Dear Madam or Sir,

Please do not close Cannon airforce base down it is to important to Clovis schools and community. The schools will lose a bunch of kids my class alone will loose half of our kids so a teacher would have to leave because the other classes are to small. The community will get very small and lots of peoples friends will leave and kids will have to go to a new school and other kids will have to swich classes.

If you shut the base down but leave the bombing range open you will have to fly three hours just to bomb that doesn't make sence. Planes will have to refuel when they get here, if you leave cannon here planes will only have to fly a few min. So please just leave cannon here.

Sincerly,
Brice Stacy
