DCN 5946 I am writing concerning the possible closures of F Kelly - 911TH in Pittsburgh Pa. These facilities should be enlarged not closed. When I heard the news I thought "This is absolutely ridiculous." 06232005

My husband just retired from the National Guard. With recruiting being down this is the last thing we should be doing. Over the years many of the people we knew dropped out along the way because of changes into where they had to repeat. Right now many of the problems going on are simply because of misinformation, people not knowing exactly what the current status is on anything. It bothers me to see this in our leadership. Please look at the facts again and keep the bases open.

RECEIVED

Sincerely
Catherine Schienle
