage on the base and adjacent to the installation for expansion.

I urge the Commission, in the strongest possible terms, to remove the Niagara Falls AFB from the Pentagon's recommended list of base closures and to stop the continuing retreat of the military from our region of the country.

Sincerely,

Rosemarie Massara

Niagara Falls, NY 14304-0231

Dear Chairman Principi and BRAC Commissioners:

I am deeply troubled by the Defense Department's recommendation to close the Niagara Falls Air Force Reserve Base. This recommendation is a terrible mistake and I urge the BRAC Commission to reverse this decision and remove the Niagara Falls Base from the list.

It is hard to understand why the Air Force has decided to take planes, missions, and jobs away from so many Air Guard and Air Reserve bases and put them on more costly Active Duty bases. Of all the bases to pick to close, how do you close the base whose unit was able to help rescue Jessica Lynch in Iraq because they are the lead night vision C-130 unit in the Reserves? You must also recognize:

1. The federal government has invested more than $35 million in Niagara Falls since 1995 in new facilities.
2. Base Operations Support costs have been reduced more than 33% (to include a 25% reduction in utilities) to make the base one of the most cost-efficient facilities in the Air Force Reserve Command.
3. Closure of the base eliminates the ability to recruit and retain New Yorkers in a region in which the units have both maintained in excess of 100% manning rates.
4. Niagara Falls' existing infrastructure can accommodate eight (8) additional C-130H model aircraft without any military construction.
5. Niagara Falls faces no physical encroachment nor air traffic control constraints and has acreage on the base and adjacent to the installation for expansion.

I urge the Commission, in the strongest possible terms, to remove the Niagara Falls AFB from the Pentagon's recommended list of base closures and to stop the continuing retreat of the military from our region of the country.

Sincerely,

Rose S. Paluszak

Niagara Falls, NY 14304-0231

Dear Chairman Principi and BRAC Commissioners:

I am deeply troubled by the Defense Department's recommendation to close the Niagara Falls Air Force Reserve Base. This recommendation is a terrible mistake and I urge the BRAC Commission to reverse this decision and remove the Niagara Falls Base from the list.

It is hard to understand why the Air Force has decided to take planes, missions, and jobs away from so many Air Guard and Air Reserve bases and put them on more costly Active Duty bases. Of all the bases to pick to close, how do you close the base whose unit was able to help rescue Jessica Lynch in Iraq because they are the lead night vision C-130 unit in the Reserves? You must also recognize:

1. The federal government has invested more than $35 million in Niagara Falls since 1995 in new facilities.
2. Base Operations Support costs have been reduced more than 33% (to include a 25% reduction in utilities) to make the base one of the most cost-efficient facilities in the Air Force Reserve Command.
3. Closure of the base eliminates the ability to recruit and retain New Yorkers in a region in which the units have both maintained in excess of 100% manning rates.
4. Niagara Falls' existing infrastructure can accommodate eight (8) additional C-130H model aircraft without any military construction.
5. Niagara Falls faces no physical encroachment nor air traffic control constraints and has acreage on the base and adjacent to the installation for expansion.

I urge the Commission, in the strongest possible terms, to remove the Niagara Falls AFB from the Pentagon's recommended list of base closures and to stop the continuing retreat of the military from our region of the country.

Sincerely,

Teresa M Lee

Dear Chairman Principi and BRAC Commissioners:

I am deeply troubled by the Defense Department's recommendation to close the Niagara Falls Air Force Reserve Base. This recommendation is a terrible mistake and I urge the BRAC Commission to reverse this decision and remove the Niagara Falls Base from the list.

It is hard to understand why the Air Force has decided to take planes, missions, and jobs away from so many Air Guard and Air Reserve bases and put them on more costly Active Duty bases. Of all the bases to pick to close, how do you close the base whose unit was able to help rescue Jessica Lynch in Iraq because they are the lead night vision C-130 unit in the Reserves? You must also recognize:

1. The federal government has invested more than $35 million in Niagara Falls since 1995 in new facilities.
2. Base Operations Support costs have been reduced more than 33% (to include a 25% reduction in utilities) to make the base one of the most cost-efficient facilities in the Air Force Reserve Command.
3. Closure of the base eliminates the ability to recruit and retain New Yorkers in a region in which the units have both maintained in excess of 100% manning rates.
4. Niagara Falls' existing infrastructure can accommodate eight (8) additional C-130H model aircraft without any military construction.
5. Niagara Falls faces no physical encroachment nor air traffic control constraints and has acreage on the base and adjacent to the installation for expansion.

I urge the Commission, in the strongest possible terms, to remove the Niagara Falls AFB from the Pentagon's recommended list of base closures and to stop the continuing retreat of the military from our region of the country.

Sincerely,

Donna Schuchin

Niagara Falls, NY 14304-0231

Dear Chairman Principi and BRAC Commissioners:

I am deeply troubled by the Defense Department's recommendation to close the Niagara Falls Air Force Reserve Base. This recommendation is a terrible mistake and I urge the BRAC Commission to reverse this decision and remove the Niagara Falls Base from the list.

It is hard to understand why the Air Force has decided to take planes, missions, and jobs away from so many Air Guard and Air Reserve bases and put them on more costly Active Duty bases. Of all the bases to pick to close, how do you close the base whose unit was able to help rescue Jessica Lynch in Iraq because they are the lead night vision C-130 unit in the Reserves? You must also recognize:

1. The federal government has invested more than $35 million in Niagara Falls since 1995 in new facilities.
2. Base Operations Support costs have been reduced more than 33% (to include a 25% reduction in utilities) to make the base one of the most cost-efficient facilities in the Air Force Reserve Command.
3. Closure of the base eliminates the ability to recruit and retain New Yorkers in a region in which the units have both maintained in excess of 100% manning rates.
4. Niagara Falls' existing infrastructure can accommodate eight (8) additional C-130H model aircraft without any military construction.
5. Niagara Falls faces no physical encroachment nor air traffic control constraints and has acreage on the base and adjacent to the installation for expansion.

I urge the Commission, in the strongest possible terms, to remove the Niagara Falls AFB from the Pentagon's recommended list of base closures and to stop the continuing retreat of the military from our region of the country.

Sincerely,

Shelly Stam

Dear Chairman Principi and BRAC Commissioners:

I am deeply troubled by the Defense Department's recommendation to close the Niagara Falls Air Force Reserve Base. This recommendation is a terrible mistake and I urge the BRAC Commission to reverse this decision and remove the Niagara Falls Base from the list.

It is hard to understand why the Air Force has decided to take planes, missions, and jobs away from so many Air Guard and Air Reserve bases and put them on more costly Active Duty bases. Of all the bases to pick to close, how do you close the base whose unit was able to help rescue Jessica Lynch in Iraq because they are the lead night vision C-130 unit in the Reserves? You must also recognize:

1. The federal government has invested more than $35 million in Niagara Falls since 1995 in new facilities.
2. Base Operations Support costs have been reduced more than 33% (to include a 25% reduction in utilities) to make the base one of the most cost-efficient facilities in the Air Force Reserve Command.
3. Closure of the base eliminates the ability to recruit and retain New Yorkers in a region in which the units have both maintained in excess of 100% manning rates.
4. Niagara Falls' existing infrastructure can accommodate eight (8) additional C-130H model aircraft without any military construction.
5. Niagara Falls faces no physical encroachment nor air traffic control constraints and has acreage on the base and adjacent to the installation for expansion.

I urge the Commission, in the strongest possible terms, to remove the Niagara Falls AFB from the Pentagon's recommended list of base closures and to stop the continuing retreat of the military from our region of the country.

Sincerely,

Kathy Stevenson

2. Base Operations Support costs have been reduced more than 33% (to include a 25% reduction in utilities) to make the base one of the most cost-efficient facilities in the Air Force Reserve Command.
3. Closure of the base eliminates the ability to recruit and retain New Yorkers in a region in which the units have both maintained in excess of 100% manning rates.
4. Niagara Falls' existing infrastructure can accommodate eight (8) additional C-130H model aircraft without any military construction.
5. Niagara Falls faces no physical encroachment nor air traffic control constraints and has acreage on the base and adjacent to the installation for expansion.

I urge the Commission, in the strongest possible terms, to remove the Niagara Falls AFB from the Pentagon's recommended list of base closures and to stop the continuing retreat of the military from our region of the country.

Sincerely,

Beverly Wendlan

Dear Chairman Principi and BRAC Commissioners:

I am deeply troubled by the Defense Department's recommendation to close the Niagara Falls Air Force Reserve Base. This recommendation is a terrible mistake and I urge the BRAC Commission to reverse this decision and remove the Niagara Falls Base from the list.

It is hard to understand why the Air Force has decided to take planes, missions, and jobs away from so many Air Guard and Air Reserve bases and put them on more costly Active Duty bases. Of all the bases to pick to close, how do you close the base whose unit was able to help rescue Jessica Lynch in Iraq because they are the lead night vision C-130 unit in the Reserves? You must also recognize:

1. The federal government has invested more than $35 million in Niagara Falls since 1995 in new facilities.
2. Base Operations Support costs have been reduced more than 33% (to include a 25% reduction in utilities) to make the base one of the most cost-efficient facilities in the Air Force Reserve Command.
3. Closure of the base eliminates the ability to recruit and retain New Yorkers in a region in which the units have both maintained in excess of 100% manning rates.
4. Niagara Falls' existing infrastructure can accommodate eight (8) additional C-130H model aircraft without any military construction.

I am deeply troubled by the Defense Department's recommendation to close the Niagara Falls Air Force Reserve Base. This recommendation is a terrible mistake and I urge the BRAC Commission to reverse this decision and remove the Niagara Falls Base from the list.

It is hard to understand why the Air Force has decided to take planes, missions, and jobs away from so many Air Guard and Air Reserve bases and put them on more costly Active Duty bases. Of all the bases to pick to close, how do you close the base whose unit was able to help rescue Jessica Lynch in Iraq because they are the lead night vision C-130 unit in the Reserves? You must also recognize:

1. The federal government has invested more than $35 million in Niagara Falls since 1995 in new facilities.
2. Base Operations Support costs have been reduced more than 33% (to include a 25% reduction in utilities) to make the base one of the most cost-efficient facilities in the Air Force Reserve Command.
3. Closure of the base eliminates the ability to recruit and retain New Yorkers in a region in which the units have both maintained in excess of 100% manning rates.
4. Niagara Falls' existing infrastructure can accommodate eight (8) additional C-130H model aircraft without any military construction.
5. Niagara Falls faces no physical encroachment nor air traffic control constraints and has acreage on the base and adjacent to the installation for expansion.

I urge the Commission, in the strongest possible terms, to remove the Niagara Falls AFB from the Pentagon's recommended list of base closures and to stop the continuing retreat of the military from our region of the country.

Sincerely,

Mrs Garnett R. Garland

Dear Chairman Principi and BRAC Commissioners:

I am deeply troubled by the Defense Department's recommendation to close the Niagara Falls Air Force Reserve Base. This recommendation is a terrible mistake and I urge the BRAC Commission to reverse this decision and remove the Niagara Falls Base from the list.

It is hard to understand why the Air Force has decided to take planes, missions, and jobs away from so many Air Guard and Air Reserve bases and put them on more costly Active Duty bases. Of all the bases to pick to close, how do you close the base whose unit was able to help rescue Jessica Lynch in Iraq because they are the lead night vision C-130 unit in the Reserves? You must also recognize:

1. The federal government has invested more than $35 million in Niagara Falls since 1995 in new facilities.
2. Base Operations Support costs have been reduced more than 33% (to include a 25% reduction in utilities) to make the base one of the most cost-efficient facilities in the Air Force Reserve Command.
3. Closure of the base eliminates the ability to recruit and retain New Yorkers in a region in which the units have both maintained in excess of 100% manning rates.
4. Niagara Falls' existing infrastructure can accommodate eight (8) additional C-130H model aircraft without any military construction.
5. Niagara Falls faces no physical encroachment nor air traffic control constraints and has acreage on the base and adjacent to the installation for expansion.

I urge the Commission, in the strongest possible terms, to remove the Niagara Falls AFB from the Pentagon's recommended list of base closures and to stop the continuing retreat of the military from our region of the country.

Sincerely,

Mary Ann Jackson

Dear Chairman Principi and BRAC Commissioners:

I am deeply troubled by the Defense Department's recommendation to close the Niagara Falls Air Force Reserve Base. This recommendation is a terrible mistake and I urge the BRAC Commission to reverse this decision and remove the Niagara Falls Base from the list.

It is hard to understand why the Air Force has decided to take planes, missions, and jobs away from so many Air Guard and Air Reserve bases and put them on more costly Active Duty bases. Of all the bases to pick to close, how do you close the base whose unit was able to help rescue Jessica Lynch in Iraq because they are the lead night vision C-130 unit in the Reserves? You must also recognize:

1. The federal government has invested more than $35 million in Niagara Falls since 1995 in new facilities.
2. Base Operations Support costs have been reduced more than 33% (to include a 25% reduction in utilities) to make the base one of the most cost-efficient facilities in the Air Force Reserve Command.
3. Closure of the base eliminates the ability to recruit and retain New Yorkers in a region in which the units have both maintained in excess of 100% manning rates.
4. Niagara Falls' existing infrastructure can accommodate eight (8) additional C-130H model aircraft without any military construction.
5. Niagara Falls faces no physical encroachment nor air traffic control constraints and has acreage on the base and adjacent to the installation for expansion.

I urge the Commission, in the strongest possible terms, to remove the Niagara Falls AFB from the Pentagon's recommended list of base closures and to stop the continuing retreat of the military from our region of the country.

Sincerely,

Michael Newport

Dear Chairman Principi and BRAC Commissioners:

I am deeply troubled by the Defense Department's recommendation to close the Niagara Falls Air Force Reserve Base. This recommendation is a terrible mistake and I urge the BRAC Commission to reverse this decision and remove the Niagara Falls Base from the list.

It is hard to understand why the Air Force has decided to take planes, missions, and jobs away from so many Air Guard and Air Reserve bases and put them on more costly Active Duty bases. Of all the bases to pick to close, how do you close the base whose unit was able to help rescue Jessica Lynch in Iraq because they are the lead night vision C-130 unit in the Reserves? You must also recognize:

1. The federal government has invested more than $35 million in Niagara Falls since 1995 in new facilities.
2. Base Operations Support costs have been reduced more than 33% (to include a 25% reduction in utilities) to make the base one of the most cost-efficient facilities in the Air Force Reserve Command.
3. Closure of the base eliminates the ability to recruit and retain New Yorkers in a region in which the units have both maintained in excess of 100% manning rates.
4. Niagara Falls' existing infrastructure can accommodate eight (8) additional C-130H model aircraft without any military construction.
5. Niagara Falls faces no physical encroachment nor air traffic control constraints and has acreage on the base and adjacent to the installation for expansion.

I urge the Commission, in the strongest possible terms, to remove the Niagara Falls AFB from the Pentagon's recommended list of base closures and to stop the continuing retreat of the military from our region of the country.

Sincerely,

Matthew J. Mancini (Matthew J. Mancini)

Niagara Falls, NY 14304-0231

Dear Chairman Principi and BRAC Commissioners:

I am deeply troubled by the Defense Department's recommendation to close the Niagara Falls Air Force Reserve Base. This recommendation is a terrible mistake and I urge the BRAC Commission to reverse this decision and remove the Niagara Falls Base from the list.

It is hard to understand why the Air Force has decided to take planes, missions, and jobs away from so many Air Guard and Air Reserve bases and put them on more costly Active Duty bases. Of all the bases to pick to close, how do you close the base whose unit was able to help rescue Jessica Lynch in Iraq because they are the lead night vision C-130 unit in the Reserves? You must also recognize:

1. The federal government has invested more than $35 million in Niagara Falls since 1995 in new facilities.
2. Base Operations Support costs have been reduced more than 33% (to include a 25% reduction in utilities) to make the base one of the most cost-efficient facilities in the Air Force Reserve Command.
3. Closure of the base eliminates the ability to recruit and retain New Yorkers in a region in which the units have both maintained in excess of 100% manning rates.
4. Niagara Falls' existing infrastructure can accommodate eight (8) additional C-130H model aircraft without any military construction.
5. Niagara Falls faces no physical encroachment nor air traffic control constraints and has acreage on the base and adjacent to the installation for expansion.

I urge the Commission, in the strongest possible terms, to remove the Niagara Falls AFB from the Pentagon's recommended list of base closures and to stop the continuing retreat of the military from our region of the country.

Sincerely,

Lloyd J Reeves Margaret T. Reeves

Dear Chairman Principi and BRAC Commissioners:

I am deeply troubled by the Defense Department's recommendation to close the Niagara Falls Air Force Reserve Base. This recommendation is a terrible mistake and I urge the BRAC Commission to reverse this decision and remove the Niagara Falls Base from the list.

It is hard to understand why the Air Force has decided to take planes, missions, and jobs away from so many Air Guard and Air Reserve bases and put them on more costly Active Duty bases. Of all the bases to pick to close, how do you close the base whose unit was able to help rescue Jessica Lynch in Iraq because they are the lead night vision C-130 unit in the Reserves? You must also recognize:

1. The federal government has invested more than $35 million in Niagara Falls since 1995 in new facilities.
2. Base Operations Support costs have been reduced more than 33% (to include a 25% reduction in utilities) to make the base one of the most cost-efficient facilities in the Air Force Reserve Command.
3. Closure of the base eliminates the ability to recruit and retain New Yorkers in a region in which the units have both maintained in excess of 100% manning rates.
4. Niagara Falls' existing infrastructure can accommodate eight (8) additional C-130H model aircraft without any military construction.
5. Niagara Falls faces no physical encroachment nor air traffic control constraints and has acreage on the base and adjacent to the installation for expansion.

I urge the Commission, in the strongest possible terms, to remove the Niagara Falls AFB from the Pentagon's recommended list of base closures and to stop the continuing retreat of the military from our region of the country.

Sincerely,

Mrs. Theresa A. Lisinski
