Dear Sir or Madam,

I think Cannon Air Force base should stay open. I think they should stay open because we have plenty of air space for them to fly in. There are no air lines that pass through. Here they don't have to worry about all the major air lines that could cause problems.

In Clovis we have good climate for flying. We have about 320 of 365 days that can be used for flying. Here they don't have to worry about being fogged in, or stuck on the ground because of rain.

If Cannon would close alot of student wouldn't have very many students in a class. In our class 11 of our 22 students are in the Air Force. If Cannon would close teachers would not have jobs because there would not be enough students.

The Air force base has alot of building that they just redid. If they were to close they would of lost all the money they put into redoing there buildings.

If they closed, the bombing range would either be shut down or others people would have to fly a long way. That would be a waste of time and money.

Sincerely,
Zach Snyder
