Lockcity Young Marines 6/3/05

Dear Sir/Ma'am

My name is Stephanie Hyatt, and I am writing to you about how the Pentagon wants to shut down the Niagra Falls Air Reserve Station. I believe it is wrong for many reasons; number one; the Air base is a critical part of our countries defensiz and Niagra Counties economy. Number two; it will make about 3,000 people lose their jobs. Number three; its economic impact on region is about $150-million. And, if they take away all of the triggered bases, (180 installations, plus 33 major bases), it would result in a loss of 29,005 jobs. If all this removing is necessary, wouldn't it be much better if they just left the air base be? This is my opinion and I hope you take it seriously, or at least consider it.

Sincerely,
Stephanie Hyatt

Semper Fidelis (Always faithful)
