To whom it may concern,

Do not close the Niagara Falls Air Force Base! I am not asking you or this I'm demanding it. Look at what your doing. Your not only efecting the people that work at the Niagara Falls Air Force Base but all the people of Niagara Falls. I dont have enough time to write down all of the reasons. That would take about five years. But I have enough time to tell you some reason.

First of all think about all of the people your putting out of work. Not just the people at that work at the air force. But all the people around them. The people that work at stores will lose there jobs from lack of money. And schools will shut down because people will stop paying taxes. And we wont be safe. Remember I'm demanding this not asking. I am not writing this to be cute I'm serious. Just hear me out!

sincerly
