LITTLE ROCK

ARK DELEGATION - 7/5/05 - BRAC OFC

Knew Bang Travis

No history of tornado hitting LRAFB

Base cost 1955

People raised \$ to give to buy land for base

Effort to hedge encroachment

Contrib \$500 from city for cont. ed ch.

Also one LR Airport

Camp Robinson has dirt field

Assault strip at base

Think there is room to construct //

Early '80s 120 bases there

LR people here to support decision

They provide water, treat wastewater

Brock Strom

Hires the BCEG

Absolutely programmatic

Austin - focus only on questions asked

Little knowledge inside NCB - let alone field

FTF ^{slightly relevant}

Flying into each state, NES the same

BRAC picks up on that

Disadv of TAGs - ~~each~~ each FTF more w/respect to
their state, lose track of whole picture

Razorback close by for唐

Have pulled ASA in soft shelters then

Getting FAA approvals on combining some ranges

Strom: not sure how lead route a big decision *

Surprised this aspect in the MCI

AIR Field FS got 0 out of 5 Why pick 50 miles
8000 ft the break F-16 can waves to 7000

They had an alt in 50 miles 7400', 54 miles
7000' below have to have a barrier
