Dear Madam or Sir,

I don't want the base to shut down. I will tell you all the reasones why. 1. One of the reasons why is because if they shut down the base there will be a impacted on schools, about ½ of all classes students are in the military. That will mean that some teachers will get fired, (and have no money for a roof over there head, or food to put in there mouth).

The air space in clovis, the air is very good for flying around in the air, very good oxygen to breath in oxygen.

The bombing range in clovis is very good and now they said that other bases will fly 3 to 4 miles just to get to the base, it make no sence to do that.

The base has sent so many million remaking, and building things they just redid the golf corse, and the main entrance so that it wont look cruddy, (so that it will look good for the base.)

Sincerely,
Daniel
