Dear BRAC Commission,
I am writing to you to ask you please don't close Cannon Air Force Base. There is alot of people living here including children. There's so much space here for people and animals to live. It will also affect the military people stationed here, everybody will also be moved somewhere else. There's also alot of open space for training. There is educational opportunities for servicemen with 2 colleges here. This place has great climate which we need. Cannon Air Force base is a great place to be if you haven't been here you should come see what I mean. The places here are really fun. Cannon Air Force base is an important place to be. Some people have been here all of their life. People also have family members here. Our community has so much stuff here that would be closing. Also the Melrose Bombing range is here. We also have Super Sonic Air Space here. It cost alot of money to make Cannon Air Force base. Any type of airplane could be in CAFB. You should come here and see it for yourself. It's a great place to be in.

Sincerly,
genae McCullum 4th grade
