Dear Sir or Madam,

I know you want to close down Cannon. I also know that it will have to closedown 801 housing if it happens. I have only been in Clovis for a year and it isent such a bad place. The only place I like is Cannon here. Since it is a good town and safe. Only the Air force base is helping it be safe here. There are a lot of good things about it and Air Space is one of them.

Cannon has a lot of air space for riding the planes. It also has good weather for fling in the air it dose not rain and is not scranded by water. For people who lived here a long time they would not want to move.

I was living in Oklahoma a longtime and we had to move here. I knew my place around Tinker and lived there ten years. I could close my eyes and walk around my house with them closed. There I found out I was moving. I didnot make frinds at first and it take a while for me to just fit in, but it would be just horrible to see another kid go as well. Plese save Cannon.

Sencerly
Patricia Farrell
