Dear BRAC Commission,

This letter is in regards to the possible Closure of Cannon AFB.

I am sure that the addition of Cannon to the list of recomended Closures was a mistake, as Cannon AFB has nearly everything going for it and hardly any thing that would be considered a negative.

Cannon has more "flying days" than any other base. There is very good weather and excellent flying space here. The town of Clovis loves the AFB and wants to help contribute to the national security by allowing SuperSonic flight training in the area.

There are no mountains, hills or tall buildings in the area to get in the way of the air craft and a bombing range right near by so the government doesn't have to spend a lot of money on fuel to get out to the bombing range.

Please save our base and our town.

Thank you

Kara Broderick
