General Lloyd W. Newton

Please reconsider the proposed closing of Cannon Air Force Base. This closure would have a devastating impact on our economy, schools and many other situations. We have felt that Cannon has contributed greatly to the defense of our country in all past conflicts and will continue to do so.

The base has an ideal location, with it's bombing range only seconds away, and air space to fly at supersonic speeds. Our weather is ideal for year-round flying, among many other benefits.

Please help us keep Cannon!

Respectfully yours,

Glenn and Ila Faye Widener
