RECEIVED 5-23-05 JR

Dear Mr Bilbray

We have been doing our own informal survey of what we think the economic impact of this base closure would be. We have written with dozens of our approximately 650 clients, representatives from the city, schools and college and we believe the job loss % will be in excess of 35%.

This closing would drastically impact all but our agricultural clients. The loss of profits will just mean a huge loss of jobs.

Thank you

McKay + Co, PC
