Brac Commission

DCN 4102 07 0 1 2 0 0 5 RECEIVED

go ahead + close the base in Clovis this place doesn't have any more to offer than any other small dessert town, and what this Committee of 50 really are not saying is that you are keeping them rich several local business owners whom govern this town and make decisions on what businesses can come to this town of which are ~~nothreat~~ no threat to thier finances, what this Committee is really worried about is keeping thier pockets lined with money from this installation nothing else that is the one and only reason this Committee wants this facility open is to keep them rich they could care less about air space which is abundant anyway + the melrose bombing range is nothing to talk about it looks like a waste of money. All of thier points to keep cannon can be made anywhere else clovis has less to offer anyone unless you are one of these rich citizens you mean nothing. Why would someone drive all the way to clovis from Amarillo or lubbock just to come to clovis if anything we go thier to get away from this place. Close cannon so we have a chance as well as citizens from day 1
