GT Convention site for Atlanta meeting available all day.

Adds hearing on 21 Jul likely to be 1/2 day; day before we'll probably have GAO, DoD, re-use, and environmental folks testify at hearing. (SECDEF response to possible adds list due 19 Jul.)

R&A working up estimate of how long each recommendation presentation will take. Once determined it will be a matter of that number of minutes times 190 (more if there are adds) to set the expected number of days required for final deliberations (due to begin on 23 Aug). Likely 4-5 days.

The final deliberation hearings will be at the Hilton Hotel across the street. CNN certain to cover. Congress will be in recess at the time.

Congressional testimony was scheduled for 29-30 July. Now it's 28-29 Jul.

Preliminary list of adds will be developed and provided for commissioner consideration sometime around 26 June.

R&A has done a good job identifying recusal impact. We will verify their conclusions and have a for-certain list available for the adds and final deliberation hearings.

Charlie will be getting from ANSER weekly a short summary of public input.

Plans with mass mailings is to post one letter and note that we received "300 more." All copies will be maintained in the two libraries.

PAO will be developing a representative assortment of public comments to include in the visit books.

Diane bought an automatic letter opener -- ANSER is pleased.

Marty is looking into the radiation of mail. Will produce a 3-7 delay.

DEPARTMENT OF DEFENSE

Waiver of 10 U.S.C. 2534 for Certain Defense Items Produced in the United Kingdom

AGENCY: Department of Defense (DoD).

ACTION: Notice of waiver of 10 U.S.C. 2534 for certain defense items produced in the United Kingdom.

SUMMARY: The Under Secretary of Defense (Acquisition, Technology, and Logistics) is waiving the limitation of 10 U.S.C. 2534 for certain defense items produced in the United Kingdom (UK). 10 U.S.C. 2534 limits DoD procurement of certain items to sources in the national technology and industrial base. The waiver will permit procurement of items enumerated from sources in the UK, unless otherwise restricted by statute.

DATES: This waiver is effective for one year, beginning July 14, 2005.

FOR FURTHER INFORMATION CONTACT: Ms. Barbara Glotfelty, OUSD (AT&L), Director of Defense Procurement and Acquisition Policy, Program Acquisition and International Contracting, Room 5E581, 3060 Defense Pentagon, Washington, DC 20301-3060, telephone (703) 697-9351.

SUPPLEMENTARY INFORMATION: Subsection (a) of 10 U.S.C. 2534 provides that the Secretary of Defense may procure the items listed in that subsection only if the manufacturer of the item is part of the national

technology and industrial base. Subsection (i) of 10 U.S.C. 2534 authorizes the Secretary of Defense to exercise the waiver authority in subsection (d), on the basis of the applicability of paragraph (2) or (3) of that subsection, only if the waiver is made for a particular item listed in subsection (a) and for a particular foreign country. Subsection (d) authorizes a waiver if the Secretary determines that application of the limitation "would impede the reciprocal procurement of defense items under a memorandum of understanding providing for reciprocal procurement of defense items" and if he determines that "that country does not discriminate against defense items produced in the United States to a greater degree than the United States discriminates against defense items produced in that country." The Secretary of Defense has delegated the waiver authority of 10 U.S.C. 2534(d) to the Under Secretary of Defense (Acquisition, Technology, and Logistics).

DoD has had a Reciprocal Defense Procurement Memorandum of Understanding (MOU) with the UK since 1975, most recently renewed on December 16, 2004.

The Under Secretary of Defense (Acquisition, Technology, and Logistics) finds that the UK does not discriminate against defense items produced in the United States to a greater degree than the United States discriminates against defense items produced in the UK, and also finds that application of the limitation in 10 U.S.C. 2534 against defense items produced in the UK would impede the reciprocal procurement of defense items under the MOU.

Under the authority of 10 U.S.C. 2534, the Under Secretary of Defense (Acquisition, Technology, and Logistics) has determined that application of the limitation of 10 U.S.C. 2534(a) to the procurement of any defense item produced in the UK that is listed below would impede the reciprocal procurement of defense items under the MOU with the UK.

On the basis of the foregoing, the Under Secretary of Defense (Acquisition, Technology, and Logistics) is waiving the limitation in 10 U.S.C. 2534(a) for procurements of any defense item listed below that is produced in the UK. This waiver applies only to the limitations in 10 U.S.C. 2534(a). It does not apply to any other limitation, including sections 8016 and 8059 of the DoD Appropriations Act for Fiscal Year 2005 (Pub. L. 108-287). This waiver applies to procurements under solicitations issued during the period
