DCN 2357

RECEIVED

Brigadier General Sue E. Turner:

My husband and I are writing to you with regard to Cannon Air Force Base in Clovis, New Mexico

We ask you to please listen to all the facts that will be presented to you and take time to see our Clovis. Then consider all the facts when deciding to close the base.

We don't claim to know all the facts on your side of the story or what you need from us. We are ordinary people with concerns for our city and for the safety of our country.

Please consider the bombing range so near the base - all the open air space available - the community support - educational benefits available - the economic impact the closure would have on a large area - great medical services.

Please keep Cannon open working to keep our nation safe
