MEMORANDUM FOR CHAIR, SUPPLY & STORAGE JOINT CROSS SERVICE GROUP

Subj: PROVISION OF CERTIFIED DEPARTMENT OF THE NAVY DATA TO THE
BRAC 2005 SUPPLY & STORAGE JOINT CROSS SERVICE GROUPEncl: (1) Department of Navy Base Operating Support manpower
data

Enclosure (1) identifies the Base Operating Support (BOS) personnel associated with each function being transferred from a Navy site for each Scenario Data Call requested by your JCSG. This information is forwarded in accordance with JCSG requests to account for the impact of functional transfers on BOS labor.

The Department of the Navy BRAC office used certified data to calculate these numbers, employing methodology consistent with the COBRA model operating concepts and rules. The numbers shown in the "BOS personnel associated with moving functional personnel" column may be added to the Personnel Movement numbers on COBRA Screen 3 to reflect the movement of BOS labor from the losing site. The numbers shown in the "BOS personnel associated with eliminated functional personnel" column may be added to the Personnel Eliminated numbers on COBRA Screen 6 to reflect the elimination of BOS labor positions at the losing site. The numerical value "0" in a column represents no transfer of personnel with that Scenario action resulting in no impact to BOS.

We will continue with our quality assurance review of this data and will inform you if we discover any data that is incorrect, incomplete, or in need of further clarification. Subject to the foregoing, I certify that the information is accurate and complete to the best of my knowledge and belief.

A handwritten signature in black ink, appearing to read "Anne Rathmell Davis".
