Dear Madam or Sir,

Please do not close down Cannon. If you do then one of my very best friends, Randi, will have to move far, far away, and I'll probably never see her again. Also if you close down the Base Me and my very best friend, Cecilia, might have to move away. Plus we have tons, and tons of air space, because not any commercial airlines fly into Clovis, NM.

And we have a practice bombing area in Roswell, because all of that land is useless because you can not grow anything on that land.

It doesn't make sense to close down the base, but then still fly in planes from 2 or 3 hours away just to use the bombing range! You should keep the base, so they can use the bombing range!

Sincerely,
Bethany
