RECEIVED 5/23/05 RY

To whom it may concern:

I have lived in Clovis, New Mexico all my life. I married a airman at Cannon Air Force Base many years ago. My husband died of a heart attack 20 years ago & I came back to Clovis to live because of the base & the care I could get at our base hospital. Well that didn't work out well because all we have now is a pharmacy. I get all my medicine out there & I'm a Senior citizen woman 71 years of age. My sister lives in Albuquerque, New Mexico home of Kirtland A.F.B. & that town has more industry & people than they can take care of. Our town is not rough but the people here are nice to each other & no one takes better care of the people stationed here than we do.

The weather here is good most of the time and we have wide open spaces so the planes are able to fly all the time. Some of the farmers might gripe but they do that anyway.

Please take us off the closure list & put someone else on that list who doesn't love their base as much as we do.

We love our town & Cannon A.F.B. so please help us out.

Thank you,

Mrs. Sondra Neal
