Chairman Anthony J. Principi
Base Realignment and Closure Commission
2521 South Clark Street
Suite 600
Arlington, VA 22202

Dear Chairman Principi and BRAC Commisioners:

I was upset by the Defense Department's recommendation to close the Niagara Falls Air Force Reserve and Guard base. This recommendation is not in the nation's best interest and the BRAC Commission should reverse this decision and remove them from the closure list.

It is hard to understand why the Air Force has decided to take planes, missions and jobs away from so many Air Guard and Air Reserve bases and put them on the more costly Active Duty bases.

Also, even the newspapers say that we are facing significant challenges in recruiting during war time. As the only remaining major military installation in Western New York, Niagara Falls has been key to military recruitment.

The impact of this decision will be devastating to the New York Air National Guard and will make the Pentagon's efforts to recruit and retain military personnel even more difficult than it is now.

All New Yorkers stand with the Niagara Falls/Western New York community and are united in its support for this base, and its retention. Overturn the Pentagon's recommendation and keep the base open.

Sincerely,

Mary Pastwick

Dear Chairman Principi and BRAC Commissioners:

I was upset by the Defense Department's recommendation to close the Niagara Falls Air Force Reserve and Guard Base. This recommendation is not in the nation's best interest and the BRAC Commission should reverse this decision and remove them from the closure list.

It is hard to understand why the Air Force has decided to take planes, missions, and jobs away from so many Air Guard and Air Reserve bases and put them on the more costly Active Duty bases.

Also, even the newspapers say that we are facing significant challenges in recruiting during war time. As the only remaining major military installation in Western New York, Niagara Falls has been key to military recruitment.

The impact of this decision will be devastating to the New York Air Force Reserve and the Air National Guard and will make the Pentagon's efforts to recruit and retain military personnel even more difficult than it is now.

All New Yorkers stand with the Niagara Falls/Western New York community and are united in its support for this base, and its retention. Overturn the Pentagon's recommendation and keep the base open.

Sincerely,

Helga M Vanici

Base Realignment and Closure Commission
2521 South Clark Street
Suite 600
Arlington, VA 22202

Dear Chairman Principi and BRAC Commissioners:

I was upset by the Defense Department's recommendation to close the Niagara Falls Air Force Reserve and Guard Base. This recommendation is not in the nation's best interest and the BRAC Commission should reverse this decision and remove them from the closure list.

It is hard to understand why the Air Force has decided to take planes, missions, and jobs away from so many Air Guard and Air Reserve bases and put them on the more costly Active Duty bases.

Also, even the newspapers say that we are facing significant challenges in recruiting during war time. As the only remaining major military installation in Western New York, Niagara Falls has been key to military recruitment.

The impact of this decision will be devastating to the New York Air Force Reserve and the Air National Guard and will make the Pentagon's efforts to recruit and retain military personnel even more difficult than it is now.

All New Yorkers stand with the Niagara Falls/Western New York community and are united in its support for this base, and its retention. Overturn the Pentagon's recommendation and keep the base open.

Sincerely,

Roger D. Gates

Arlington, VA 22202

Dear Chairman Principi and BRAC Commissioners:

I was upset by the Defense Department's recommendation to close the Niagara Falls Air Force Reserve and Guard Base. This recommendation is not in the nation's best interest and the BRAC Commission should reverse this decision and remove them from the closure list.

It is hard to understand why the Air Force has decided to take planes, missions, and jobs away from so many Air Guard and Air Reserve bases and put them on the more costly Active Duty bases.

Also, even the newspapers say that we are facing significant challenges in recruiting during war time. As the only remaining major military installation in Western New York, Niagara Falls has been key to military recruitment.

The impact of this decision will be devastating to the New York Air Force Reserve and the Air National Guard and will make the Pentagon's efforts to recruit and retain military personnel even more difficult than it is now.

All New Yorkers stand with the Niagara Falls/Western New York community and are united in its support for this base, and its retention. Overturn the Pentagon's recommendation and keep the base open.

Sincerely,

Michael Calarco

BRAC Commission
Received
6/30/2005

26 May 2005

Chairman Anthony J. Principi
Base Realignment and Closure Commission
2521 South Clark Street
Suite 600
Arlington, VA 22202

Dear Chairman Principi and BRAC Commissioners:

I was upset by the Defense Department's recommendation to close the Niagara Falls Air Force Reserve and Guard Base. This recommendation is not in the nation's best interest and the BRAC Commission should reverse this decision and remove them from the closure list.

It is hard to understand why the Air Force has decided to take planes, missions, and jobs away from so many Air Guard and Air Reserve bases and put them on the more costly Active Duty bases.

Also, even the newspapers say that we are facing significant challenges in recruiting during war time. As the only remaining major military installation in Western New York, Niagara Falls has been key to military recruitment.

The impact of this decision will be devastating to the New York Air Force Reserve and the Air National Guard and will make the Pentagon's efforts to recruit and retain military personnel even more difficult than it is now.

All New Yorkers stand with the Niagara Falls/Western New York community and are united in its support for this base, and its retention. Overturn the Pentagon's recommendation and keep the base open.

Sincerely,

Ralph H. Stahlman

Dear Chairman Principi and BRAC Commissioners:

I was upset by the Defense Department's recommendation to close the Niagara Falls Air Force Reserve and Guard Base. This recommendation is not in the nation's best interest and the BRAC Commission should reverse this decision and remove them from the closure list.

It is hard to understand why the Air Force has decided to take planes, missions, and jobs away from so many Air Guard and Air Reserve bases and put them on the more costly Active Duty bases.

Also, even the newspapers say that we are facing significant challenges in recruiting during war time. As the only remaining major military installation in Western New York, Niagara Falls has been key to military recruitment.

The impact of this decision will be devastating to the New York Air Force Reserve and the Air National Guard and will make the Pentagon's efforts to recruit and retain military personnel even more difficult than it is now.

All New Yorkers stand with the Niagara Falls/Western New York community and are united in its support for this base, and its retention. Overturn the Pentagon's recommendation and keep the base open.

Sincerely,

(A concerned Citizen)

Arlington, VA 22202

Dear Chairman Principi and BRAC Commissioners:

I was upset by the Defense Department's recommendation to close the Niagara Falls Air Force Reserve and Guard Base. This recommendation is not in the nation's best interest and the BRAC Commission should reverse this decision and remove them from the closure list.

It is hard to understand why the Air Force has decided to take planes, missions, and jobs away from so many Air Guard and Air Reserve bases and put them on the more costly Active Duty bases.

Also, even the newspapers say that we are facing significant challenges in recruiting during war time. As the only remaining major military installation in Western New York, Niagara Falls has been key to military recruitment.

The impact of this decision will be devastating to the New York Air Force Reserve and the Air National Guard and will make the Pentagon's efforts to recruit and retain military personnel even more difficult than it is now.

All New Yorkers stand with the Niagara Falls/Western New York community and are united in its support for this base, and its retention. Overturn the Pentagon's recommendation and keep the base open.

Sincerely,

Bruce A Neuhofer

Dear Chairman Principi and BRAC Commissioners:

I was upset by the Defense Department's recommendation to close the Niagara Falls Air Force Reserve and Guard base. This recommendation is not in the nation's best interest and the BRAC Commission should reverse this decision and remove them from the closure list.

It is hard to understand why the Air Force has decided to take planes, missions and jobs away from so many Air Guard and Air Reserve bases and put them on the more costly Active Duty bases.

Also, even the newspapers say that we are facing significant challenges in recruiting during war time. As the only remaining major military installation in Western New York, Niagara Falls has been key to military recruitment.

The impact of this decision will be devastating to the New York Air National Guard and will make the Pentagon's efforts to recruit and retain military personnel even more difficult than it is now.

All New Yorkers stand with the Niagara Falls/Western New York community and are united in its support for this base, and its retention. Overturn the Pentagon's recommendation and keep the base open.

Sincerely,

Michele Mehaffey

Dear Chairman Principi and BRAC Commissioners:

I am deeply troubled by the Defense Department's recommendation to close the Niagara Falls Air Force Reserve base. This recommendation is a terrible mistake and I urge the BRAC Commission to reverse this decision and remove them from the list.

It is hard to understand why the Air Force has decided to take planes, missions and jobs away from so many Air Guard and Air Reserve bases and put them on the more costly Active Duty bases. Of all the bases to pick to close, how do you close the base whose unit helped rescue Jessica Lynch in Iraq because they are the lead night vision C-130 unit in the reserves?

Also, how will the Department defend the region? Will the Guard respond to man-made or natural disasters when they occur after these massive cuts?

I urge the Commission in the strongest possible terms to remove Niagara Falls AFB from the Pentagon's recommended list of base closures and to stop the continuing retreat of the military from our region of the country.

Sincerely,

It is hard to understand why the Air Force has decided to take planes, missions, and jobs away from so many Air Guard and Air Reserve bases and put them on the more costly Active Duty bases.

Also, even the newspapers say that we are facing significant challenges in recruiting during war time. As the only remaining major military installation in Western New York, Niagara Falls has been key to military recruitment.

The impact of this decision will be devastating to the New York Air Force Reserve and the Air National Guard and will make the Pentagon's efforts to recruit and retain military personnel even more difficult than it is now.

All New Yorkers stand with the Niagara Falls/Western New York community and are united in its support for this base, and its retention. Overturn the Pentagon's recommendation and keep the base open.

Sincerely,

(A concerned Citizen)

Arlington, VA 22202

Dear Chairman Principi and BRAC Commissioners:

I was upset by the Defense Department's recommendation to close the Niagara Falls Air Force Reserve and Guard base. This recommendation is not in the nation's best interest and the BRAC Commission should reverse this decision and remove them from the closure list.

It is hard to understand why the Air Force has decided to take planes, missions and jobs away from so many Air Guard and Air Reserve bases and put them on the more costly Active Duty bases.

Also, even the newspapers say that we are facing significant challenges in recruiting during war time. As the only remaining major military installation in Western New York, Niagara Falls has been key to military recruitment.

The impact of this decision will be devastating to the New York Air National Guard and will make the Pentagon's efforts to recruit and retain military personnel even more difficult than it is now.

All New Yorkers stand with the Niagara Falls/Western New York community and are united in its support for this base, and its retention. Overturn the Pentagon's recommendation and keep the base open.

Sincerely,

(A concerned Citizen)

Dear Chairman Principi and BRAC Commissioners:

I was upset by the Defense Department's recommendation to close the Niagara Falls Air Force Reserve and Guard base. This recommendation is not in the nation's best interest and the BRAC Commission should reverse this decision and remove them from the closure list.

It is hard to understand why the Air Force has decided to take planes, missions and jobs away from so many Air Guard and Air Reserve bases and put them on the more costly Active Duty bases.

Also, even the newspapers say that we are facing significant challenges in recruiting during war time. As the only remaining major military installation in Western New York, Niagara Falls has been key to military recruitment.

The impact of this decision will be devastating to the New York Air National Guard and will make the Pentagon's efforts to recruit and retain military personnel even more difficult than it is now.

All New Yorkers stand with the Niagara Falls/Western New York community and are united in its support for this base, and its retention. Overturn the Pentagon's recommendation and keep the base open.

Sincerely,

Stephen A. Cuzzacrea

Dear Chairman Principi and BRAC Commissioners:

I was upset by the Defense Department's recommendation to close the Niagara Falls Air Force Reserve and Guard base. This recommendation is not in the nation's best interest and the BRAC Commission should reverse this decision and remove them from the closure list.

It is hard to understand why the Air Force has decided to take planes, missions and jobs away from so many Air Guard and Air Reserve bases and put them on the more costly Active Duty bases.

Also, even the newspapers say that we are facing significant challenges in recruiting during war time. As the only remaining major military installation in Western New York, Niagara Falls has been key to military recruitment

The impact of this decision will be devastating to the New York Air National Guard and will make the Pentagon's efforts to recruit and retain military personnel even more difficult than it is now.

All New Yorkers stand with the Niagara Falls/Western New York community and are united in its support for this base, and its retention. Overturn the Pentagon's recommendation and keep the base open.

Sincerely,

Tyler Guglielmi

Base Realignment and Closure Commission
2521 South Clark Street
Suite 600
Arlington, VA 22202

Dear Chairman Principi and BRAC Commissioners:

I was upset by the Defense Department's recommendation to close the Niagara Falls Air Force Reserve and Guard base. This recommendation is not in the nation's best interest and the BRAC Commission should reverse this decision and remove them from the closure list.

It is hard to understand why the Air Force has decided to take planes, missions and jobs away from so many Air Guard and Air Reserve bases and put them on the more costly Active Duty bases.

Also, even the newspapers say that we are facing significant challenges in recruiting during war time. As the only remaining major military installation in Western New York, Niagara Falls has been key to military recruitment.

The impact of this decision will be devastating to the New York Air National Guard and will make the Pentagon's efforts to recruit and retain military personnel even more difficult than it is now.

All New Yorkers stand with the Niagara Falls/Western New York community and are united in its support for this base, and its retention. Overturn the Pentagon's recommendation and keep the base open.

Sincerely,

Abby Roberts

Dear Chairman Principi and BRAC Commissioners:

I am writing in reference to the Defense Department's recommendation to close the Niagara Falls Air Reserve Base. This recommendation is obviously a mistake that was been based upon little insight into the units capabilities and accomplishments.

Closure of Niagara Falls Air Base would reduce the Air Force presence in NY by 40%, and eliminate the last Federal Air Force flying mission in the State. These units served honorably in Operation Iraqi Freedom and Operation Enduring Freedom. The 914th Airlift Squadron maintained a 98% on-time flight ratio while flying 24/7 missions. The 914th is also the lead night vision C-130 unit in the entire Air Force Reserves.

Since 1995, Niagara has been modernized with $35M in new facilities and lengthened runways which have improved the operational effectiveness of both the 914th and 107th. We have also reduced our Base Operations Support costs by not less than 33% (to include a 25% reduction in utilities) to make the base one of the most cost-efficient facilities in the Air Force Reserve Command. The infrastructure at Niagara can accommodate 8 additional C-130H aircraft without any military construction.

Closure of the base would also eliminate the ability to recruit and retain New Yorkers in a region in which the units have both maintained in excess of 100% manning rates The newspapers having been saying that we are facing significant challenges in recruiting during war time, yet both the 914th and 107th have been a key element in military recruitment.

Niagara Falls Air Reserve Base faces no physical encroachment or air traffic control constraints and has acreage on the base and adjacent to the installation for expansion.

I urge the Commission to remove Niagara Falls ARS from the Pentagon's recommended list of base closures.

Sincerely,

Carla Perque

Niagara Falls, NY 14304-0231

Dear Chairman Principi and BRAC Commissioners:

I am writing in reference to the Defense Department's recommendation to close the Niagara Falls Air Reserve Base. This recommendation is obviously a mistake that was been based upon little insight into the units capabilities and accomplishments.

Closure of Niagara Falls Air Base would reduce the Air Force presence in NY by 40%, and eliminate the last Federal Air Force flying mission in the State. These units served honorably in Operation Iraqi Freedom and Operation Enduring Freedom. The 914th Airlift Squadron maintained a 98% on-time flight ratio while flying 24/7 missions. The 914th is also the lead night vision C-130 unit in the entire Air Force Reserves.

Since 1995, Niagara has been modernized with $35M in new facilities and lengthened runways which have improved the operational effectiveness of both the 914th and 107th. We have also reduced our Base Operations Support costs by not less than 33% (to include a 25% reduction in utilities) to make the base one of the most cost-efficient facilities in the Air Force Reserve Command. The infrastructure at Niagara can accommodate 8 additional C-130H aircraft without any military construction.

Closure of the base would also eliminate the ability to recruit and retain New Yorkers in a region in which the units have both maintained in excess of 100% manning rates. The newspapers having been saying that we are facing significant challenges in recruiting during war time, yet both the 914th and 107th have been a key element in military recruitment.

Niagara Falls Air Reserve Base faces no physical encroachment or air traffic control constraints and has acreage on the base and adjacent to the installation for expansion.

I urge the Commission to remove Niagara Falls ARS from the Pentagon's recommended list of base closures.

Sincerely,

Paul L. Swish

Dear Chairman Principi and BRAC Commissioners:

I am writing in reference to the Defense Department's recommendation to close the Niagara Falls Air Reserve Base. This recommendation is obviously a mistake that was been based upon little insight into the units capabilities and accomplishments.

Closure of Niagara Falls Air Base would reduce the Air Force presence in NY by 40%, and eliminate the last Federal Air Force flying mission in the State. These units served honorably in Operation Iraqi Freedom and Operation Enduring Freedom. The 914th Airlift Squadron maintained a 98% on-time flight ratio while flying 24/7 missions. The 914th is also the lead night vision C-130 unit in the entire Air Force Reserves.

Since 1995, Niagara has been modernized with $35M in new facilities and lengthened runways which have improved the operational effectiveness of both the 914th and 107th. We have also reduced our Base Operations Support costs by not less than 33% (to include a 25% reduction in utilities) to make the base one of the most cost-efficient facilities in the Air Force Reserve Command. The infrastructure at Niagara can accommodate 8 additional C-130H aircraft without any military construction.

Closure of the base would also eliminate the ability to recruit and retain New Yorkers in a region in which the units have both maintained in excess of 100% manning rates. The newspapers having been saying that we are facing significant challenges in recruiting during war time, yet both the 914th and 107th have been a key element in military recruitment.

Niagara Falls Air Reserve Base faces no physical encroachment or air traffic control constraints and has acreage on the base and adjacent to the installation for expansion.

I urge the Commission to remove Niagara Falls ARS from the Pentagon's recommended list of base closures.

Sincerely,

Sharon Walck

Dear Chairman Principi and BRAC Commissioners:

I am writing in reference to the Defense Department's recommendation to close the Niagara Falls Air Reserve Base. This recommendation is obviously a mistake that was based upon little insights into the units capabilities and accomplishments.

Closure of Niagara Falls Air Base would reduce the Air Force presence in NY by 40%, and eliminate the last Federal Air Force flying mission in the State. These units served honorably in Operations Iraqi Freedom and Operation Enduring Freedom The 914th Airlift Squadron maintained a 98% on-time flight ratio while flying 24/7 missions. The 914th is also the lead night vision C-130 unit in the entire Air Force Reserves

Since 1995, Niagara has been modernized with $35M in new facilities and lengthened runways which have improved the operational effectiveness of both the 914th and 107th. We have also reduced our Base Operations Support costs by not less than 33% (to include a 25% reduction in utilities) to make the base one of the most cost-efficient facilities in the Air Force Reserve Command. The infrastructure at Niagara can accommodate 8 additional C-130H aircraft without any military construction.

Closure of the base would also eliminate the ability to recruit and retain New Yorkers in a region in which the units have both maintained in excess of 100% manning rates. The newspapers have been saying that we are facing significant challenges in recruiting during war time, yet both the 914th and 107th have been a key element in military recruitment.

Niagara Falls Air Reserve Base faces no physical encroachment or air traffic control constraints and has acreage on the base and adjacent to the installation for expansion.

I urge the Commission to remove Niagara Falls ARS from the Pentagon's recommended list of base closures.

Sincerely,

137 Darien Ave

Chairman Anthony J Principi
Base Realignment and Closure Commission
2521 South Clark Street
Suite 600
Arlington, VA 22202

Dear Chairman Principi and BRAC Commissioners:

I was upset by the Defense Department's recommendation to close the Niagara Falls Air Force Reserve and Guard base This recommendation is not in the nation's best interest and the BRAC Commission should reverse this decision and remove them from the closure list.

It is hard to understand why the Air Force has decided to take planes, missions and jobs away from so many Air Guard and Air Reserve bases and put them on the more costly Active Duty bases.

Also, even the newspapers say that we are facing significant challenges in recruiting during war time As the only remaining major military installation in Western New York, Niagara Falls has been key to military recruitment.

The impact of this decision will be devastating to the New York Air National Guard and will make the Pentagon's efforts to recruit and retain military personnel even more difficult than it is now

All New Yorkers stand with the Niagara Falls/Western New York community and are united in its support for this base, and its retention. Overturn the Pentagon's recommendation and keep the base open.

Sincerely,

Ms Rena E. Koch

I am writing in reference to the Defense Department's recommendation to close the Niagara Falls Air Reserve Base. This recommendation is obviously a mistake that was based upon little insights into the units capabilities and accomplishments.

Closure of Niagara Falls Air Base would reduce the Air Force presence in NY by 40%, and eliminate the last Federal Air Force flying mission in the State. These units served honorably in Operations Iraqi Freedom and Operation Enduring Freedom. The 914th Airlift Squadron maintained a 98% on-time flight ratio while flying 24/7 missions. The 914th is also the lead night vision C-130 unit in the entire Air Force Reserves.

Since 1995, Niagara has been modernized with $35M in new facilities and lengthened runways which have improved the operational effectiveness of both the 914th and 107th. We have also reduced our Base Operations Support costs by not less than 33% (to include a 25% reduction in utilities) to make the base one of the most cost-efficient facilities in the Air Force Reserve Command. The infrastructure at Niagara can accommodate 8 additional C-130H aircraft without any military construction.

Closure of the base would also eliminate the ability to recruit and retain New Yorkers in a region in which the units have both maintained in excess of 100% manning rates. The newspapers have been saying that we are facing significant challenges in recruiting during war time, yet both the 914th and 107th have been a key element in military recruitment.

Niagara Falls Air Reserve Base faces no physical encroachment or air traffic control constraints and has acreage on the base and adjacent to the installation for expansion.

I urge the Commission to remove Niagara Falls ARS from the Pentagon's recommended list of base closures.

Sincerely,

46 Newfield St

Dear Chairman Principi and BRAC Commissioners:

I am writing in reference to the Defense Department's recommendation to close the Niagara Falls Air Reserve Base. This recommendation is obviously a mistake that was been based upon little insight into the units capabilities and accomplishments.

Closure of Niagara Falls Air Base would reduce the Air Force presence in NY by 40%, and eliminate the last Federal Air Force flying mission in the State. These units served honorably in Operation Iraqi Freedom and Operation Enduring Freedom. The 914th Airlift Squadron maintained a 98% on-time flight ratio while flying 24/7 missions. The 914th is also the lead night vision C-130 unit in the entire Air Force Reserves.

Since 1995, Niagara has been modernized with $35M in new facilities and lengthened runways which have improved the operational effectiveness of both the 914th and 107th. We have also reduced our Base Operations Support costs by not less than 33% (to include a 25% reduction in utilities) to make the base one of the most cost-efficient facilities in the Air Force Reserve Command. The infrastructure at Niagara can accommodate 8 additional C-130H aircraft without any military construction.

Closure of the base would also eliminate the ability to recruit and retain New Yorkers in a region in which the units have both maintained in excess of 100% manning rates. The newspapers having been saying that we are facing significant challenges in recruiting during war time, yet both the 914th and 107th have been a key element in military recruitment.

Niagara Falls Air Reserve Base faces no physical encroachment or air traffic control constraints and has acreage on the base and adjacent to the installation for expansion.

I urge the Commission to remove Niagara Falls ARS from the Pentagon's recommended list of base closures.

Sincerely,

BRAC Commission

Dear Chairman Principi and BRAC Commissioners:

I was upset by the Defense Department's recommendation to close the Niagara Falls Air Force Reserve and Guard Base. This recommendation is not in the nation's best interest and the BRAC Commission should reverse this decision and remove them from the closure list.

It is hard to understand why the Air Force has decided to take planes, missions, and jobs away from so many Air Guard and Air Reserve bases and put them on the more costly Active Duty bases.

Also, even the newspapers say that we are facing significant challenges in recruiting during war time. As the only remaining major military installation in Western New York, Niagara Falls has been key to military recruitment.

The impact of this decision will be devastating to the New York Air Force Reserve and the Air National Guard and will make the Pentagon's efforts to recruit and retain military personnel even more difficult than it is now.

All New Yorkers stand with the Niagara Falls/Western New York community and are united in its support for this base, and its retention. Overturn the Pentagon's recommendation and keep the base open.

Sincerely,

Dear Chairman Principi and BRAC Commissioners:

I am writing in reference to the Defense Department's recommendation to close the Niagara Falls Air Reserve Base. This recommendation is obviously a mistake that was been based upon little insight into the units capabilities and accomplishments.

Closure of Niagara Falls Air Base would reduce the Air Force presence in NY by 40%, and eliminate the last Federal Air Force flying mission in the State. These units served honorably in Operation Iraqi Freedom and Operation Enduring Freedom. The 914th Airlift Squadron maintained a 98% on-time flight ratio while flying 24/7 missions. The 914th is also the lead night vision C-130 unit in the entire Air Force Reserves.

Since 1995, Niagara has been modernized with $35M in new facilities and lengthened runways which have improved the operational effectiveness of both the 914th and 107th. We have also reduced our Base Operations Support costs by not less than 33% (to include a 25% reduction in utilities) to make the base one of the most cost-efficient facilities in the Air Force Reserve Command. The infrastructure at Niagara can accommodate 8 additional C-130H aircraft without any military construction.

Closure of the base would also eliminate the ability to recruit and retain New Yorkers in a region in which the units have both maintained in excess of 100% manning rates. The newspapers having been saying that we are facing significant challenges in recruiting during war time, yet both the 914th and 107th have been a key element in military recruitment.

Niagara Falls Air Reserve Base faces no physical encroachment or air traffic control constraints and has acreage on the base and adjacent to the installation for expansion.

I urge the Commission to remove Niagara Falls ARS from the Pentagon's recommended list of base closures.

Sincerely,

[illegible] Beaver

Dear Chairman Principi and BRAC Commissioners:

I am writing in reference to the Defense Department's recommendation to close the Niagara Falls Air Reserve Base. This recommendation is obviously a mistake that was been based upon little insight into the units capabilities and accomplishments.

Closure of Niagara Falls Air Base would reduce the Air Force presence in NY by 40%, and eliminate the last Federal Air Force flying mission in the State. These units served honorably in Operation Iraqi Freedom and Operation Enduring Freedom. The 914th Airlift Squadron maintained a 98% on-time flight ratio while flying 24/7 missions. The 914th is also the lead night vision C-130 unit in the entire Air Force Reserves.

Since 1995, Niagara has been modernized with $35M in new facilities and lengthened runways which have improved the operational effectiveness of both the 914th and 107th. We have also reduced our Base Operations Support costs by not less than 33% (to include a 25% reduction in utilities) to make the base one of the most cost-efficient facilities in the Air Force Reserve Command. The infrastructure at Niagara can accommodate 8 additional C-130H aircraft without any military construction.

Closure of the base would also eliminate the ability to recruit and retain New Yorkers in a region in which the units have both maintained in excess of 100% manning rates. The newspapers having been saying that we are facing significant challenges in recruiting during war time, yet both the 914th and 107th have been a key element in military recruitment.

Niagara Falls Air Reserve Base faces no physical encroachment or air traffic control constraints and has acreage on the base and adjacent to the installation for expansion.

I urge the Commission to remove Niagara Falls ARS from the Pentagon's recommended list of base closures.

Sincerely,

NTHS

Dear Chairman Principi and BRAC Commissioners:

I am writing in reference to the Defense Department's recommendation to close the Niagara Falls Air Reserve Base. This recommendation is obviously a mistake that was been based upon little insight into the units capabilities and accomplishments

Closure of Niagara Falls Air Base would reduce the Air Force presence in NY by 40%, and eliminate the last Federal Air Force flying mission in the State. These units served honorably in Operation Iraqi Freedom and Operation Enduring Freedom. The 914th Airlift Squadron maintained a 98% on-time flight ratio while flying 24/7 missions. The 914th is also the lead night vision C-130 unit in the entire Air Force Reserves.

Since 1995, Niagara has been modernized with $35M in new facilities and lengthened runways which have improved the operational effectiveness of both the 914th and 107th. We have also reduced our Base Operations Support costs by not less than 33% (to include a 25% reduction in utilities) to make the base one of the most cost-efficient facilities in the Air Force Reserve Command. The infrastructure at Niagara can accommodate 8 additional C-130H1 aircraft without any military construction.

Closure of the base would also eliminate the ability to recruit and retain New Yorkers in a region in which the units have both maintained in excess of 100% manning rates. The newspapers having been saying that we are facing significant challenges in recruiting during war time, yet both the 914th and 107th have been a key element in military recruitment.

Niagara Falls Air Reserve Base faces no physical encroachment or air traffic control constraints and has acreage on the base and adjacent to the installation for expansion.

I urge the Commission to remove Niagara Falls ARS from the Pentagon's recommended list of base closures.

Sincerely,

John Form

Dear Chairman Principi and BRAC Commissioners:

I am writing in reference to the Defense Department's recommendation to close the Niagara Falls Air Reserve Base. This recommendation is obviously a mistake that was been based upon little insight into the units capabilities and accomplishments.

Closure of Niagara Falls Air Base would reduce the Air Force presence in NY by 40%, and eliminate the last Federal Air Force flying mission in the State. These units served honorably in Operation Iraqi Freedom and Operation Enduring Freedom. The 914th Airlift Squadron maintained a 98% on-time flight ratio while flying 24/7 missions. The 914th is also the lead night vision C-130 unit in the entire Air Force Reserves.

Since 1995, Niagara has been modernized with $35M in new facilities and lengthened runways which have improved the operational effectiveness of both the 914th and 107th. We have also reduced our Base Operations Support costs by not less than 33% (to include a 25% reduction in utilities) to make the base one of the most cost-efficient facilities in the Air Force Reserve Command. The infrastructure at Niagara can accommodate 8 additional C-130H aircraft without any military construction.

Closure of the base would also eliminate the ability to recruit and retain New Yorkers in a region in which the units have both maintained in excess of 100% manning rates. The newspapers having been saying that we are facing significant challenges in recruiting during war time, yet both the 914th and 107th have been a key element in military recruitment.

Niagara Falls Air Reserve Base faces no physical encroachment or air traffic control constraints and has acreage on the base and adjacent to the installation for expansion.

I urge the Commission to remove Niagara Falls ARS from the Pentagon's recommended list of base closures.

Sincerely,

name

Dear Chairman Principi and BRAC Commissioners

I was upset by the Defense Department's recommendation to close the Niagara Falls Air Force Reserve and Guard Base. This recommendation is not in the nation's best interest and the BRAC Commission should reverse this decision and remove them from the closure list

It is hard to understand why the Air Force has decided to take planes, missions, and jobs away from so many Air Guard and Air Reserve bases and put them on the more costly Active Duty bases

Also, even the newspapers say that we are facing significant challenges in recruiting during war time. As the only remaining major military installation in Western New York, Niagara Falls has been key to military recruitment.

The impact of this decision will be devastating to the New York Air Force Reserve and the Air National Guard and will make the Pentagon's efforts to recruit and retain military personnel even more difficult than it is now.

All New Yorkers stand with the Niagara Falls/Western New York community and are united in its support for this base, and its retention Overturn the Pentagon's recommendation and keep the base open.

Sincerely,

Dear Chairman Principi and BRAC Commissioners:

I was upset by the Defense Department's recommendation to close the Niagara Falls Air Force Reserve and Guard Base. This recommendation is not in the nation's best interest and the BRAC Commission should reverse this decision and remove them from the closure list.

It is hard to understand why the Air Force has decided to take planes, missions, and jobs away from so many Air Guard and Air Reserve bases and put them on the more costly Active Duty bases.

Also, even the newspapers say that we are facing significant challenges in recruiting during war time. As the only remaining major military installation in Western New York, Niagara Falls has been key to military recruitment.

The impact of this decision will be devastating to the New York Air Force Reserve and the Air National Guard and will make the Pentagon's efforts to recruit and retain military personnel even more difficult than it is now.

All New Yorkers stand with the Niagara Falls/Western New York community and are united in its support for this base, and its retention. Overturn the Pentagon's recommendation and keep the base open.

Sincerely,

(A concerned Citizen)

P O. Box 231
Niagara Falls, NY 14304-0231

Dear Chairman Principi and BRAC Commissioners:

I am writing in reference to the Defense Department's recommendation to close the Niagara Falls Air Reserve Base. This recommendation is obviously a mistake that was based upon little insights into the units capabilities and accomplishments.

Closure of Niagara Falls Air Base would reduce the Air Force presence in NY by 40%, and eliminate the last Federal Air Force flying mission in the State. These units served honorably in Operations Iraqi Freedom and Operation Enduring Freedom. The 914th Airlift Squadron maintained a 98% on-time flight ratio while flying 24/7 missions. The 914th is also the lead night vision C-130 unit in the entire Air Force Reserves.

Since 1995, Niagara has been modernized with $35M in new facilities and lengthened runways which have improved the operational effectiveness of both the 914th and 107th. We have also reduced our Base Operations Support costs by not less than 33% (to include a 25% reduction in utilities) to make the base one of the most cost-efficient facilities in the Air Force Reserve Command The infrastructure at Niagara can accommodate 8 additional C-130H aircraft without any military construction.

Closure of the base would also eliminate the ability to recruit and retain New Yorkers in a region in which the units have both maintained in excess of 100% manning rates. The newspapers have been saying that we are facing significant challenges in recruiting during war time, yet both the 914th and 107th have been a key element in military recruitment.

Niagara Falls Air Reserve Base faces no physical encroachment or air traffic control constraints and has acreage on the base and adjacent to the installation for expansion.

I urge the Commission to remove Niagara Falls ARS from the Pentagon's recommended list of base closures.

Sincerely,

Terry L. Morris

I am writing in reference to the Defense Department's recommendation to close the Niagara Falls Air Reserve Base. This recommendation is obviously a mistake that was been based upon little insight into the units capabilities and accomplishments.

Closure of Niagara Falls Air Base would reduce the Air Force presence in NY by 40%, and eliminate the last Federal Air Force flying mission in the State. These units served honorably in Operation Iraqi Freedom and Operation Enduring Freedom. The 914th Airlift Squadron maintained a 98% on-time flight ratio while flying 24/7 missions. The 914th is also the lead night vision C-130 unit in the entire Air Force Reserves.

Since 1995, Niagara has been modernized with $35M in new facilities and lengthened runways which have improved the operational effectiveness of both the 914th and 107th. We have also reduced our Base Operations Support costs by not less than 33% (to include a 25% reduction in utilities) to make the base one of the most cost-efficient facilities in the Air Force Reserve Command. The infrastructure at Niagara can accommodate 8 additional C-130H aircraft without any military construction.

Closure of the base would also eliminate the ability to recruit and retain New Yorkers in a region in which the units have both maintained in excess of 100% manning rates. The newspapers having been saying that we are facing significant challenges in recruiting during war time, yet both the 914th and 107th have been a key element in military recruitment.

Niagara Falls Air Reserve Base faces no physical encroachment or air traffic control constraints and has acreage on the base and adjacent to the installation for expansion.

I urge the Commission to remove Niagara Falls ARS from the Pentagon's recommended list of base closures.

Sincerely,

THOMAS LASZKOWICZ

Dear Chairman Principi and BRAC Commisioners:

I was upset by the Defense Department's recommendation to close the Niagara Falls Air Force Reserve and Guard base. This recommendation is not in the nation's best interest and the BRAC Commission should reverse this decision and remove them from the closure list.

It is hard to understand why the Air Force has decided to take planes, missions and jobs away from so many Air Guard and Air Reserve bases and put them on the more costly Active Duty bases.

Also, even the newspapers say that we are facing significant challenges in recruiting during war time. As the only remaining major military installation in Western New York, Niagara Falls has been key to military recruitment.

The impact of this decision will be devastating to the New York Air National Guard and will make the Pentagon's efforts to recruit and retain military personnel even more difficult than it is now.

All New Yorkers stand with the Niagara Falls/Western New York community and are united in its support for this base, and its retention. Overturn the Pentagon's recommendation and keep the base open.

It is hard to understand why the Air Force has decided to take planes, missions and jobs away from so many Air Guard and Air Reserve bases and put them on the more costly Active Duty bases.

Also, even the newspapers say that we are facing significant challenges in recruiting during war time. As the only remaining major military installation in Western New York, Niagara Falls has been key to military recruitment.

The impact of this decision will be devastating to the New York Air National Guard and will make the Pentagon's efforts to recruit and retain military personnel even more difficult than it is now.

All New Yorkers stand with the Niagara Falls/Western New York community and are united in its support for this base, and its retention. Overturn the Pentagon's recommendation and keep the base open.

Sincerely,

Constance A. Pieszchala

Arlington, VA 22202

Dear Chairman Principi and BRAC Commisioners:

I was upset by the Defense Department's recommendation to close the Niagara Falls Air Force Reserve and Guard base. This recommendation is not in the nation's best interest and the BRAC Commission should reverse this decision and remove them from the closure list.

It is hard to understand why the Air Force has decided to take planes, missions and jobs away from so many Air Guard and Air Reserve bases and put them on the more costly Active Duty bases.

Also, even the newspapers say that we are facing significant challenges in recruiting during war time. As the only remaining major military installation in Western New York, Niagara Falls has been key to military recruitment.

The impact of this decision will be devastating to the New York Air National Guard and will make the Pentagon's efforts to recruit and retain military personnel even more difficult than it is now.

All New Yorkers stand with the Niagara Falls/Western New York community and are united in its support for this base, and its retention. Overturn the Pentagon's recommendation and keep the base open.

Chairman Anthony J. Principi
Base Realignment and Closure Commission
2521 South Clark Street
Suite 600
Arlington, VA 22202

Dear Chairman Principi and BRAC Commissioners:

I was upset by the Defense Department's recommendation to close the Niagara Falls Air Force Reserve and Guard Base. This recommendation is not in the nation's best interest and the BRAC Commission should reverse this decision and remove them from the closure list.

It is hard to understand why the Air Force has decided to take planes, missions, and jobs away from so many Air Guard and Air Reserve bases and put them on the more costly Active Duty bases.

Also, even the newspapers say that we are facing significant challenges in recruiting during war time. As the only remaining major military installation in Western New York, Niagara Falls has been key to military recruitment.

The impact of this decision will be devastating to the New York Air Force Reserve and the Air National Guard and will make the Pentagon's efforts to recruit and retain military personnel even more difficult than it is now.

All New Yorkers stand with the Niagara Falls/Western New York community and are united in its support for this base, and its retention. Overturn the Pentagon's recommendation and keep the base open.

Sincerely,

Krystyna Pjatkiewski

Dear Chairman Principi and BRAC Commissioners:

I was upset by the Defense Department's recommendation to close the Niagara Falls Air Force Reserve and Guard Base. This recommendation is not in the nation's best interest and the BRAC Commission should reverse this decision and remove them from the closure list.

It is hard to understand why the Air Force has decided to take planes, missions, and jobs away from so many Air Guard and Air Reserve bases and put them on the more costly Active Duty bases.

Also, even the newspapers say that we are facing significant challenges in recruiting during war time. As the only remaining major military installation in Western New York, Niagara Falls has been key to military recruitment.

The impact of this decision will be devastating to the New York Air Force Reserve and the Air National Guard and will make the Pentagon's efforts to recruit and retain military personnel even more difficult than it is now.

All New Yorkers stand with the Niagara Falls/Western New York community and are united in its support for this base, and its retention. Overturn the Pentagon's recommendation and keep the base open.

Sincerely,

Philip Huebner
