RECEIVED 5/23/05

BRAC Commission:

I am writing concerning your destruction of Cannon AFB. I know you don't care whether Clovis ceases to exist or not, but why ape Cannon.

Here the weather permits year round flying. They were working on an easement for supersonic flight. There's plenty of flying space without city encroachment. There's a training field nearby.

Have you ever considered that if you consolidate all the bases that you are making it <u>real</u> <u>easy</u> for terrorists to come in and wipe out all the military before they can be stopped or don't you care about them either.

Please remove Cannon AFB from the chopping block.

Sincerely,

Faye Pittman
