Dear Sir:

When I was young I went through a base closing... Roswell, NM. I remember how it affected the local community. Allot of the shops closed, people left and even my friends at skool. The economy took a nose dive for ten years. I don't think our little community can take a hit like this. If you close "Cannon" you will be destroying our economy. We don't had ten years to come back!

Respectfully

Jane Blakeley

Dear Sir.

I was in Roswell, New Mexico when they closed the base there. Even though I was young I remember shops closing, people leaving and my classmates not coming back. It has taken Roswell ten years to come back. Our local communities are smaller the Roswell. I can't imagine what it will be like here. Please keep CANNON open.

Respectfully
Jane Blakeley

Dear Sir,

I would like for you to stop and rethink the closing of Cannon Airforce Base. Not only is it part of our community now, but I believe adds to our national security. I know this is a tough decision, but Cannon offers so much. A community that supports it, bombing range, perfect training weather.

Please, please keep CANNON open!

Respectfully
Jane Blakeley
