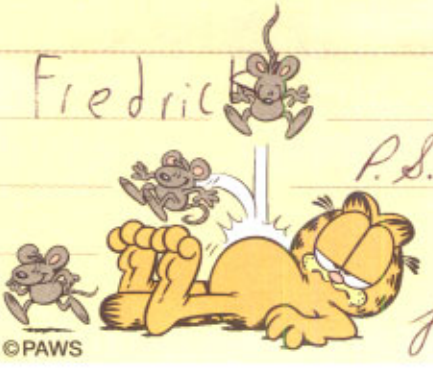
Dear Sirs,

My name is Fredrick Conner.
My mother is writing
this for me becauce I
have trouble with reading and writing.
I work at the base. I love my job.
It keeps me from sitting home
watching T.V. all day. I love spending
the money I make. I mostly love
talking with all my friends. When
I go to town I always see base
friends and say hi. I know most
of the guys we always joke around.
I hope the base stays so I
will have a job. I hope it stays
so I can tease the base guys.

Fredrick Patrick Conner

P.S. I noticed Plans
to fund training for
job realignment for



thoose who may lose jobs if the base closes. I have to say while that is a nice thought for Fred and many of the ENMRSH employees it is a waste of money. because of his (Fred's) limitations and the small number of jobs available for learning disabled people locally Fred's hopes of being employed any where esle are very slim to none. He was a DVR client for years with no sucesse in helping him gain employment. For Fred and others like him the base has been the only option and we are grateful for it. I also love seeing how kind the men are with Fred always taking time to kid a bit with him. Our town is definantly richer to have the military here.

Thank you, Fred's Mom, Mary Jo
