Dear General Newton, Commissioner Coyle and General Turner:

Once again, thank you for taking the time to meet with Congressman Rush Holt, Congressman Frank Pallone and Congressman Chris Smith on Wednesday, August 10, 2005. We appreciate the opportunity that each member of the Commission has afforded the New Jersey Congressional Delegation to present the arguments concerning the future of Fort Monmouth.

Attached, please find an addendum to our most recent letter to you on August 16, 2005 further explaining the answers to the questions regarding the enclave savings proposal, including our own COBRA analysis on savings, maps to recognize the land, which would remain, as well as a position paper explaining this proposal in detail. Also attached please find a matrix chart detailing the differences between the DoD's original numbers and recommendations and our recently developed analysis negating the DoD's projections.

Again, thank you for your time and continued insight into the importance of the C4ISR mission at Fort Monmouth. As you begin your deliberations we know that you will give every consideration to Fort Monmouth. If you require any additional information, we will be pleased to provide it.

With best regards,

Jon S. Corzine
