We have provided certified data via a CD to the Intelligence JCSG SCIF Security Manager for the three DON activities listed in enclosure (1) in response to the Intelligence JCSG MILVAL Data Call. This submission completes the Military Value data call for all DON Intelligence activities.

During the course of our initial quality review of the data, we discovered a few areas where we believe the data is incorrect, incomplete, or in need of further clarification. A summary of the unresolved data concerns identified to date is provided in enclosure (2). We are taking action to resolve these concerns. Additionally, we anticipate that other areas of concern will be identified as we conduct more detailed analysis in the coming weeks. The Intelligence JCSG may also find during the course of their own analysis of the data, additional areas requiring clarification or supplementation, and request additional data be collected. Updated certified data will be collected by the IAT and provided to the Intelligence JCSG as it becomes available.
