May 24, 2005

Dear BRAC,

I teach fourth grade at Sandia Elementary in Clovis, NM. This past year I had two students with fathers in the Air Force. In the past, I've had as many as half of my students with parents in the Air Force.

The impact that these students, parents had on my classroom was truly rewarding. Through their diverse background and "welcomed" involvement, I was able to enrich my curriculum where all my students benefited.

We love our Air Force families. Please let us keep Cannon. Thank you for your consideration.

Sincerely,

Connie Fiola
