Dear Madam or Sir,

I think you should not close down Cannon because we have lots of air space to fly in and we have good climate for flying. The most important thing is that the community wants to stay. This base is safe and I think that because there isnt a lot of terrisom and I dont think there has been any terrisom.

If you were to move almost as a senior do you know how hard it would be to go to a new school? How would you feel? I sure wouldnt like it at all. Just think about what you are doing.

If you keep the Bombing range it sure would be stupid! They put lots of Effort and money to it. Its a waste of jet fuel. Its a waste of bombs. I think that is really stupid. They also put alot of money on the golf course. So that a waste of money.

I would also like to say that people bought land to build houses so thats definethy a waste of money.

Sincerely
Cody McCready
