Hi my name is Samantha Henderson and I am from Portales High School. I dont think it is fair that the Base could get closed. I have personal reasons, one because I have many friends that are in a military family and if it were to shut down then they would have to move some where else and I would lose a friendship. Another reason is the losing money should have been thought about before hand and none of this would be happening. Portales and Clovis rely on the base in many ways and without it I think it could effect us in many ways (BAD WAYS) So if you could please re-think this decision it would really make, not only me happy, but everyone else effected by the decision.

Thank you,

Samantha
Henderson
