Brac Commission:

I know you all must be getting overwhelmed by letters regarding the BRAC list however as a citizen of the USA & my local community it is my duty to address my consider.

Cannon Air Force Base was a facility that was on this list. I am very considered because I have read over criteria for the decision of closures & realignments and this base ~~dos~~ doesn't meet the criteria.

CAFB is a base that has such a military advantage. We have supersonic air-space, absolutely no encroachments, ~~and~~ education opportunities for airforce & the cost to operate & live here is so low in relation to other areas.

As for the community impact,

RECEIVED

Cannon is a base that is wanted 200%. The community will not only lose & hurt economically but emotionally. We love the people the air force brings in! Not only our adults effective but our children.
When you live so close to a base our children are exposed to the diversity of people. It is hard to imagine how & why CAFB would even be considered one of the bases for closure but it has. Our community want you to know we want Cannon!!

We have military assests beyond & more than other facilities!! Again, Remember alpensonic airspace, weather conditions, no encroachments education, cost of living | operation, our family, friends, economic impact + so much more!!

I am refreshing the facts please Reconsider!!

Thanks,

Cherry Gallegos
