Dear Sir or Madom,

Please keep cannon, If it goes, 1/10 of the 22 people in my class will leave. Half the students are my friends. Then all the people would leave and one of the three teachers.

Clovis is probley a good place to fly F-16's. The weather is perfect they can fly 320 out of 365 days, thats pretty good. We have good air space in Clovis because we don't have airliners flying over head all the time, and tall building that could be in the way. Clovis is really safe, we don't have alot of crime and why would a terriost want to bomb anything in this boring old town? The biggest building in town is Hotel Clovis and that is old! If it got knocked down we would probley clap. We have a bombing range near by in Melrose too!

So we have good air space, a bombing range, good weather, safe town. So it sounds like a pretty good town. So keep cannon please!

Sincerely
Kyle Ferguson
