OFFICE OF THE SECRETARY
1000 NAVY PENTAGON
WASHINGTON, D.C. 20350-1000

16 August 04

MEMORANDUM FOR ACTING UNDER SECRETARY OF DEFENSE
(ACQUISITION, TECHNOLOGY AND LOGISTICS)

Subj: PROVISION OF CERTIFIED DEPARTMENT OF THE NAVY DATA TO THE
BRAC 2005 JOINT CROSS SERVICE GROUPS - Data Call 2:
Criterion Seven, 14 June

- Encl: (1) Department of Navy Activities with Certified Data -
Criterion Seven, 14 June
(2) Department of Navy Activities with Data Yet to be
Certified - Criterion Seven, 14 June
(3) Initial Summary of Data Concerns - Criterion Seven, 14
June

In compliance with both the Office of the Secretary of Defense (OSD) Internal Control Plan (ICP) for the Base Realignment and Closure Process, Appendix B to Under Secretary of Defense (Acquisition, Technology and Logistics) Memorandum "Transformation Through Base Realignment and Closure (BRAC 2005) Policy Memorandum One - Policy, Responsibilities, and Procedures," dated 16 April 2003, and the Department of the Navy Procedures for Certification of BRAC 2005 Information, enclosure (1) to Secretary of the Navy Memorandum "Internal Control Plan for Management of the Department of the Navy 2005 Base Closure and Realignment (BRAC) Process Policy Advisory Two," dated 27 June 2003, this memorandum is a certification of Department of the Navy (DON) data provided to the Joint Cross Service Groups (JCSGs) for their use in analyzing common business support functions. The data consists of certified responses to Data Call 2: Criterion Seven, 14 June and is being provided to the JCSGs via the DON Base Information Transfer System (DONBITS) and Military Value Analysis Database (MAD).

Enclosure (1) provides the list of 281 DON activities (93% of the total DON universe of 302 respondent activities) for which we are providing certified data in response to the Criterion Seven, 14 June Data Call. Enclosure (2) provides the list of DON activities for which we are not providing certified Criterion Seven data at this time. Certified Criterion Seven data from the remaining 21 activities is not included in this transmittal because the data is not completely through the certification chain. We expect these activities' data call responses to be transmitted to OSD on 23 August.

The 302 DON activities targeted for Criterion Seven collected data for the complete DON universe (currently over 800 activities). In an effort to avoid duplicative answers from multiple activities in the same Criterion Seven footprint, DON mapped each activity in a local area to a single activity for

Seven, 14 June

that locale. The mapping of all activities to the targeted 302
activities will be provided under separate cover.

During the course of our initial quality review of the
data, we discovered a few areas where we believe the data is
incorrect, incomplete, or in need of further clarification. A
summary of the data concerns identified to date is provided in
enclosure (3). We are taking action to resolve these concerns.
Additionally, we anticipate that other areas of concern will be
identified as we conduct more detailed analysis in the coming
weeks. The JCSGs may also find during the course of their own
analysis of the data additional areas requiring clarification or
correction. Updated certified data will be collected by the IAT
and provided to the JCSGs as part of the weekly refresh to the
MAD as it becomes available.

Subject to the foregoing, I certify that the information is
accurate and complete to the best of my knowledge and belief.

Anne Rathmell Davis
Special Assistant to the Secretary of the Navy
for Base Realignment and Closure

Data Call 2: **Criterion Seven**, 14 June 2004 Issue Summary

Major Issues:

DoD Numbers 1405, 1406, and 1407. Thirty-five percent of the activities responding to questions as “not applicable” or providing a “zero” answer did not include a required statement identifying that the information was not available. Questions fielded from activities requesting additional guidance prior to certification indicate that activities were encountering difficulties in obtaining answers. Recurring errors include: (1) school districts/states that do not collect ACT data or graduation rates (collect drop out rates); (2) community request for user information fee; and (3) summer closures or limited staff availability to provide information.

DoD Numbers 1408 and 1409. 60-75% of the employment numbers for the year 2000 and 30-40% of the 2001 numbers do not match the Bureau of Labor Statistics source document website and table.

DoD Number 1410. Community Income and Housing Value. Over 30 percent of respondents appeared to misunderstand the amplifying directions to research answers. Activities that responded incorrectly either: (1) added the number of Vacant Units for Rent with the number of Vacant Units for Sale to obtain Total Vacant Units; or (2) used incorrect Metropolitan Statistical Area (MSA) or Military Housing Area (MHA) information to gather vacant housing information.

DoD Number 1415. Twenty-five percent of the activities did not use the FBI table to obtain the answer and appeared to misunderstand the amplifying directions to research answers. Activities that responded incorrectly either: (1) used incorrect Metropolitan Statistical Area (MSA) or Military Housing Area (MHA) information; and (2) derived FBI crime index numbers using local area methodology.

DoD Numbers 1418 and 1419. The JPAT Seven Committee recommended rescinding the Water (1418) and sewage (1419) data call questions and replacing with two new questions. The new questions obtain information to assess the ability of the existing infrastructure within a 20 mile arc to absorb an additional population of 1,000. On 11 August members of the departmental Deputy Assistant Secretaries and the Office of the Secretary Defense BRAC process concurred and approved the recommendation.
