Read article in Mashpee Enterprise that Otis may be closing.

I believe the base should be kept open. My husband was in service U.S. Navy 22 years. We have lived in Mashpee for 35 years. I have eight children and used commissary every week since we have been here.

I have saved many dollars. Also used Medical & Dental services. And of course the Mini Mart. I am sure people who live on base find it very usual.

I know the base has been going to close many times. The servicemen and families used this to be kept open. Even though my husband has passed away I still use base regularly.

Sincerely,
Marilyn Frazier
