MILITARY AFFAIRS COUNCIL OF WESTERN PENNSYLVANIA
PIT • BRAC TASK FORCE

Letters From Concerned Citizens In Support Of Pittsburgh Air Reserve Station, 99th RSC, and Charles E. Kelly Support Facility

DCN 5080

DCN 5080

The Honorable Anthony J. Principi, Chairman
Defense Base Closure and Realignment Commission
2521 South Clark Street, Suite 600
Arlington, VA 22202

Re: PITTSBURGH, LAND & MORE July 10, 2005

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renown for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely,

Donald J. Walsh

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely,

Betty L. Swoggen

Re: PITTSBURGH, LAND & MORE July 10, 2005

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renown for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely, John J. Casey

Re: PITTSBURGH, LAND & MORE July 10, 2005

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renown for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renown for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely, George and Katocs

Re: **Pittsburgh, Land and More** July 9, 2005

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renowned for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to be spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely,

Mary Beck

Re: PITTSBURGH, LAND & MORE

July 10, 2005

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renown for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely,

Mary Ann Wagner

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renown for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely, Richard R. Verrico

Re: PITTSBURGH, LAND & MORE July 10, 2005

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renown for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely,

Amy Vasil

Re: PITTSBURGH, LAND & MORE July 10, 2005

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renown for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely,

Re: **Pittsburgh, Land and More** July 9, 2005

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renowned for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to be spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely,

Jeffrey J. Luciana

Re: **Pittsburgh, Land and More** July 9, 2005

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renowned for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to be spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely,

Ruth Yale

Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to be spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely,

Re: **Pittsburgh, Land and More** July 9, 2005

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renowned for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to be spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center combining the 99th RSC and Charles E Kelly Support Facility.

Sincerely, Jacque Nintier

Re: PITTSBURGH, LAND & MORE July 10, 2005

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renown for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Re: PITTSBURGH, LAND & MORE July 10, 2005

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renown for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely,

Re: PITTSBURGH, LAND & MORE July 10, 2005

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renown for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely, Gary Kahn

Re: PITTSBURGH, LAND & MORE July 10, 2005

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renown for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center - combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely,

Steven J. Manno

Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely,

Re: PITTSBURGH, LAND & MORE July 10, 2005

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renown for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renown for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely,

Christopher S. Warwick

Re: PITTSBURGH, LAND & MORE July 10, 2005

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renown for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely,

Richard C Ramage

Re: PITTSBURGH, LAND & MORE July 10, 2005

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renown for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely,

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to be spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely,

Re: Pittsburgh, Land and More July 9, 2005

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renowned for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to be spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely,

Inez Anderson

Re: **Pittsburgh, Land and More** July 9, 2005

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renowned for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military/defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to be spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to be spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely,

Lisa McMonigal

Re: **Pittsburgh, Land and More** July 9, 2005

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renowned for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to be spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to be spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely,

Re: PITTSBURGH, LAND & MORE July 10, 2005

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renown for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely,

Darlene McCarell

This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely, John Unger Former 110th Retired 113th DC Guard

Re: PITTSBURGH, LAND & MORE July 10, 2005

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renown for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renown for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E Kelly Support Facility.

Sincerely,

Joseph. Fucci
