MILITARY AFFAIRS COUNCIL OF WESTERN PENNSYLVANIA
PIT • BRAC TASK FORCE

Letters From Concerned Citizens In Support Of Pittsburgh Air Reserve Station, 99th RSC, and Charles E. Kelly Support Facility

DCN 5095

DCN 5095

The Honorable Anthony J. Principi, Chairman
Defense Base Closure and Realignment Commission
2521 South Clark Street, Suite 600
Arlington, VA 22202

Re: PITTSBURGH, LAND & MORE July 10, 2005

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renown for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely,

Donald J. Walsh

This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely,

Re: PITTSBURGH, LAND & MORE July 10, 2005

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renown for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Re: **Pittsburgh, Land and More** July 9, 2005

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renowned for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to be spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely,

PS Dalbo

Re: PITTSBURGH, LAND & MORE July 10, 2005

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renown for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely,

Edward J O'Neil

Re: PITTSBURGH, LAND & MORE July 10, 2005

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renown for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely,

Debra A McCardle

Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center - - combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely,

Chrissy Harmon

Re: PITTSBURGH, LAND & MORE July 10, 2005

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renown for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renown for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely,

Re: PITTSBURGH, LAND & MORE July 10, 2005

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renown for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center - combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely,

Re: PITTSBURGH, LAND & MORE July 10, 2005

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renown for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely, Adam Borland

This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely,

Re: PITTSBURGH, LAND & MORE

July 10, 2005

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renown for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Re: PITTSBURGH, LAND & MORE July 10, 2005

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renown for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely,

Rebecca J Mitchell

Re: PITTSBURGH, LAND & MORE July 10, 2005

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renown for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely,

Margaret Pape

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely,

Re: PITTSBURGH, LAND & MORE July 10, 2005

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renown for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Re: PITTSBURGH, LAND & MORE July 10, 2005

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renown for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely, Mark Morgan

Re: PITTSBURGH, LAND & MORE

July 10, 2005

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renown for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely,

Cara Geister

This cost effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely,

Diane S. DiFalco

Re: PITTSBURGH, LAND & MORE July 10, 2005

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renown for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! Re: PITTSBURGH, LAND & MORE July 10, 2005

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renown for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center - combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely,

Marie L. Kozeck

Re: PITTSBURGH, LAND & MORE

July 10, 2005

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renown for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely,

RITA C HAMSCHER

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to be spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely,

Karen Lampinig

Re: **Pittsburgh, Land and More**

Dear Chairman Princpi and Fellow BRAC Commissioners,

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renowned for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to be spent at the gaining bases to support this. The 911th AW should not be closed! The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renown for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely,

Re: PITTSBURGH, LAND & MORE July 10, 2005

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renown for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely,

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center - combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely,

Melissa Zelewski

Re: PITTSBURGH, LAND & MORE July 10, 2005

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renown for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! Re: PITTSBURGH, LAND & MORE July 10, 2005

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renown for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E Kelly Support Facility.

Sincerely, Scott Halapin

Re: PITTSBURGH, LAND & MORE

July 10, 2005

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renown for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely,

Jackie Romano

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely,

Virgil J Albright

Re: PITTSBURGH, LAND & MORE

July 10, 2005

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renown for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings

The data used in analyzing this base's military value was flawed! Re: PITTSBURGH, LAND & MORE July 10, 2005

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renown for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E Kelly Support Facility.

Sincerely,

Re: PITTSBURGH, LAND & MORE July 10, 2005

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renown for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles L. Kelly Support Facility.

Sincerely,

Marjorie Prosser

Re: PITTSBURGH, LAND & MORE July 10, 2005

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renown for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely,

Walter J Lil
