Dear sirs:

I'm sure this is one of thousands of letters asking for a DOD facility not to close.

I retired at Cannon AFB, NM. Closing Cannon will severely impact local communities. My wife works at Cannon. It is unlikely she will find another job due to her lack of skills. Cannon services will no longer be available.

A personal note...

This will cost us in time and money. We may have to sell our house at a loss and move.

I understand the need for consolidation for economy of scale and the desire to base service units jointly.

Camdon, although small, has great facilities and widespread community support.

Robert K. Wilson, MSgt USAF Retired
