Dear Madam or Sir,

Please, do not close cannan. If you close it people who work at the schools will have to get fired. I will never see my friends again, they will be lost. An empty spot will occur in many peoples lives. 11 out of 22 students are involved in the air force. As you know Clovis is a very small town, if you close down the cannan base it will become very somall and empty. Please, do not close the cannan base. I will not thank you if you do. Just think how much your efecting every one by closing cannan. You are taking away close friends, loved ones, and most important relatives. What if someone was taking away friends, loved ones, and relatives away from you. How would you feel? What would you do? That is what people here, in Clovis, are thinking. Now you think about it.

Sincerly,
Cecilia Harris
