Dear General Lloyd W. Newton,

The BRAC commission's decision to close Cannon Air Force Base is very concerning towards me.

Having the Base open has helped me to continue my schooling here. The base is whe I can go & get information over my husband. I can use the facilites to go and see the doctor. Other wise I would haw to relocate and I realy wouldn't like to do that. My husband is deployed right know & having the base at Cannon realy helps everyone out. Many of the people that work at the base would be out of jobs & that can hurt the People.

Please reconsider before making your final decision.

Respectfully Yours,

Cecilia Soto
