***Mr. Bob Meyer
Director

1401 Oak St.
Roslyn VA 22209***

Dear Mr. Meyer:

I respectfully request a written response from the Department of Defense concerning the following question.

The Department provided Environmental Restoration cost data and to some extent provided Military Munitions Response Program (MMRP) cost data for each facility recommended for closure. The Department considered MMRP cost as restoration cost and therefore they were not included in the COBRA model. It appears the Department would not have closed the ranges if the facility had remained open. Please explain the rational for not including the cost to close operational or active ranges, a cost the Department would not have incurred, as one-time cost in the COBRA model.

I would appreciate your response by July 25, 2005. Please provide a control number for this request and do not hesitate to contact me if I can provide further information concerning this request.

Yours sincerely,

***Frank Cirillo
Director
Review & Analysis***

Thank you for the response to my query. I will offer some follow-up thoughts on the reply in the immediate future.

We will of course post this response on our web site but firmly maintain that OSD retains the requirement to notify the appropriate congressional offices within the legislative time limits as in all other formal replies to Commission requests per the appropriate legislation as excerpted below:

(B) Subparagraph (A) applies to the following persons:

(i) The Secretaries of the military departments.

(ii) The heads of the Defense Agencies.

(iii) Each person who is in a position the duties of which include personal and substantial involvement in the preparation and submission of information and recommendations concerning the closure or realignment of military installations, as designated in regulations which the Secretary of Defense shall prescribe, regulations which the Secretary of each military department shall prescribe for personnel within that military department, or regulations which the head of each Defense Agency shall prescribe for personnel within that Defense Agency.

(6) Any information provided to the Commission by a person described in paragraph (5)(B) shall also be submitted to the Senate and the House of Representatives to be made available to the Members of the House concerned in accordance with the rules of that House. The

information shall be submitted to the Senate and House of Representatives within 24 hours after

the submission of the information to the Commission.

...as ammended for 2005

REALIGNMENTS AND CLOSURES FOR 2005 ROUND; COMMISSION CONSIDERATION OF RECOMMENDATIONS.

- (a) RECOMMENDATIONS REGARDING CLOSURE OR REALIGNMENT OF MILITARY INSTALLATIONS.—If the Secretary makes the certifications required under section 2912(b), the Secretary shall publish in the Federal Register and transmit to the congressional defense committees and the Commission, not later than May 16, 2005, a list of the military installations inside the United States that the Secretary recommends for closure or realignment on the basis of the force-structure plan and infrastructure inventory prepared by the Secretary under section 2912 and the final selection criteria specified in section 2913.
- (b) PREPARATION OF RECOMMENDATIONS.—
- (1) IN GENERAL.—The Secretary shall comply with paragraphs (2) through (6) of section 2903(c) in preparing and transmitting the recommendations under this section. However, paragraph (6) of section 2903(e) relating to submission of information to Congress shall be deemed to require such submission within 48 hours.

1). Please have Air National Guard and U S Air Force jointly reply to the following question as an indirect result of testimony during the 18 July ANG Panel:

The Air Force representatives have stated numerous times in testimony, Clearinghouse replies or during working level meetings that Hq USAF staff are precluded from directly communicating with representative Adjutants General directly and must go through the National Guard Bureau for all such communication.

Although this concept theoretically makes organizational sense, such seemingly unyielding restrictions appear to have hindered and will further hinder collaboration regarding resolution and comprehension of the publicly controversial ANG recommendations.

Please jointly cite the formal legislative or regulatory restriction prohibiting such direct communication, which if conducted, would seem to facilitate teamwork and mutual understanding of state and federal mission perceptions.

- 2). Please request Northern Command and US Air Force jointly reply to the following question as an indirect result of testimony during the 18 July ANG Panel:

We have heard from both Northern Command and from the Department of Homeland Security that neither entity has concern with the impact of the air defense aircraft lay downs to include full time and alert airfields resulting from the ANG recommendations, especially in the NE, NW, SE and Mississippi River sectors. Organizationally, it would appear such lay downs would be better initiated from Northern Command than suggested to Northern Command from USAF. Please provide comments or correspondence related to how the USAF and ANG air defense lay downs were generated to potentially alleviate Commission concerns related to Community allegations regarding Air Defense seams, gaps and outright oversights. Relating this response to an earlier query regarding "Strategic Presense" would seem in order.
