Brandon:

Here is the "official" ARI response to the BRAC questions raised by Mike Avenick. Please pass them on to him. If you need anything else, please don't hesitate to ask.

**BRAC Recommendation**

Realign Army Research Institute, Fort Knox, KY, by relocating Human Systems Research to Aberdeen Proving Ground, MD.

Considerations:

The ARI office at Fort Knox supports ARI's research mission to improve training and human performance of Soldiers and units. This research requires ready access to troops, and is especially facilitated with the planned incoming Brigade Combat Team and reserve training activities at Ft Knox.

In addition, other activities that ARI currently supports in Virginia locations (e.g., Human Resources Command, Accessions Command) are being relocated into Knox.
