Dear Bros Commissioners

I am surprised that Cannon was on the closure list. We arrived in Clovis in 1962 and I had the good fortune to work for the Commander until July 1992 when I retired. During this time I saw many improvements being made by my bosses. They put their inputs to this superb facity.

We have perfect flying weather possible 300+ flying days each year; Melrose range seconds away; our runways newly renovated; New Control tower; new entrance to our bases & many other pluses.

The surrounding communities are making our military camp welcome. Many have retired here.

I invite you to come to see for yourselves the great impact we have over National Security.

Sincerely,

Virginia F. Murphy
