Inquiry Response

Re: BI-0039 (OSD Clearinghouse #0221)

Requester: Ken Small, AF Team Leader, BRAC Commission R&A Staff

Question: Would you please confirm which numbers are the correct data and provide the bibliographic cite for the proper data.

The Air Force Team is reviewing the data for Pope AFB.

There are discrepancies in the data for Pope Air Force Base between that of the text of the BRAC report, Vol 1, part 2, (page Air Force - 36) and the spreadsheet on page B-14.

Regarding the "Economic Impact on Communities" the text provide the following information:

Maximum Potential Job Reduction - 7,840 (4,700 direct and 3,140 indirect) or 4% of economic area employment.

However, the spreadsheet on page B-14 provides the following:

Total Job Changes - 6,802 (4,145 direct and 2,657 indirect) or 3.5% change as percent of employment.

Answer: The text on page "Air Force - 36" describes the economic impact on the Fayetteville, NC MSA for only the Air Force recommendation titled "Pope Air Force Base, NC, Pittsburgh International Airport Air Reserve Station, PA, and Yeager Air Guard Station, WV".

The spreadsheet on "Page B-14" provides the economic impact of all BRAC recommendations affecting the Fayetteville, NC MSA and breaks these down between Pope AFB, NC and Fort Bragg, NC. Note that four BRAC recommendations impact Pope AFB (See page A-33) and two recommendations impact Fort Bragg, NC (See Page A-32).

Because the individual recommendation economic impact reports were generated by MSA rather than installation, and because the BRAC recommendations include combining Fort Bragg and Pope AFB into a single installation which complicates the definition of these two installations in the reports, it was much easier to check these numbers by looking at the Fayetteville, NC MSA as a whole. The following figures were

taken from the individual economic impact reports (Criterion 6) provided in the justification books for each recommendation:

Recommendation	Direct Job Change	Indirect Job Change
USA - Fort Gillem, GA	8	5
USA - Fort McPherson, GA	2211	1605
USA - Fort Bragg, NC	2540	1698
USAF - Pope Air Force Base, NC, Pittsburgh International Airport Air Reserve Station, PA, and Yeager Air Guard Station, WV	-4700	-3140
USAF - Gen Mitchell ARS, WI	121	90
Total	**180**	**258**

These totals match the figures provided for the Fayetteville, NC MSA on Page B-14.

Approved

DAVID L. JOHANSEN, Lt Col, USAF
Executive Officer, Base Realignment and Closure

Economic Impact Report

This report depicts the economic impact of the following Scenarios:

USAF0122v3: AF Pope (316.3)

The data in this report is rolled up by Action

As of: Wed Jun 08 09:32:37 EDT 2005

ECONOMIC IMPACT DATA

Scenario: AF Pope (316.3)
Economic Region of Influence(ROI): Fayetteville, NC Metropolitan Statistical Area
Base: Pope AFB
Action: 25 C-130E to Little Rock, 36 A-10 to Moody

Overall Economic Impact of Proposed BRAC-05 Action:

ROI Population (2002):	339,497

MEMORANDUM FOR DUKE TRAN, SENIOR ECONOMIST,
REVIEW & ANALYSIS

SUBJECT: HAWTHORNE ARMY DEPOT ECONOMIC IMPACT REPORT

The following is in response to your e-mail inquiry of June 14, 2005, where you asked for a revised economic impact statement for Hawthorne Army Depot using Mineral County as its economic region of influence instead of Reno-Sparks Metropolitan Statistical Areas. That report is attached.

Jay Berry
Executive Secretary

Attachment:
As Stated

Economic Impact Report

This report depicts the economic impact of the following Scenarios:

IND-0108: Close Hawthorne Army Depot

The data in this report is rolled up by Region of Influence

Subject: Hawthorne, Lone Star, Kansas questions for the OSD clearing house

George,

I think we should send over the comparison and white paper that Hawthorne wrote, and the briefing that was given on Lone Star and Kansas. From my perspective, these are the questions we should ask the clearing house regarding Hawthorne Army Depot, Lone Star Army Ammunition Plant, and Kansas Army Ammunition Plant:

1. For all three installations, Day and Zimmerman stated that the personnel numbers were inaccurate, noting that information provided in response to data calls was not used or incorporated into the final recommendation, and that the contract workforce had not been taken into consideration. In each case, the facility is government-owned, contractor-operated (GOCO), meaning that the workforce is contractual by nature instead of a more typical federal civilian workforce. Please respond as to what the correct personnel figures should be at each installation.

2. The concern was presented that closure of Hawthorne with movement to Tooele Army Depot was not logical as movement was occurring from a large facility into a smaller facility. How was the decision made to move the Hawthorne mission to Tooele?

3. There was community mention that there would be a significant issue with permits in Utah and there would also be significant community (Utah) concern regarding the demil that would move from Hawthorne to Tooele. Please discuss Utah requirements and any information on what would need to happen to successfully move the Hawthorne mission to Tooele with regard to environmental permits and requirements.

4. Please discuss how each of the missions at Hawthorne was considered. How particularly was their demilitarization capability considered within the recommendation to close the facility?

5. Were any other scenarios explored which did not close Hawthorne, but realigned other sites and moved missions to Hawthorne? If so, what were the scenarios and why were they rejected?

6. With regard to Lone Star and Kansas, please discuss how you accounted for and incorporated the complexity of manufacturing ammunition into the recommendations.

7. There was discussion and reference to a RAND study which recommended privatization in place of all the ammunition plants. Please provide a COBRA run and comments on the potential for a suggestion to privatize both Lone Star and Kansas in place.

	COMMENT NUMBER	COMMENT	DATE RECEIVED	BASE/INSTALLATION	STATE
1	1733	**Closure of NAS Willow Grove** Dear BRAC Commissioner: I think it is important to keep our military bases spread among different communities and states. Our military should be a familiar sight so that the average citizen knows our men and women in uniform as ordinary people just like them; the parents of kids who go to school with our kids, as people who worship with us, and shop where we shop. Americans need this personal connection so the term "the Military" isn't a cold organization but a living organism. I urge you to convey my interest in maintaining the military installation NAS JRB Willow Grove, located in Horsham, PA. They have just completed a new Navy Lodge here and it would be such a waste of taxpayers' money to leave this facility unused. Construction on a new commissary was due to start this year. This installation is the model of joint use base facilities whose strengths include: Working Joint operations including all services except Coast Guard Criticaltrategic location near all Northeast Corridor major metropolitan and port areas Vital part of Homeland Defense & Security for the East Coast Huge economic impact to our local region Modern, 8,000 ft. runway and modern Digital Radar Air Control System – one of only four in the U.S. and available for Emergency Preparedness and operations. Strong community support As the mother of an Army Captain I appreciate your representation and thank you for conveying this message. Thank you, Barbara Arthurs 3000 Pennypack Road Hatboro, PA 19040	6/16/2005 4:10:00 PM	Naval Air Station Willow Grove	PA
2	1732	**Do what's best** Attn Commissioners: I am a citizen of the United States first, a taxpayer second, and an employee of the Portsmouth Naval Shipyard third. My career won't suffer if the shipyard closes, but I fear that the optimization of my tax dollars and the military that protects my country will. I would feel more comfortable if my questions regarding the following suject matters were considered: -Geographic strategy: Pearl Harbor Shipyard supposedly has a strategic military advantage over Portsmouth due to its location. This does not make sense to me. In the time it takes Pearl to repair a submarine, one could be transported to Portsmouth, repaired, and sent back to the Pacific Fleet for less money and	6/16/2005 4:08:00 PM	Naval Shipyard Portsmouth	ME

		competition should be the name of the game. I'm speaking out through this message, in hopes it will have some effect on those making the decisions to wake up, get smart, and stop this disaster train from getting any further. I consider the possible closing of PNS a travesty. It's not fair, nor warranted, or just, and certainly not good for our government, especially the Navy. My conscience will not let me remain silent. I always have an opinion, but I'm not the type who gets involved in any kind of group support like rallies, or in other ways. But, this is just too outlandish to not speak up. Again, the point here is PNS is the best, and should be the last to consider for closure. It's too hard to get improvement out of government bureaucracy to not force a standard of excellence, that others need to strive for, or else you're history!			
8	1726	**Closing Otis Air Force Base** I feel that it is unnecessary for the government to close this base especially with the war in Iraq. We need more bases like this one to help with training and to help with the on going mission in Iraq as well as other countries that are Iraqs alies.I think closing this base would be a BIG mistake. Sincerely, Barbara Souza	6/16/2005 3:23:00 PM	Otis Air Guard Base	MA
9	1725	**Cannon AFB Closure** Dont let a bunch of disgruntled bored military wives influence what is best for our troops. OPERATION KEEP CANNON!!!!!!!!!!!!	6/16/2005 3:03:00 PM	Cannon Air Force Base	NM
10	1724	**BRAC** As an Alaskan, my concern with the closure of E.A.F.B., is the location of the base in reference to the pipeline. Knowing that the base is operational make sus all feel safer. It would be a shame to lose this base, or an invitation to foreign partied to do as they want.	6/16/2005 2:34:00 PM	Eielson Air Force Base	AK
11	1723	**Base Closure** Eilson AFB is critical to this nation's defense due to its unique location and the instability of many Asian countries. It's inclusion in the BRAC closure list is absolutely inappropriate and should be removed.	6/16/2005 2:33:00 PM	Eielson Air Force Base	AK
12	1722	**BRAC Closure** Hawthorne has been bulked in with Reno, NV. We are a very small community 140 south of Reno. There are only about 3500 people in the whole county, 500 of which work at the Army Base. If it closes, it will impact the whole community. We have one grocery store, which will have to close. The churches, schools, and few business we have will no longer be supported. I have lived here for 40 years and seen a lot of things come and go, but this is likely to close the whole town. We have a large population of retired people. The jobs don't have any bearing on them. But without stores, churches, etc. they won't be able to stay here, either. Please give us another look and realize that you are killing our whole community and the county. There just aren't any other places for people here to find jobs.	6/16/2005 2:25:00 PM	Hawthorne Army Depot	NV
13	1721	**Please review** Thank you so much for having scheduling the commission meeting hearing in our town. I would ask that you come to us with an open mind, open eyes, and open heart. Let us show you our support, listen to our concerns, look at our great town and Cannon, and feel the damage that the announcement, much less a closure, has done to our communities. I invite you to take a hard	6/16/2005 2:21:00 PM	Cannon Air Force Base	NM

1. The estimates of employment for 2001-2003 are based on the 2002 North American Industry Classifi

2. Excludes limited partners.

3. "Other" consists of the number of jobs held by U.S. residents employed by international organizations

4. Broomfield County, CO, was created from parts of Adams, Boulder, Jefferson, and Weld counties eff

E The estimate shown here constitutes the major portion of the true estimate.

(D) Not shown to avoid disclosure of confidential information, but the estimates for this item are includec

(L) Less than 10 jobs, but the estimates for this item are included in the totals.

(N) Data not available for this year.

Local Area Personal Income

For **help and instructions**, downloadable files, and other information please read the notes below.

Step 1. *Select a series. This will change options below.*

- (◉) Personal income and population summary estimates (CA1-3)
- ( ) Detailed income, employment, and compensation tables by NAICS industry 2001-2003 (CA05, CA25, CA06)
- ( ) Detailed income, employment, and compensation tables by SIC industry 1969-2000 (CA05, CA25, CA06)
- ( ) Detailed tables of county summary, regional profiles, personal current tranfers, farm income, 1969-2003 (CA04, CA30, CA35, CA45)
- ( ) Single line of data for all counties (more than 3000 rows returned; please limit years selected to speed process)
- ( ) Wage and salary summary estimates (CA34)

CA1-3 — personal income summary estimates

Step 2. *Select one estimate, one area, and one or more years.* (help)

Personal income	U.S., States, and regions	2003
Personal income, percent change	Metropolitan Statistical Areas*	2002
Population	BEA Economic Areas**	2001
Per capita personal income	State Metro/Nonmetro Portions***	2000
Per capita personal income, percent of US	Alabama	1999
	Alaska	1998
	Arizona	1997
	Arkansas	1996
	California	1995
	Colorado	1994

**December 2003 OMB metropolitan area definitions, released by OMB in February 2004.*
***November 2004 redefinition of the BEA economic areas*
****Nonmetropolitan state portion includes micropolitan counties.*

Step 3. *Press Display to view a table, or Download to retrieve comma-separated-value text.*

Display | Download

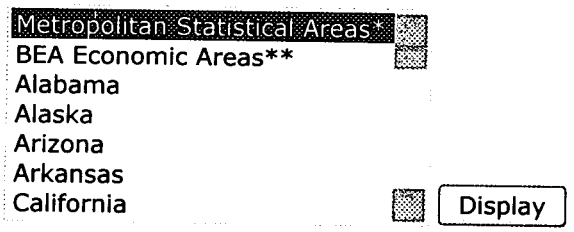
NOTES:

- The Series buttons at the top of the page control table selections. Click on different series buttons to get different table options.
- To view county-level information first display a State. Use the CTRL and/or Shift keys to select multiple years. Press *Display* to display your selection in HTML tables, and *Download* to download a comma-separated-value text file. After displaying a table, you have the option to show one estimate for all counties and MSAs in that State by clicking on the line code next to the estimate. If you select *Download* it is recommended that you specify an output file name with a CSV extension. If you

select *Download* you need to do the following after the information is displayed:
  - Select your browser's "Save As" menu item
  - Select a file type of "Text file"
  - Name your file with a CSV, PRN, or TXT extension.
- The greater the number of years selected, the slower the request will be. A submission that requests too much information has the possibility of timing out. If you are displaying information, you will want to consider how large your table will be; a table with a lot of years (columns) may be difficult to read because of its large width.
- The local area estimates in the above tables also appear on the Regional Economic Information System (REIS) DVD, which is available for ordering. A downloadable package of REIS estimates and software is also available.

Additional files

- CA1-3— Personal income, per capita personal income, and population, compressed comma-separated-value (CSV) files
- Personal income and per capita personal income, 2001-2003, with year 2003 **rankings of per capita personal income.** Choose an area from this list—



- BEARFACTS, a narrative about an area's personal income using current estimates, growth rates, and a breakdown of the sources of personal income.
- Journey to Work— the number of commuters from a county of residence to a county of work, for 1970, 1980, and 1990.
- 250 highest and lowest per capita personal incomes of the 3111 counties in the United States, 2003.
- CA34— County and MSA total wage and salary disbursements, total wage employment, and average wage per job
- The REIS estimates and software are available to download.

New estimates of 2003 county personal income and revised estimates for 2001-2002 were released April 27, 2005. The revised estimates also reflect the new and revised county-level source data. These estimates incorporate new OMB metropolitan area definitions released June 2003 (with revisions released February 2004). Redefinitions of BEA Economic Areas were applied in November 2004.

My brief answer to Bob's request: Ms Debbie Sitton's claims were valid.

Hawthorne Army Depot is located just 6 miles East of Hawthorne City, which in turn is located in the Mineral County, one of 17 counties in Nevada. Hawthorne City has a total population of about 3,300, accounting for almost 70% of Mineral County population.

Mineral County itself does not belong to any Metropolitan Statistical Areas (MSA) or Micropolitan Statistical Areas (MISA), but it borders with Fallon MISA and Reno-Sparks MSA, plus few other areas. Ms Sitton was also right that Fallon MISA, which houses NAS Fallon, has lower employment level (15,858 jobs) than the Reno-Sparks MSA (24,3270 jobs).

Why DoD used Reno-Sparks MSA to derive economic impacts for action on Hawthorne Army Depot is beyond me! However, this is not new to us; we have seen similar cases, eg, DoD used Washington-DC-WV-VA MSA to derive impacts for actions on Fort Belvoir. Nevertheless, still tried to queried for the rationale behind Hawthorne from economists at Booz-Allen-Hamilton (the contractor did the impacts studies), but they have not returned my calls. I will rebrief you on this once I hear from them.

In addition, I have collected tons of socio-economic data on the Mineral County, Reno-Sparks MSA, and Nevada. If you're interested to know: economic data for Mineral County are relatively dismal, compared with the rest of other areas in Nevada. I can discuss them in details for you or you can check out the data at our share drive *S:\R & A\Inter Agency Team\Economic Q&A's\Base Info + ROI Data*

Based on my rough calculation, the economic impact ratio for Hawthorne Army Depot (HAD) is -13.9% if Mineral County is used as its ROI (-325 Total Job Change / 2334 ROI Employment), resulting the second highest local economic impacts for 2005 BRAC. The leading candidate is still the closing of Cannon AFB that result in -20.47% impact ratio on Clovis MSA, NM.

My recommendation HAD may deserve a staff visit. Also, from the information I've gathered HAD seems to have serious envionmental impacts on the local community too.

Audrey,
Thank you so much for listening to my questions and helping me out the best you can.

The additional data requested is as follows:

The Hawthorne Army Depot is a Government Owned Contractor Operated base. The depot employs 45 civil service, one military and 461 contractor employees whose work tasks are virtually identical to Government Civilians or Military Personnel. The contractor employees how perform the tasks requested by the government, are paid by the government.

The Town of Hawthorne will lose an additional 400+ people if the depot is closed because of the impact to the businesses, so the total loss of jobs is over 900 in a town with a population of 3500. This is totally devastating.

Another inconsistency is the fact that we had to use Reno/Sparks metropolitan area as the nearest city with a population of 100,000 or more. That made our employment level to be less than 0.01%. In looking through the data, Naval Air Station Fallon in Fallon Nevada was able to use the metropolitan city of Fallon Nevada, which is closer to Hawthorne Army Depot than the Reno/Sparks area is. Why weren't we able to use Fallon? Fallon does not have a population of 100,000 or more which was the criteria.

I understand from you that our hearing will now be in New Mexico which is over 1100 miles away. There is no way the public of Hawthorne will be able to attend. The airfare is over $400, plus hotels, rental car and food. It would cost about $250 miles to attend the hearings. It would be nice to have a hearing here in Hawthorne so the public could attend, the same as you are doing for Hill AFB in Utah and also Clovis Base in Clovis New Mexico.

And last but not least, we need a site visit because of the inconsistencies and there are too many to put down in this email but I would be more than happy to send the data if requested.

Your assistance in this grave matter is greatly appreciated.
Thanks,
Debbie

Army – 15 Army - 22	Fort Hood, TX Operational Army (IGPBS)	Major difference between numbers in Appendix D and the community
H&SA - 3	Co-Locate Miscellaneous AF Leased Locations	Appendix D has three entries and I aggregated them since I didn't know which recommendation applied to each of the entries
H&SA - 8	Co-Locate Defense/Military Department Adjudication Activities	Appendix D shows no personnel transfers from the Pentagon to Fort Meade
H&SA – 10	Co-Locate Miscellaneous Army Leased Locations	Appendix D has five entries and I aggregated them since I didn't know which recommendation applied to each of the entries
H&SA - 12	Co-Locate Miscellaneous OSD, Defense Agency, and Field Activity Leased Locations	Appendix D has three entries and I aggregated them since I didn't know which recommendation applied to each of the entries
H&SA - 15	Co-Locate Missile and Space Defense Agencies	No personnel relocations from leased space in Alabama
H&SA - 17	Co-Locate Navy Education and Training Command	No personnel relocations for Saufley Field – they may be aggregated with NAS Pensacola
H&SA – 30	Consolidate Media Organizations into a New Agency for Media and Publications	I question the Fort Belvoir numbers – I know a civilian who works for Army Magazine and Appendix D shows no civilian impact
H&SA – 35	Create Joint Mobilization Sites	Appendix D does not show personnel impacts for many of the realignments
H&SA - 41	Joint Basing	No personnel impact is shown for Fort Story
Ind - 6	Sierra Army Depot, CA	No personnel impacts shown even though the Economic Impact portion of the report mentions some
Ind - 16	Lone Star Army Ammunition Plant, TX	Recommendation has incorrect state for McAlester AAP – it should be OK, not IN
Int - 3	Defense Intelligence Agency	No personnel impacts are shown
Int - 4	National Geospatial Intelligence Agency Activities	No personnel impacts are shown
Tech – 5	Co-locate Extramural Research Program Managers	Some personnel impacts are not shown
Tech – 15	Create a Naval Integrated Weapons & Armaments Research, Development & Acquisition, Test and Evaluation Center	I didn't know hoe to split the personnel impacts between Naval Base Ventura County, Point Mugu and Naval Base Ventura County, Port Hueneme
Tech - 24	Establish Centers for Fixed Wing Air Platform Research, Development & Acquisition, Test & Evaluation	Appendix D shows Wright-Patterson AFB to be a gainer whereas the recommendation shows functions being transferred to NWS China Lake
	Undistributed or Overseas Reductions	Did not include these in any of the spider charts. There are some realignments to installations being closed.

Tran, Duke, CIV, WSO-BRAC

Subject: Request for Detailed Descriptive Economic Survey Data by MSA

Duke,

In general, have you ascertained if DoD has performed Input/Output Analsyses to determine or trace the output, employment, and income impacts that a particular "candidate recommendation" (esp. for the 33 "closure" recommendations) could exert on the various sectors of the losing and gaining "communities" to determine the overall magnatude of a particular "recommedation", as well as identify the economic sectors (e.g., housing, employment, etc.) on which the recommendation will exert the greatest influence?

Also, do you know whether or not the DoD analysts performed a "Fisacl Impact Analysis" or "cost-revenue analysis" to compare the public costs and public revenues associated with each particluar closure recommendations?

Finally, do you have acess to the following categories/types of data by MSA, by County, and by tract for the Pascagoula, MS MSA as well as the MSA for NAS Brunswick ME, NSY Portsmouth NH/Kittery ME MSA, New London CT MSA and the Ingelside/Corpus Christi TX MSA?

Demographic
- Household Income
- Household Formation/Growth
- Median Household size
- Net Migration Trends
- Projected Population Growth/Loss
- Households by Tenure Type by Age Cohort
- Seasonally Adjusted Population

Cost of Living
- Local Consumer Price Indicies Trends

Education
- Total School Expenditures
- Total Cost per Pupil
- Grade School Students Enrolled and Projections
- Middle School/Jr. High School Students Enrolled and Projections
- School Facility Building Programs/Captial Investment Plans
- Number of Temporary Classrooms
- Number of School Agre Children Before BRAC
- Number of School Age Chidren After BRAC

Housing Makets (Most recent Annual Housing Surveys or equivalnt survey/sample)
- Building Permit Activity for SFD and MFD
- Construction/Building Start Activity for SFD and MFH
- Median Home Prices
- Number of substandard units
- Number of Manufactured/Mobile Homes
- Median age of housing stock
- Housing Absorption History
- Housing Default Rates
- Housing Demand Trends for SFD/MFH
- Housing Supply Trends for SFD/MFH
- Current and Projected Rental Rates
- Current and Projected Housing Prices
- MSA's Housing Inventory as a percent of State's Inventory

Saftey and Crime

- Fire Personnel per 1,000 pop.
- Police Personnel per 1,000 pop.
- EMS Calls per 1,000 pop.
- Solid Waste Capacity (tons/day)
- Sewage Capacity (gal/day)
- Water Capacity (gal/day)

Please call me at x2945 if you have any questions.

Thanks,

Brian

Geographic Definition

The geographic area Reno-Sparks, NV (MSA), is made up of the following areas:

- *Counties and county-equivalents*
  - 32029 Storey, NV
  - 32031 Washoe, NV

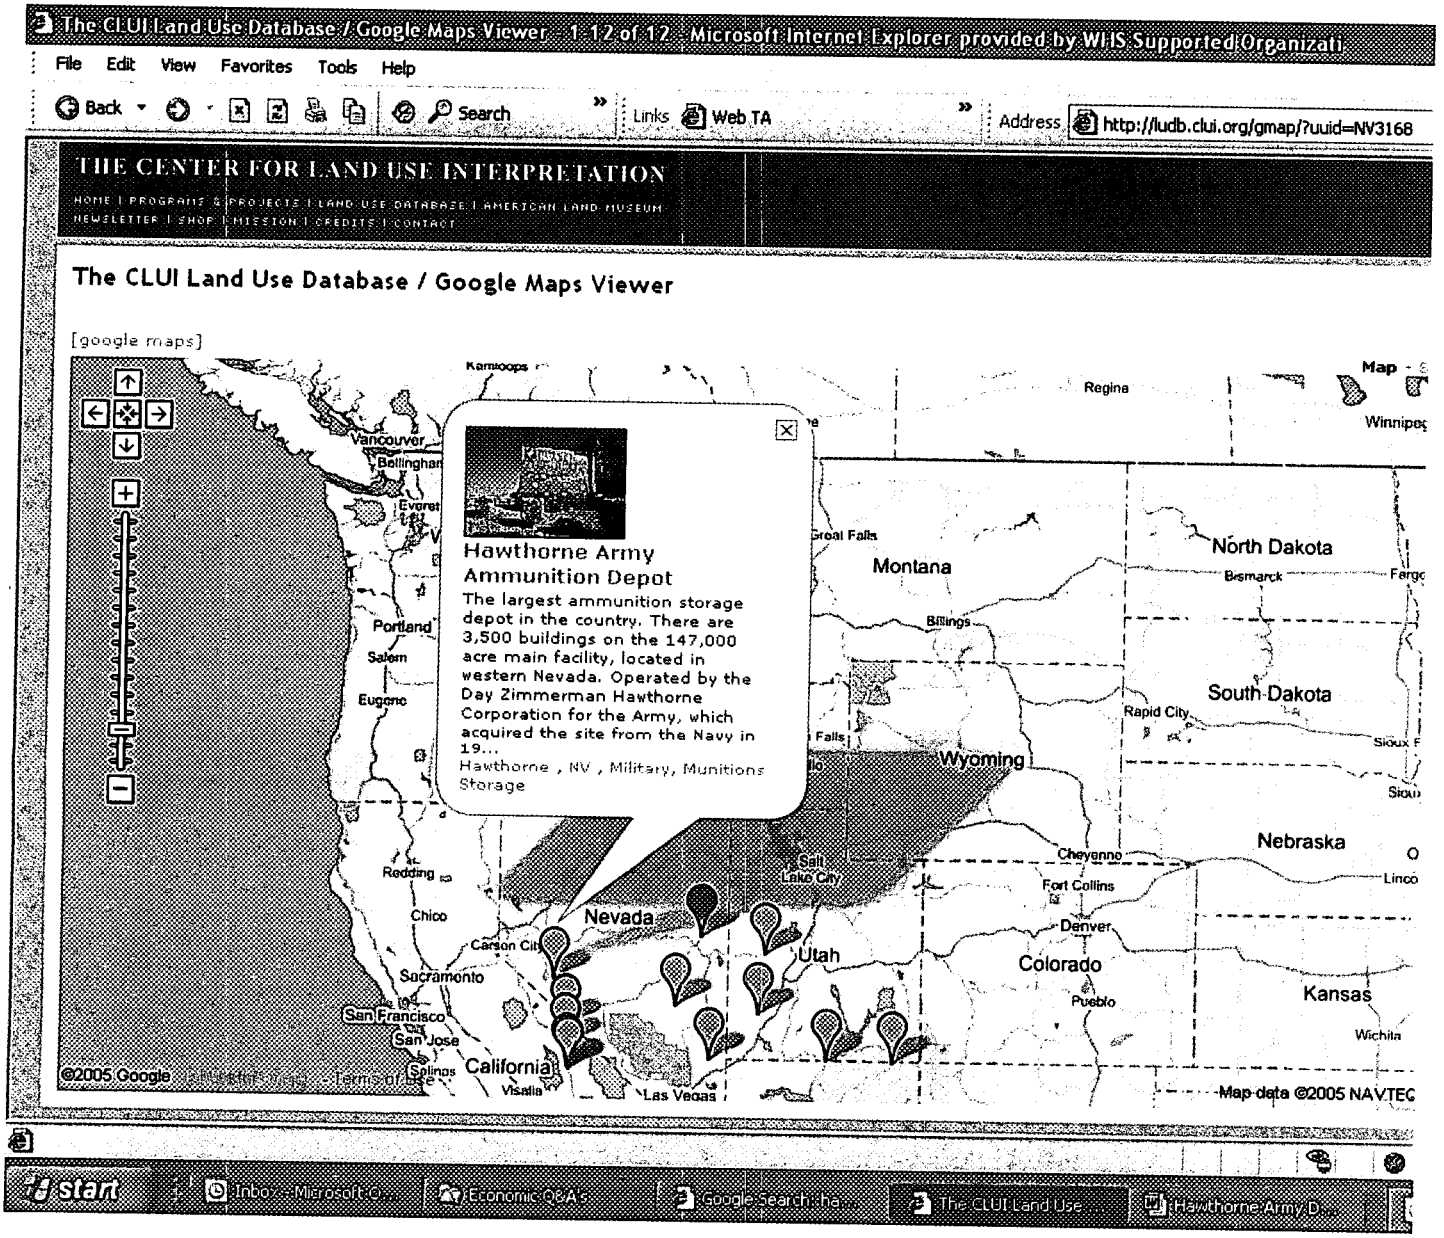
Hawthorne Army Depot

The Hawthorne Army Depot (HWAD) is in the west-central part of Nevada, approximately 140 miles southeast of Reno, on the southern shore of Walker Lake. The Hawthorne Army Depot is in Mineral County and occupies approximately 150,000 acres of semiarid land surrounding the Hawthorne community, which has a resident population of about 4,500.

Hawthorne Army Depot, located 90 miles SE of Reno, six miles E of Hawthorne, is the largest ammunition storage depot in the country. There are 3,500 buildings on the 147,000 acre main facility, located in western Nevada. The Depot is a government-owned, contractor-operated military industrial installation. The resident contractor is Day and Zimmerman/Hawthorne Corporation. The government and Day and Zimmerman/Hawthorne Corporation employ approximately 700 personnel.



Operated by the Day Zimmerman Hawthorne Corporation for the Army, which acquired the site from the Navy in 1977. Facilities include 2,427 munitions storage igloos, 75% of which are in use; the Western Area Demilitarization Facility, a $68 million, 13 building complex that processes and recycles outdated munitions; and a 700-acre bomb disposal site located 25 miles northeast of Hawthorne. The installation employs around 700 people, all but one of whom are civilians. Over the years chemical weapons have been stored and disposed of at Hawthorne, and there are several areas contaminated by mustard gas and other chemical agents. Much of Oregon's Umatilla Army Depot, Arizona's Navajo Army Depot, and New Mexico's Fort Wingate operations were moved to Hawthorne in the early 1990's. The Navy's Underwater Nuclear Warfare Center had a location here as well.

BACKGROUND

The Hawthorne Navy Ammunition Depot (NAD) was established after an explosion destroyed the Lake Denmark, New Jersey ammunition plant in 1926. Hundreds of people were injured in nearby towns. A court of inquiry investigating the explosion recommended that a depot be established in a remote area within 1,000 miles of the west coast to serve the Pacific area.

Construction began on NAD in July 1928, and NAD received its

first shipment of high explosives on October 19, 1930. When the United States entered World War II, the Depot became the staging area for bombs, rockets, and ammunition for almost the entire war effort. Employment was at its highest at 5,625 in 1945. By 1948, NAD occupied about 104 square miles of the 327 square mile area under Navy jurisdiction. Subsequently, excess Navy lands were turned over to the Bureau of Land Management.

Security for the 3,000 bunkers at NAD was provided by the U.S. Marine Corps. Beginning in September 1930 and during World War II, 600 Marines were assigned to the facility. In 1977, that number had been reduced to 117; security is contracted to a private company.

The mission and functions at NAD have remained much the same over the facility's history. The mission, as stated in a 1962 Navy Command History, was to "receive, renovate, maintain, store and issue ammunition, explosives, expendable ordnance items and/or weapons and technical ordnance material and perform addition tasks as directed by the Bureau of Naval Weapons. It also served as an important ammunition center during the Korean War and the Vietnam conflict with several thousand structures on 236 square miles of land.

In 1977, NAD was transferred to the Army, and renamed the Hawthorne Army Ammunition Plant (HWAAP). In 1980, HWAAP was redesignated as a government-owned contractor-operated facility. Day & Zimmermann Hawthorne Corporation (DZHC) is the current operating contractor. In 1994, the facility received its current name of the Hawthorne Army Depot (HWAD).

Introduction

This "website" contains individual site summaries for each of the Hawthorne Army Depot's 123 Installation Restoration Program (IRP) sites. Each site summary webpage includes a discussion of the contaminants of concern, the type of scientific investigations conducted to date, and a proposed planning process for completing site remediation activities. A "clickable" photo is available for most sites. As sites are closed, or otherwise determined to require no further remedial action, NDEP will

amend each individual site summary as appropriate. This recordation process will serve to document the long-term stewardship decisions and responsibilities at the depot.

Additional Background:

This website documents the ongoing status of the U.S. Army's Installation Restoration Program at the Hawthorne Army Depot. The Depot is located in Mineral County Nevada approximately 135 miles southeast of Reno and is contiguous to, and surrounds the community of Hawthorne, Nevada. Hawthorne has a resident population of about 4,000 people.

The depot covers an area of approximately 150,000 acres. It is bounded on three sides by mountains -- the Wassuk mountain Range on the west, the Gills Range on the east, and the Excelsior Mountains on the south. Walker lake, a comparatively large, terminal, desert lake, bounds the depot on the north.

The Army depot is a government-owned, contractor-operated (GOCO) military industrial installation. The resident contractor is Day and Zimmerman/Hawthorne Corporation; total employment varies between 400 and 700 personnel. The current mission of the depot is to receive, issue, store renovate, inspect, demilitarize and dispose of conventional ammunition.

The depot contains over 2,600 buildings or structures, of which 2,200 are explosive storage magazines. It is considered the largest conventional munitions depot in the western hemisphere, if not the entire world.

Regulatory Process:

The depot is not on the National Priority List (NPL), although the Army follows the CERCLA/RCRA process for remediation activities. Studies and investigations have been conducted under the guidance of the State of Nevada -- Division of Environmental Protection (NDEP). The regulatory process for remediation activities is governed under RCRA (Resource Conservation and Recovery Act).

Contamination Profile

Since 1974 site investigations and groundwater monitoring have been conducted by the Army and the US Geological Survey (USGS). The primary contaminants of concern are explosives (TNT) and Unexploded Ordnance (UXO). The individual contaminated sites vary in size and complexity, but generally follow the categories listed below:

- Burn Areas
- Contaminated Fill
- Disposal Pits
- Dry Wells
- Incinerator
- Storage Areas
- Spill Site Areas
- Landfills
- Firing Range
- Fire Training Area
- Surface Disposal Area
- Waste Treatment plants
- Explosive Ordnance Disposal Area
- Surface Impoundments
- Unexploded Munitions/Ordnance
- Storage Tanks

As of June 2000, the Army, with concurrence from NDEP, defined the 123 sites in two general categories: 46 Active sites and, 77 sites defined as "response complete " under the Installation Restoration Program.

Stewardship Responsibilities:

As mentioned above, as sites are closed or otherwise determined to require no further remedial actions, NDEP will amend each individual site summary as appropriate. This recordation process will serve to document the long-term stewardship decisions and responsibilities for the IRP at Hawthorne Army Depot.

MISSION

With the end of the Cold War, the nation's need for a large conventional munitions stockpile decreased. A 1993 study recommended a tiered approach with a smaller, safer, better quality stockpile with a reduced workforce and fewer storage installations. Much of Oregon's Umatilla Army Depot, Arizona's Navajo Army Depot, and New Mexico's Fort Wingate operations were moved to Hawthorne.

Since the major peacetime use of conventional ammunition is for training, the plan that resulted from the study divided the continental United States into east, central and west regions. Each region received a Tier I facility to reduce transportation costs for training ammunition.

Tier I facilities store ammunition for training and the first 30 days of war reserve ammunition. Tier II facilities store war reserve ammunition to be used after the first 30 days. They are partially staffed in peacetime, but would increase staffing when needed. Tier III, or caretaker, facilities store ammunition excess to the Defense Department's needs. Under 1995 Base Realignment and Closure (BRAC-95) decisions, two facilities were to close and the ammunition mission of the third (Sierra Army Depot) would be reduced to demilitarization only.

HWAD is listed as a Tier II, or caretaker, ammunition facility. **HWAD is also is considered the Army's premiere resource recovery and recycling center of conventional ammunition**. The HWAD contains over 2,600 buildings or structures, of which 2,200 are explosive storage magazines. The Western Area Demilitarization Facility

(WADF), perhaps the most versatile conventional ammunition demilitarization facility ever constructed, was built at Hawthorne between 1974 and 1982 at a cost of $80 million. The 160 acre complex consists of nine production buildings and six support buildings with the capability to perform various remotely operated ammunition breakdown operations followed by meltout or washout/ steamout explosive removal operations. Deactivation and decontamination operations are conducted in either the RF-9 rotary kiln furnace, a refractory lined flashing furnace, or a hot gas decontamination chamber for large items.

RENO GAZETTE-JOURNAL

Hawthorne residents begin waiting game

Ammunition depot's fate yet to be decided

By Sean M. Grady
SPECIAL TO THE FALLON STAR PRESS
5/19/2005 03:21 pm

This *should* be a great time for Hawthorne.

After all, this weekend marks the Mineral County seat's annual Armed Forces Day celebration, complete with a flyover and a parade, as well as an appearance by a replica of the Vietnam Veterans Memorial.

The town also will raise a 30-by-60-foot American flag on a 115-foot pole, both of which its citizens helped pay for and erect.

Yet there will be a small, sour note to this year's festivities in "America's Patriotic Heart," as the town calls itself. The feature most responsible for its patriotism, the 75-year-old Hawthorne Army Depot, is in jeopardy of closing.

"People are talking about it in the streets," said Larry Mortensen, a former depot employee and founding director of the Hawthorne Ordnance Museum, earlier this week.

For now, the only thing anyone knows for sure is that the depot is on the Defense Department's most recent list of military facilities that Pentagon officials believe have outlasted their usefulness.

"As I understand it, they're looking 20 years out," said Lt. Col. John Summers, the depot's commanding officer.

"Since about half of our inventory is devoted to demilitarization of obsolete ammunition, then 20 years from now they may not need all the space."

However, losing the depot means losing its value as a high-altitude pre-deployment training area for U.S. Navy special warfare and Marine Corps units, particularly those heading to the Middle East.

Released May 13, the list names the depot as the only Nevada base that would be closed, though the Nevada Air National Guard's Reno station would see its eight C-130H airplanes and 147 support jobs transferred out of state, severely curtailing that base's mission.

The next step in the process will be a thorough review of the list by the Base Realignment and Closure Commission, or BRAC, a presidential panel that will send a final list of recommendations to President Bush by early September.

In the meantime, Mineral County residents and the state's congressional delegation will be fighting to retain the depot, which has been part of Hawthorne since 1930.

That was the year, according to the Hawthorne Ordnance Museum's Web site, that the U.S. Navy opened a Naval Ammunition Depot in the town.

Initially a storage site, the depot expanded to include ammunition manufacturing during World War II, then saw its mission shifted to demilitarization work, weapons loading and testing, and similar projects.

The Defense Department placed the depot, as well as others in the nation, under U.S. Army jurisdiction in 1977, and three years later a private firm, now known as the Day and Zimmermann Hawthorne Corp., took over the facility's day-to-day operations, under Army supervision.

These days, the depot stores bombs and artillery ammunition in more than 1,600 bunkers, and it operates a cutting-edge ammunition disposal and recycling facility that was upgraded less than three years ago.

Through the decades, though, the base has been a source of patriotic pride as well as jobs to Hawthorne's civilian population, roughly 500 of whom work on the base today.

"The base and Hawthorne are almost synonymous, as far as the people here are concerned," Mortensen said.

And the base's importance to the area extends beyond the county line, having conducted joint ammunition clean-up operations with the Fallon Naval Air Station.

"NAS Fallon will still need a place to process range residue, demilitarize it and sell it as scrap metal," said Zip Upham, the Fallon base's public affairs officer. "Whether that can be done at other Army depot facilities is up in the air at this point and will have to be investigated."

The community will have to wait until the BRAC finishes its work to find out whether the depot will remain. Summers was scheduled to hold a town meeting last night to address the community's concerns over the potential closure.

There is a possible factor in the depot's favor —it falls within the purview of three members of the Nevada congressional delegation, including Senator Harry Reid, the minority leader of the Senate who also serves on the Senate Appropriations Committee; Senator John Ensign, who serves on the Senate Armed Services Committee; and Congressman Jim Gibbons, who serves on the House Armed Services Committee and formed the Nevada Military Advocacy Commission last year to lobby in favor of the state's military bases.

All three issued statements last week expressing disappointment with the Hawthorne base closure and the Reno air guard realignment, as well as their resolve to protect both facilities.

"We have a lot of reading and homework to do, research into the thought process that went into those decisions," said Jack Finn, a spokesman for Senator John Ensign.

In a statement he made the day the closure list came out, Senator Harry Reid supported some of the Pentagon's other recommendations, which would name Fallon Naval Air Station as a Fleet Readiness Center and would increase the number of military and civilian personnel at Nellis Air Force Base.

"However," his statement continued, "the decision to recommend closing Hawthorne Army Depot and to realign the Reno Air Guard National Guard Station is troubling.

"Congress and the Department of Defense have spent tens of millions of dollars in recent years building a premier weapons demilitarization capability at Hawthorne Army Depot. It plays a unique role in our country's national security."

The statement closes: "Neither decision appears to be consistent with our national security objectives."

Nevada Town Clings to Targeted Army Depot

By MARTIN GRIFFITH, Associated Press WriterSat May 28, 7:26 PM ET

For more than 50 years, this struggling desert town that proudly calls itself "America's Patriotic Home" has held what's billed as the nation's biggest Armed Forces Day parade. Some 3,500 people turned out earlier this month for the celebration, complete with water fights, a watermelon eating contest, dunk tanks and horseshoe pitching.

But the pride masked fears: The Pentagon wants to close the nearby Army Ammunition Depot, which accounts for nearly half of all jobs in the remote Nevada town of 3,800, about 130 miles south of Reno.

"This base is the heart and soul of town. It's going to kill the town if they do away with it," home-maintenance business owner Larry Grant, 43, said as tanks, torpedoes, rockets and missiles paraded past.

"It would basically turn this place into a ghost town," said Operation Desert Storm veteran John Stroud, 47.

To the surprise of residents and Nevada's congressional delegation, the depot was included this month on the Defense Department's Base Realignment and Closure list, commonly known as BRAC. A nine-member commission can change the list before it is submitted to the White House and Congress this fall.

Many residents attending the Armed Forces Day festivities sported T-shirts reading "No BRAC — No Ghost Town — NO WAY!!"

"If you don't have people living here, there's no one to buy," said Dean Shellenbarger, 40, a supermarket clerk. "Sooner or later you just have a huge hole in the ground."

"I wonder if we'll even have a school left," said sixth-grade teacher Christy Grant, 41.

Although it sits on sagebrush-covered desert more than 200 miles from the ocean, the 147,230-acre depot opened as a Naval Undersea facility for submarine munitions in 1930. It features more than 2,400 bunkers that hold bombs, mortar shells and other munitions, and has shipped explosives for conflicts from World War II to the war in Iraq.

Today, Hawthorne seems frozen in its heyday era of World War II, a pit stop town of motels, gas stations and fast-food places framed by miles of bunkers. Travelers passing through on U.S. Highway 95, which doubles as the town's main drag, are greeted by a huge American flag flying from a 150-foot pole.

But the Pentagon says moving the depot's storage and recycling functions to the Tooele Army Depot in Utah would cut duplication and save money.

Supporters of the Hawthorne depot say the BRAC recommendation grossly underestimates the facility's economic impact on the town and neglects cleanup costs that would total more than $400 million. They also say it fails to take into account the facility's superior ability to store and ship ammunition, and to decontaminate and recycle military explosives for use by the mining and construction industries.

"All we want is a fair shake and the true numbers presented," Stroud said.

The depot commander, Lt. Col. Johnny Summers, warns that Congress upheld 85 percent of recommendations in earlier rounds of base closures.

"It's not good odds, but we're cautiously optimistic," Summers said.

A local committee is mounting a letter-writing campaign to newspapers and politicians, starting a Web site, sending delegates to cities that successfully fought closure recommendations and applying pressure on the state's congressional delegation.

The depot's 534 workers are nearly half of the town's 1,200-member work force, and the depot also accounts for many indirect support jobs in the community. The town's second biggest employer is the El Capitan casino.

Hawthorne has been hanging by frayed economic threads for years because of the drought-threatened fishery in scenic but shrinking Walker Lake, mine closures and layoffs at the depot. At its zenith, it employed more than 5,600 people, and more than 2,000 military personnel were stationed here.

Shelley Hartmann, executive director of the Mineral County Economic Development Authority, said Hawthorne "is not going to become a ghost town."

"With that said, we realize we face some challenges, perhaps even some hard times," she said. "It is frustrating for a small town with limited resources to deal with such a blow."

Larry Mortensen, 78, a depot supervisor for 43 years until he retired in 1991, is prepared for the worst.

"I'm not very optimistic because once the Army gets something in mind they go stupidly forward," Mortensen said.

Service occupations	264,572	248,886	280,258
Sales and office occupations	274,127	258,958	289,296
Farming, fishing, and forestry occupations	4,992	3,147	6,837
Construction, extraction, and maintenance occupations	127,770	117,342	138,198
Production, transportation, and material moving occupations	94,680	85,205	104,155
INDUSTRY			
Agriculture, forestry, fishing and hunting, and mining	20,866	9,975	31,757
Construction	110,940	101,484	120,396
Manufacturing	49,608	42,187	57,029
Wholesale trade	26,807	21,228	32,386
Retail trade	110,816	101,970	119,662
Transportation and warehousing, and utilities	49,588	42,431	56,745
Information	23,003	17,869	28,137
Finance, insurance, real estate, and rental and leasing	70,422	60,780	80,064
Professional, scientific, management, administrative, and waste management services	109,673	98,170	121,176
Educational, health, and social services	135,104	125,302	144,906
Arts, entertainment, recreation, accommodation, and food services	252,165	238,764	265,566
Other services (except public administration)	35,482	30,736	40,228
Public administration	48,721	42,748	54,694
CLASS OF WORKER			
Private wage and salary workers	849,650	828,649	870,651
Government workers	133,049	122,359	143,739
Self-employed workers in own not incorporated business	59,235	51,099	67,371

Unpaid family workers	1,261	486	2,036
INCOME AND BENEFITS (IN 2003 INFLATION-ADJUSTED DOLLARS)			
Total households	833,679	823,555	843,803
Less than $10,000	58,652	52,172	65,132
$10,000 to $14,999	48,616	42,384	54,848
$15,000 to $24,999	101,328	92,768	109,888
$25,000 to $34,999	111,003	101,846	120,160
$35,000 to $49,999	138,366	128,101	148,631
$50,000 to $74,999	164,121	153,995	174,247
$75,000 to $99,999	99,088	90,307	107,869
$100,000 to $149,999	78,678	70,374	86,982
$150,000 to $199,999	18,347	14,449	22,245
$200,000 or more	15,480	12,753	18,207
Median household income (dollars)	45,395	43,901	46,889
Mean household income (dollars)	58,307	56,366	60,248
With earnings	685,497	672,972	698,022
Mean earnings (dollars)	58,623	56,668	60,578
With Social Security	199,373	190,660	208,086
Mean Social Security income (dollars)	12,961	12,608	13,315
With retirement income	137,852	130,589	145,115
Mean retirement income (dollars)	17,908	16,785	19,031
With Supplemental Security Income	26,301	21,775	30,827
Mean Supplemental Security Income (dollars)	6,505	5,778	7,232
With cash public assistance income	16,266	12,777	19,755
Mean cash public assistance income (dollars)	2,732	1,834	3,629
With Food Stamp benefits in the past 12 months	29,991	24,425	35,557
Families	537,581	524,881	550,281
Less than $10,000	28,176	23,322	33,030
$10,000 to $14,999	14,560	11,899	17,221
$15,000 to $24,999	52,083	45,689	58,477
$25,000 to $34,999	68,582	61,719	75,445
$35,000 to $49,999	90,264	80,428	100,100
$50,000 to $74,999	115,503	107,700	123,306
$75,000 to $99,999	76,933	69,353	84,513
$100,000 to $149,999	63,674	56,846	70,502
$150,000 to $199,999	14,760	11,663	17,857
$200,000 or more	13,046	10,481	15,611
Median family income (dollars)	52,502	50,672	54,332
Mean family income (dollars)	65,788	63,554	68,021
Per capita income (dollars)	22,830	22,184	23,476
Nonfamily households	296,098	284,292	307,904
Median nonfamily income (dollars)	29,539	27,830	31,248
Mean nonfamily income (dollars)	41,836	38,995	44,677
Median earnings (dollars):	26,852	26,365	27,339
Male full-time, year-round workers	37,366	35,353	39,379
Female full-time, year-round workers	30,373	29,875	30,871
NUMBER BELOW POVERTY IN THE PAST 12 MONTHS			
Families	46,839	40,584	53,094
With related children under 18 years	35,306	29,462	41,150
With related children under 5 years only	8,248	5,817	10,679
Families with female householder, no husband	19,779	14,911	24,647
With related children under 18 years	18,638	13,793	23,483

With related children under 5 years only	3,810	1,676	5,944
Individuals	252,479	227,742	277,216
18 years and over	166,564	151,804	181,324
65 years and over	19,659	14,726	24,592
Related children under 18 years	83,813	70,088	97,538
Related children 5 to 17 years	54,044	43,476	64,612
Unrelated individuals 15 years and over	80,484	72,670	88,298
PERCENT BELOW POVERTY IN THE PAST 12 MONTHS			
Individuals	11.5	10.4	12.6
18 years and over	10.2	9.3	11.1
65 years and over	8.0	6.0	10.0
Related children under 18 years	14.9	12.5	17.3
Related children under 5 years	18.5	15.1	22.0
Related children 5 to 17 years	13.4	10.8	16.0
Unrelated individuals 15 years and over	18.0	16.4	19.7

TABLE 4. PROFILE OF SELECTED HOUSING CHARACTERISTICS

	Estimate	Lower Bound	Upper Bound
Total housing units	935,934	*****	*****
UNITS IN STRUCTURE			
1-unit, detached	519,977	503,422	536,532
1-unit, attached	39,086	33,946	44,226
2 units	19,103	14,240	23,966
3 or 4 units	85,803	75,554	96,052
5 to 9 units	87,292	78,652	95,932
10 to 19 units	43,145	37,199	49,091
20 or more units	64,426	57,787	71,065
Mobile home	73,521	59,553	87,489
Boat, RV, van, etc.	3,581	1,215	5,947
YEAR STRUCTURE BUILT			
2000 or later	80,319	73,204	87,434
1995 to 1999	181,054	167,525	194,583
1990 to 1994	149,817	138,933	160,701
1980 to 1989	195,162	185,079	205,245
1970 to 1979	170,994	160,779	181,209
1960 to 1969	78,295	69,634	86,956
1950 to 1959	46,577	40,312	52,842
1940 to 1949	20,011	12,431	27,591
1939 or earlier	13,705	8,543	18,867
ROOMS			
1 room	24,421	19,855	28,987
2 rooms	47,011	41,204	52,818
3 rooms	101,966	93,887	110,045
4 rooms	175,493	163,894	187,092
5 rooms	212,166	199,986	224,346
6 rooms	185,497	174,694	196,300
7 rooms	91,650	83,702	99,598
8 rooms	55,169	49,409	60,929
9 rooms or more	42,561	36,461	48,661
Median (rooms)	5.1	4.9	5.3
Occupied housing units	833,679	823,555	843,803
YEAR HOUSEHOLDER MOVED INTO UNIT			
2000 or later	408,325	397,880	418,770
1995 to 1999	221,988	210,995	232,981
1990 to 1994	93,408	86,133	100,683
1980 to 1989	64,940	58,129	71,751
1970 to 1979	27,586	23,911	31,261

1969 or earlier	17,432	13,363	21,501
VEHICLES AVAILABLE			
No vehicles available	61,747	54,027	69,467
1	307,487	294,600	320,374
2	323,954	309,794	338,114
3 or more	140,491	130,989	149,993
HOUSE HEATING FUEL			
Utility gas	481,913	461,007	502,819
Bottled, tank, or LP gas	43,050	24,400	61,700
Electricity	278,163	265,784	290,542
Fuel oil, kerosene, etc.	13,939	10,897	16,981
Coal or coke	0	0	502
Wood	10,966	9,018	12,914
Solar energy	339	0	730
Other fuel	2,899	1,860	3,938
No fuel used	2,410	915	3,905
SELECTED CHARACTERISTICS			
Lacking complete plumbing facilities	2,325	861	3,789
Lacking complete kitchen facilities	2,549	1,313	3,785
No telephone service available	46,479	31,207	61,751
OCCUPANTS PER ROOM			
1.00 or less	791,364	780,425	802,303
1.01 to 1.50	27,402	22,124	32,680
1.51 or more	14,913	11,845	17,981
Specified owner-occupied units	433,417	417,831	449,003
VALUE			
Less than $50,000	6,252	2,182	10,322
$50,000 to $99,999	34,111	25,782	42,440
$100,000 to $149,999	118,748	107,569	129,927
$150,000 to $199,999	116,502	108,418	124,586
$200,000 to $299,999	88,187	76,170	100,204
$300,000 to $499,999	52,422	43,809	61,035
$500,000 to $999,999	13,856	10,283	17,429
$1,000,000 or more	3,339	1,543	5,135
Median (dollars)	170,333	163,295	177,371
MORTGAGE STATUS AND SELECTED MONTHLY OWNER COSTS			
Housing units with a mortgage	341,806	327,480	356,132
Less than $300	1,708	605	2,811
$300 to $499	4,635	2,477	6,793
$500 to $699	13,994	10,900	17,088
$700 to $999	56,282	50,809	61,755
$1,000 to $1,499	150,245	139,208	161,282
$1,500 to $1,999	70,890	62,519	79,261
$2,000 or more	44,052	38,400	49,704
Median (dollars)	1,279	1,244	1,314
Housing units without a mortgage	91,611	84,744	98,478
Less than $100	997	189	1,805
$100 to $199	9,548	6,657	12,439
$200 to $299	26,603	23,226	29,980
$300 to $399	25,075	20,848	29,302
$400 or more	29,388	24,716	34,060
Median (dollars)	332	318	346
SELECTED MONTHLY OWNER COSTS AS A PERCENTAGE OF HOUSEHOLD INCOME			
Housing unit with a mortgage	341,806	327,480	356,132
Less than 20 percent	117,558	109,005	126,111

20.0 to 24.9 percent	53,187	47,148	59,226
25.0 to 29.9 percent	42,367	36,309	48,425
30.0 to 34.9 percent	33,848	28,372	39,324
35.0 percent or more	90,874	81,304	100,444
Not computed	3,972	2,056	5,888
Housing unit without a mortgage	91,611	84,744	98,478
Less than 10 percent	44,632	39,704	49,560
10.0 to 14.9 percent	16,775	13,524	20,026
15.0 to 19.9 percent	7,299	5,564	9,034
20.0 to 24.9 percent	4,731	2,596	6,866
25.0 to 29.9 percent	5,342	3,643	7,041
30.0 to 34.9 percent	2,207	1,193	3,221
35.0 percent or more	9,734	6,846	12,622
Not computed	891	337	1,445
Specified renter-occupied units	316,557	303,775	329,339
GROSS RENT			
Less than $200	4,155	2,609	5,701
$200 to $299	4,811	3,111	6,511
$300 to $499	29,712	23,923	35,501
$500 to $749	103,690	94,771	112,609
$750 to $999	101,475	91,924	111,026
$1,000 to $1,499	53,627	45,556	61,698
$1,500 or more	8,860	6,183	11,537
No cash rent	10,227	6,139	14,315
Median (dollars)	771	753	789
GROSS RENT AS A PERCENTAGE OF HOUSEHOLD INCOME			
Less than 15 percent	39,100	32,557	45,643
15.0 to 19.9 percent	42,577	35,844	49,310
20.0 to 24.9 percent	43,111	37,349	48,873
25.0 to 29.9 percent	36,301	30,701	41,901
30.0 to 34.9 percent	26,901	21,493	32,309
35.0 percent or more	113,480	103,972	122,988
Not computed	15,087	11,124	19,050

The 2003 American Community Survey universe is limited to the household population and excludes the population living in institutions, college dormitories, and other group quarters. Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate is represented through the use of a confidence interval. The confidence interval computed here is a 90 percent confidence interval and can be interpreted roughly as providing 90 percent certainty that the true number falls between the lower and upper bounds.
(Note: Table 1,2,3,4)

The number of householders does not necessarily equal the number of households because of differences in the weighting schemes for the population and occupied housing units.
(Note: Table 1,3)

Ancestry listed in this table refers to the total number of reports; for example, the estimate given for Russian represents the number of people who listed Russian as either their first or second ancestry. This table lists only the largest ancestry groups; see the Detailed Tables for more categories. Race and Hispanic origin groups are not included in this table because official data for those groups come from the Race and Hispanic origin questions rather than the ancestry question (see Table 1).
(Note: Table 2)

Employment and unemployment estimates may vary from the official labor force data released by the Bureau of Labor Statistics because of differences in survey design and data collection.
(Note: Table 3)

Occupation codes are 4-digit codes, but are still based on Standard Occupational Classification 2000.
(Note: Table 3)

Industry codes are 4 digit codes and are based on the North American Industry Classification System 2002. However, the Industry categories adhere to the guidelines issued in Clarification Memorandum No. 2, "NAICS Alternate Aggregation Structure for Use By U. S. Statistical Agencies," issued by the Office of Management and Budget. (Note: Table 3)

1. *An '*' entry in the lower and upper bound columns indicates that too few sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.*
2. *An '**' entry in the lower and upper bound columns indicates that no sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.*
3. *An '-' entry in the estimate column indicates that no sample observations were available to compute an estimate.*
4. *An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.*
5. *An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.*
6. *An '***' entry in the lower and upper bound columns indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.*
7. *An '*****' entry in the lower and upper bound columns indicates that the estimate is controlled. A statistical test is not appropriate.*
8. *An 'N' entry in the estimate, lower bound, and upper bound columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.*

12. Shawano, WI and Menominee, WI are combined as Shawano (incl. Menominee), WI for the years prior to 1989.
13. Broomfield County, CO, was created from parts of Adams, Boulder, Jefferson, and Weld counties effective November 15, 2001. Estimates for Broomfield county be

Lawton, OK (30020)

Lawton is one of 361 Metropolitan Statistical Areas (MSAs) in the nation. Its 2003 population of 110,298 ranked 313th in the nation.

PER CAPITA PERSONAL INCOME

In 2003 Lawton had a per capita personal income (PCPI) of $25,545. This PCPI ranked 262nd in the United States and was 81 percent of the national average, $31,472. The 2003 PCPI reflected an increase of 6.7 percent from 2002. The 2002-2003 national change was 2.2 percent. In 1993 the PCPI of Lawton was $16,463 and ranked 326th in the United States. The 1993-2003 average annual growth rate of PCPI was 4.5 percent. The average annual growth rate for the nation was 4.0 percent.

TOTAL PERSONAL INCOME

In 2003 Lawton had a total personal income (TPI) of $2,817,591. This TPI ranked 314th in the United States. In 1993 the TPI of Lawton was $1,958,186 and ranked 292nd in the United States. The 2003 TPI reflected an increase of 5.3 percent from 2002. The 2002-2003 national change was 3.2 percent. The 1993-2003 average annual growth rate of TPI was 3.7 percent. The average annual growth rate for the nation was 5.1 percent.

COMPONENTS OF TOTAL PERSONAL INCOME

Total personal income includes net earnings by place of residence; dividends, interest, and rent; and personal current transfer receipts received by the residents of Lawton. In 2003 net earnings accounted for 70.1 percent of TPI (compared with 74.4 in 1993); dividends, interest, and rent were 13.4 percent (compared with 12.8 in 1993); and personal current transfer receipts were 16.5 percent (compared with 12.7 in 1993). From 2002 to 2003 net earnings increased 7.6 percent; dividends, interest, and rent decreased 4.0 percent; and personal current transfer receipts increased 4.2 percent. From 1993 to 2003 net earnings increased on average 3.1 percent each year; dividends, interest, and rent increased on average 4.1 percent; and personal current transfer receipts increased on average 6.4 percent.

EARNINGS BY PLACE OF WORK

Earnings of persons employed in Lawton increased from $2,111,718 in 2002 to $2,271,580 in 2003, an increase of 7.6 percent. The 2002-2003 national change was 4.1 percent. The average annual growth rate from the 1993 estimate of $1,686,824 to the 2003 estimate was 3.0 percent. The average annual growth rate for the nation was 5.3 percent.

Note: All income estimates with the exception of PCPI are in thousands of dollars, not adjusted for inflation.

The population of Oklahoma in 2003 was 3,506,469. Its rank was 28th in the nation. (The District of Columbia is included for ranking purposes.)

PER CAPITA PERSONAL INCOME

In 2003 Oklahoma had a per capita personal income (PCPI) of $26,719. This PCPI ranked 40th in the United States and was 85 percent of the national average, $31,472. The 2003 PCPI reflected an increase of 2.9 percent from 2002. The 2002-2003 national change was 2.2 percent. In 1993 the PCPI of Oklahoma was $17,814 and ranked 40th in the United States. The 1993-2003 average annual growth rate of PCPI was 4.1 percent. The average annual growth rate for the nation was 4.0 percent.

TOTAL PERSONAL INCOME

In 2003 Oklahoma had a total personal income (TPI) of $93,690,912. This TPI ranked 29th in the United States. In 1993 the TPI of Oklahoma was $57,937,442 and ranked 29th in the United States. The 2003 TPI reflected an increase of 3.5 percent from 2002. The 2002-2003 national change was 3.2 percent. The 1993-2003 average annual growth rate of TPI was 4.9 percent. The average annual growth rate for the nation was 5.1 percent.

COMPONENTS OF TOTAL PERSONAL INCOME

Total personal income includes net earnings by place of residence; dividends, interest, and rent; and personal current transfer receipts received by the residents of Oklahoma. In 2003 net earnings accounted for 67.2 percent of TPI (compared with 67.4 in 1993); dividends, interest, and rent were 16.0 percent (compared with 16.9 in 1993); and personal current transfer receipts were 16.9 percent (compared with 15.7 in 1993). From 2002 to 2003 net earnings increased 4.7 percent; dividends, interest, and rent decreased 2.1 percent; and personal current transfer receipts increased 4.4 percent. From 1993 to 2003 net earnings increased on average 4.9 percent each year; dividends, interest, and rent increased on average 4.4 percent; and personal current transfer receipts increased on average 5.7 percent.

EARNINGS BY PLACE OF WORK

Earnings of persons employed in Oklahoma increased from $66,114,908 in 2002 to $69,143,910 in 2003, an increase of 4.6 percent. The 2002-2003 national change was 4.1 percent. The average annual growth rate from the 1993 estimate of $43,125,312 to the 2003 estimate was 4.8 percent. The average annual growth rate for the nation was 5.3 percent.

Note: All income estimates with the exception of PCPI are in thousands of dollars, not adjusted for inflation.

Limestone Defense Finance and Accounting Service - Closure

DoD Recommendation

Close Defense Finance and Accounting Service (DFAS) site at Limestone, ME. Relocate and consolidate business, corporate and administrative functions to the Defense Supply Center-Columbus, OH, the Buckley Air Force Base Annex, Denver CO, or the MG Emmett J. Bean Federal Center, Indianapolis, IN.

DoD Justification

- This action accomplishes a major facilities reduction and business line mission realignment, transforming the current DFAS organization into an optimum facilities configuration, which includes strategic redundancy to minimize risk associated with man-made or natural disasters/challenges. The current number of business line operating locations (26) inhibits the ability of DFAS to reduce unnecessary redundancy and leverage benefits from economies of scale and synergistic efficiencies. Overall excess facility capacity includes approximately 43 percent or 1,776,000 Gross Square Feet (GSF) in administrative space and 69 percent or 526,000 GSF in warehouse space with many locations lacking adequate threat protection as defined in DoD AT/FP Standards. Finally, the three locations have potential to evolve into separate Business Line Centers of Excellence and further enhance "unit cost" reductions beyond the BRAC facilities/personnel savings aspect.

Cost Considertions Devloped by DoD

• One-Time Costs:	$282.1 M
• Net Savings (Cost) during Implementation:	$158.1 M
• Annual Recurring Savings:	$120.5 M
• Expected Payback:	0 years
• Net Present Value over 20 Years:	$1,313.8 M

Limestone Defense Finance and Accounting Service - Closure

Manpower Implications for DFAS Limestone - Closure

The table below shows the number of positions to be reduced at Limestone DFAS at a lower number than is currently at this site—241 positions versus 354 (excluding 10 contractors). This is because when conducting their analysis the OSD BRAC office used DFAS's programmed personnel changes through 2011. Due to program reductions regardless of BRAC, DFAS has planned to reduce their overall workforce due to increased efficiencies from information technology and common system improvements.

Table 1: Limestone Manpower

	Out	
	Military	Civilian
Current on Board (April 2005)	1	353
Program Reductions thru 2011	1	112
Positions Available for BRAC Consideration		241*

*The Commission rule is to visit those sites that will have a loss of 300 or more positions.

ECONOMIC IMPACT

Limestone, ME

- Potential Employment Loss: 390 jobs
- (241 direct and 149 indirect)
- MSA Job Base: 41,134 jobs
- Percentage for this action -0.9 %
- Percentage for actions in MSA -0.9%

Aroostook, Maine (23003)

Aroostook is one of 16 counties in Maine. It is not part of a Metropolitan Area. Its 2003 population of 73,260 ranked 6th in the state.

PER CAPITA PERSONAL INCOME

In 2003 Aroostook had a per capita personal income (PCPI) of $24,742. This PCPI ranked 10th in the state and was 85 percent of the state average, $29,164, and 79 percent of the national average, $31,472. The 2003 PCPI reflected an increase of 4.2 percent from 2002. The 2002-2003 state change was 3.5 percent and the national change was 2.2 percent. In 1993 the PCPI of Aroostook was $15,155 and ranked 14th in the state. The 1993-2003 average annual growth rate of PCPI was 5.0 percent. The average annual growth rate for the state was 4.6 percent and for the nation was 4.0 percent.

TOTAL PERSONAL INCOME

In 2003 Aroostook had a total personal income (TPI) of $1,812,612. This TPI ranked 6th in the state and accounted for 4.7 percent of the state total. In 1993 the TPI of Aroostook was $1,295,178 and ranked 6th in the state. The 2003 TPI reflected an increase of 4.4 percent from 2002. The 2002-2003 state change was 4.4 percent and the national change was 3.2 percent. The 1993-2003 average annual growth rate of TPI was 3.4 percent. The average annual growth rate for the state was 5.1 percent and for the nation was 5.1 percent.

COMPONENTS OF TOTAL PERSONAL INCOME

Total personal income includes net earnings by place of residence; dividends, interest, and rent; and personal current transfer receipts received by the residents of Aroostook. In 2003 net earnings accounted for 58.6 percent of TPI (compared with 64.2 in 1993); dividends, interest, and rent were 13.9 percent (compared with 12.5 in 1993); and personal current transfer receipts were 27.5 percent (compared with 23.4 in 1993). From 2002 to 2003 net earnings increased 3.8 percent; dividends, interest, and rent decreased 0.9 percent; and personal current transfer receipts increased 8.7 percent. From 1993 to 2003 net earnings increased on average 2.5 percent each year; dividends, interest, and rent increased on average 4.6 percent; and personal current transfer receipts increased on average 5.1 percent.

EARNINGS BY PLACE OF WORK

Earnings of persons employed in Aroostook increased from $1,149,301 in 2002 to $1,193,787 in 2003, an increase of 3.9 percent. The 2002-2003 state change was 4.6 percent and the national change was 4.1 percent. The average annual growth rate from the 1993 estimate of $935,901 to the 2003 estimate was 2.5 percent. The average annual growth rate for the state was 4.8 percent and for the nation was 5.3 percent.

Note: All income estimates with the exception of PCPI are in thousands of dollars, not adjusted for inflation.

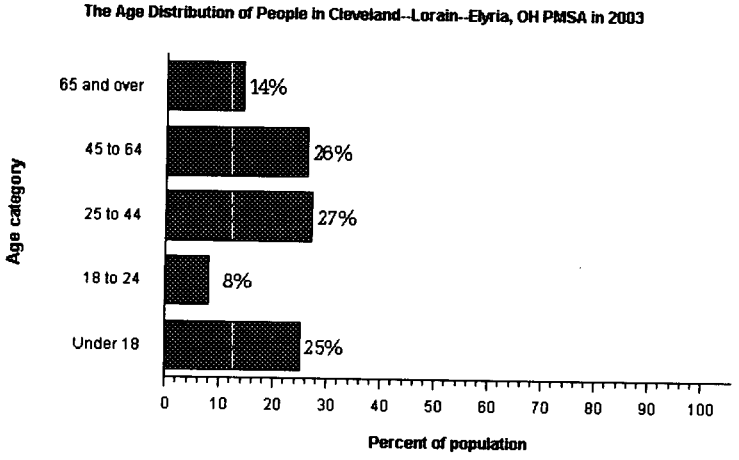
Population and Housing Profile: Cleveland--Lorain--Elyria, OH PMSA

POPULATION OF Cleveland--Lorain--Elyria, OH PMSA: In 2003, Cleveland--Lorain--Elyria, OH PMSA had a household population of 2.2 million - 1.1 million (52 percent) females and 1.1 million (48 percent) males. The median age was 38.5 years. Twenty-five percent of the population were under 18 years and 14 percent were 65 years and older.



Source: American Community Survey, 2003

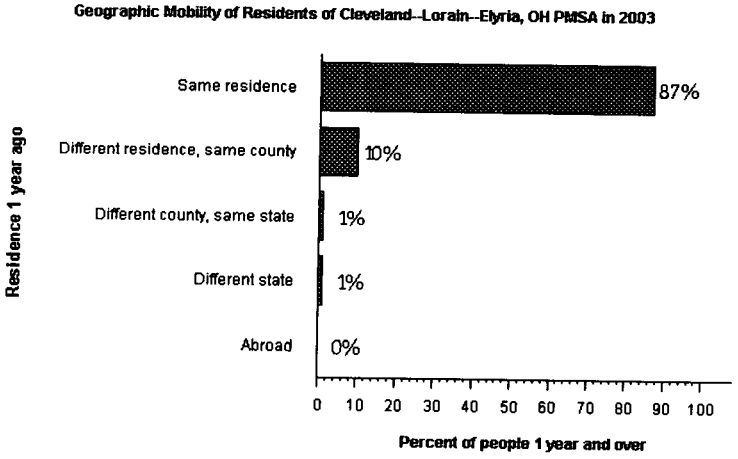
For people reporting one race alone, 78 percent were White; 19 percent were Black or African American; less than 0.5 percent were American Indian and Alaska Native; 1 percent were Asian; less than 0.5 percent were Native Hawaiian and Other Pacific Islander, and 1 percent were Some other race. One percent reported Two or more races. Four percent of the people in Cleveland--Lorain--Elyria, OH PMSA were Hispanic. Seventy-five percent of the people in Cleveland--Lorain--Elyria, OH PMSA were White non-Hispanic. People of Hispanic origin may be of any race.

HOUSEHOLDS AND FAMILIES: In 2003 there were 893,000 households in Cleveland--Lorain--Elyria, OH PMSA. The average household size was 2.46 people.

Families made up 65 percent of the households in Cleveland--Lorain--Elyria, OH PMSA. This figure includes both married-couple families (47 percent) and other families (18 percent). Nonfamily households made up 35 percent of all households in Cleveland--Lorain--Elyria, OH PMSA. Most of the nonfamily households were people living alone, but some were comprised of people living in households in which no one was related to the householder.

NATIVITY AND LANGUAGE: Five percent of the people living in Cleveland--Lorain--Elyria, OH PMSA in 2003 were foreign born. Ninety-five percent were native, including 78 percent who were born in their state of residence.

Among people at least five years old living in Cleveland--Lorain--Elyria, OH PMSA in 2003, 9 percent spoke a language other than English at home. Of those speaking a language other than English at home, 30 percent spoke Spanish and 70 percent spoke some other language; 38 percent reported that they did not speak English "very well."

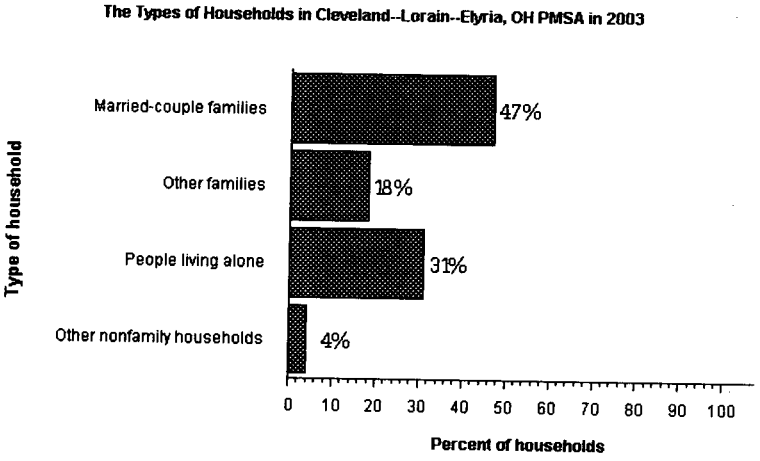


GEOGRAPHIC MOBILITY: In 2003, 87 percent of the people at least one year old living in Cleveland--Lorain--Elyria, OH PMSA were living in the same residence one year earlier; 10 percent had moved during the past year from another residence in the same county, 1 percent from another county in the same state, 1 percent from another state, and less than 0.5 percent from abroad.

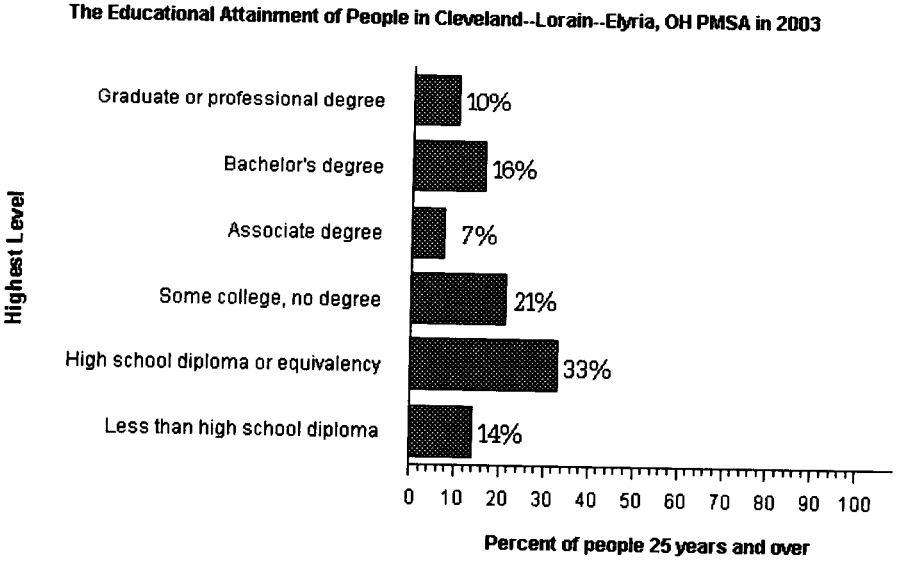
Source: American Community Survey, 2003

EDUCATION: In 2003, 86 percent of people 25 years and over had at least graduated from high school and 26 percent had a bachelor's degree or higher. Among people 16 to 19 years old, 9 percent were dropouts; they were not enrolled in school and had not graduated from high school.

The total school enrollment in Cleveland--Lorain--Elyria, OH PMSA was 570,000 in 2003. Preprimary school enrollment was 63,000 and elementary or high school enrollment was 387,000 children. College enrollment was 120,000.



Source: American Community Survey, 2003



Source: American Community Survey, 2003

DISABILITY: In Cleveland--Lorain--Elyria, OH PMSA, among people at least five years old in 2003, 15 percent reported a disability. The likelihood of having a disability varied by age - from 7 percent of people 5 to 20 years old, to 12 percent of people 21 to 64 years old, and to 38 percent of those 65 and older.

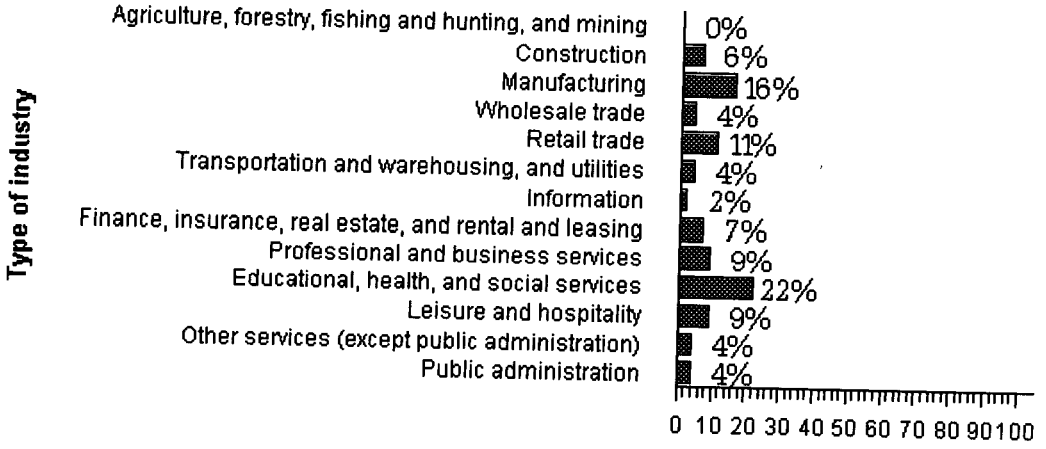
INDUSTRIES: In 2003, for the employed population 16 years and older, the leading industries in Cleveland--Lorain--Elyria, OH PMSA were Educational, health, and social services, 22 percent, and Manufacturing, 16 percent.

OCCUPATIONS AND TYPE OF EMPLOYER: Among the most common occupations were: Management, professional, and related occupations, 34 percent; Sales and office occupations, 27 percent; Service occupations, 16 percent; Production, transportation, and material moving occupations, 15 percent; and Construction, extraction, and maintenance occupations, 8 percent. Eighty-three percent of the people employed were Private wage and salary workers; 13 percent were Federal, state, or local government workers; and 4 percent were Self-employed.

TRAVEL TO WORK: Eighty-four percent of Cleveland--Lorain--Elyria, OH PMSA workers drove to work alone in 2003, 6 percent carpooled, 4 percent took public transportation, and 2 percent used other means. The remaining 3 percent worked at home. Among those who commuted to work, it took them on average 23 minutes to get to work.

INCOME: The median income of households in Cleveland--Lorain--Elyria, OH PMSA was $42,012. Seventy-eight percent of the households received earnings and 19 percent received retirement income other than Social Security. Twenty-eight percent of the households received Social Security. The average income from Social Security was $12,860. These income sources are not mutually exclusive; that is, some households received income from more than one source.

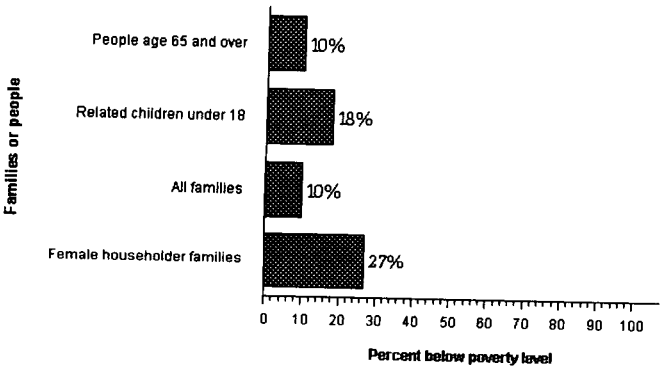
Employment by Industry in Cleveland--Lorain--Elyria, OH PMSA in 2003



Source: American Community Survey, 2003
Note: The Professional and business services category includes the following industries: Professional, scientific,management,administrative, and waste management services. The Leisure and hospitality category includes the following industries: Arts, entertainment, recreation, accommodation, and food services

POVERTY AND PARTICIPATION IN GOVERNMENT PROGRAMS: In 2003, 12 percent of people were in poverty. Eighteen percent of related children under 18 were below the poverty level, compared with 10 percent of people 65 years old and over. Ten percent of all families and 27 percent of families with a female householder and no husband present had incomes below the poverty level.

Poverty Rates in Cleveland--Lorain--Elyria, OH PMSA in 2003

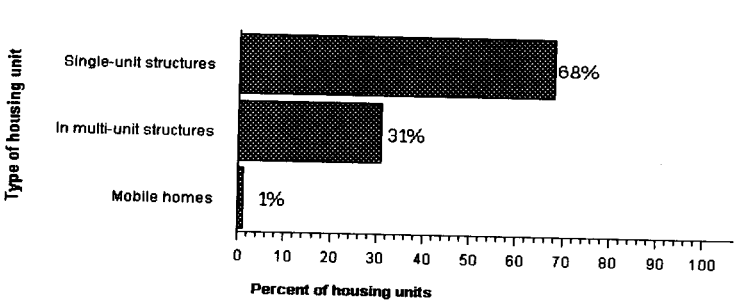


Source: American Community Survey, 2003

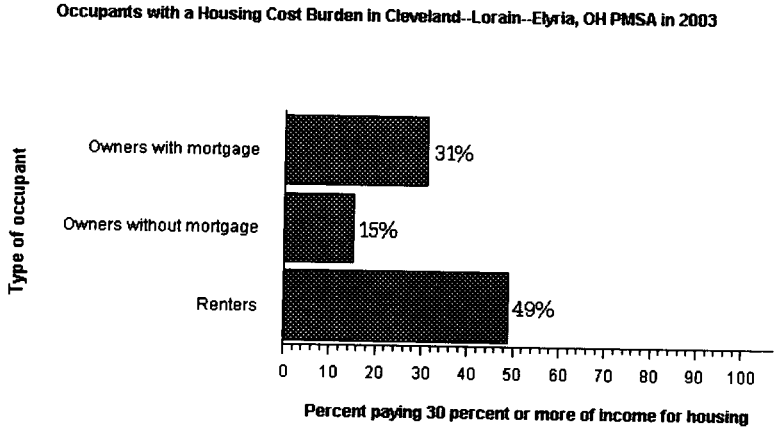
HOUSING CHARACTERISTICS: In 2003, Cleveland--Lorain--Elyria, OH PMSA had a total of 970,000 housing units, 7.9 percent of which were vacant. Of the total housing units, 68 percent were in single-unit structures, 31 percent were in multi-unit structures, and 1 percent were mobile homes. Eleven percent of the housing units were built since 1990.

OCCUPIED HOUSING UNIT CHARACTERISTICS: In 2003, Cleveland--Lorain--Elyria, OH PMSA had 893,000 occupied housing units - 604,000 (68 percent) owner occupied and 289,000 (32 percent) renter occupied. Three percent of the households did not have telephone service and 10 percent of the households did not have access to a car, truck, or van for private use. Multi-vehicle households were not rare. Thirty-seven percent had two vehicles and another 17 percent had three or more.

The Types of Housing Units in Cleveland--Lorain--Elyria, OH PMSA in 2003



Source: American Community Survey, 2003



HOUSING COSTS: The median monthly housing costs for (specified) mortgaged owners was $1,183, (specified) nonmortgaged owners $394, and (specified) renters $629. Thirty-one percent of owners with mortgages, 15 percent of owners without mortgages, and 49 percent of renters in Cleveland--Lorain--Elyria, OH PMSA spent 30 percent or more of household income on housing.

Source: American Community Survey, 2003

NOTES: The population estimates in this profile are limited to the household population and exclude the population living in institutions, college dormitories, and other group quarters.

In the narrative profile below, if one sample estimate is larger than another, it does not necessarily mean that the same holds for their true values for the entire population. These estimates are derived from a sample of housing units and measure the true values with a degree of uncertainty. In the tabular profiles this uncertainty is represented by the 90 percent confidence interval given for each estimate. For further information on confidence intervals see the Accuracy of the Data document.

Caution should be used when comparing data by race for years before 1999 with those for 2000 and beyond due to the Census Bureau's implementation of the October 1997 revised standards for data on race and ethnicity. These data allow respondents to report one or more races and there are seven (American Indian and Alaska Native, Asian, Black or African American, Native Hawaiian and Other Pacific Islander, White, Some other race, and Two or more races) instead of five racial tabulation categories. The Two or more races category includes all respondents who reported more than one race. See the methodology section for more details regarding these changes.

In addition, caution should be used when comparing population numbers by age, race, and sex for 2000 with all earlier years. The numbers for 2000 have been weighted to be generally consistent with Census 2000 counts.

Detail may not add to totals due to rounding. Percentages are based on unrounded numbers

Candidate Recommendation # DON-0033R

Candidate Recommendation: Close Naval Submarine Base (SUBASE) New London, CT. Relocate its assigned submarines, ARDM-4, and NR-1 along with their dedicated personnel, equipment and support to SUBASE Kings Bay, GA and Naval Station (NAVSTA) Norfolk, VA. Relocate the intermediate submarine repair function to Ship Intermediate Repair Activity Norfolk, VA, Naval Shipyard Norfolk, VA, and Trident Refit Facility Kings Bay, GA. Relocate the Naval Submarine School and Center for Submarine Learning to SUBASE Kings Bay. Relocate Naval Security Group Activity (NSGA) Groton, CT to NAVSTA Norfolk and consolidate with NSGA Norfolk at NAVSTA Norfolk. Relocate Commander Naval Submarine Group Two to NAVSTA Norfolk, VA. Consolidate Naval Submarine Medical Research Laboratory (NSMRL) Groton, CT, with Naval Medical Research Center (NMRC) at Walter Reed Army Medical Center Forest Glenn Annex, MD. Relocate Naval Undersea Medical Institute (NUMI) Groton, CT to Naval Air Station (NAS) Pensacola, FL and Fort Sam Houston, TX. Consolidate COMNAVREG Northeast, New London, CT with COMNAVREG, Mid-Atlantic, Norfolk, VA.

Justification: The berthing capacity at SUBASE New London is excess to the capacity required to support the Force Structure Plan. Sufficient capacity and fleet dispersal is maintained with the East Coast submarine fleet homeports of NAVSTA Norfolk and SUBASE Kings Bay. This closure will result in a capacity reduction of 16.25 Cruiser Equivalents (CGE) and the relocation of submarines at SUBASE New London to bases with a higher military value. This closure, combined with other closures in the Surface-Subsurface Operations function, results in the maximum reduction of excess capacity while increasing the average military value of the remaining bases in this functional area. The intermediate submarine repair function is relocated to SIMA Norfolk, Norfolk Naval Shipyard, and the Trident Refit Facility Kings Bay in support of the relocating submarines. Consolidating the NSMRL with assets at the Walter Reed Army Medical Center Forest Glenn Annex will create a DOD Center of Hyperbaric and Undersea Medicine that will increase synergy by consolidating previously separate animal and human research capabilities at a single location. The consolidation of COMNAVREG Northeast, New London, CT with COMNAVREG, Mid-Atlantic, Norfolk, VA, is in concert with Department of Navy efforts to reduce the number of Installation Management (IM) Regions from ten to six. Sufficient IM capability for CONUS resides within the remaining Regions. Consolidation of the Regions rationalizes regional management structure and allows for opportunities to collocate regional entities to align management concepts and efficiencies.

Payback: The total estimated one-time cost to the Department of Defense to implement this recommendation is $679.64 million. The net of all costs and savings during the implementation period is a cost of $345.44 million. Annual recurring savings to the Department after implementation are $192.77 million with a payback expected in three

years. The net present value of the costs and savings to the Department over 20 years is a savings of $1.58 billion.

Impacts:

Economic Impact on Communities: Assuming no economic recovery, this recommendation could result in a maximum potential reduction of 15,818 jobs (8,461 direct jobs and 7,357 indirect jobs) over the 2006-2011 period in the Norwich-New London, Connecticut Metropolitan Statistical Area, which is 9.38 percent of economic area employment.

Community Infrastructure: A review of community attributes indicates there are no issues regarding the ability of the infrastructure of the community to support missions, forces, and personnel.

Environmental Impact:

A review of environmental resource areas indicates there are no substantial environmental impacts occasioned by this recommendation. NAVSTA Norfolk is in Maintenance for 1-Hour Ozone and Marginal Non-attainment for Ozone 8-hour. An Air Conformity determination may be required. NAVSTA Norfolk reports additional impacts for Dredging, Marine Mammals, TES and Water Resources. There are no anticipated impacts to the resource areas of Cultural Resources, Land Use, Noise, Waste Management or Wetlands.

SUBASE Kings Bay is in attainment. The installation reports impacts for Dredging, Marine Mammals, TES and Water Resources. There are no anticipated impacts to the resource areas of Air Quality, Cultural Resources, Land Use, Noise, Waste Management or Wetlands.

NAS Pensacola is in attainment. It notes impacts to Cultural Resources, Waste Management and Wetlands. There are no impacts to the resource areas of Dredging, Land Use, Marine Mammals, Noise, TES, and Water Resources.

Walter Reed Medical Center-Forrest Glen Annex is in Severe Non-attainment for 1-Hour and 8-Hour Ozone and an Air Conformity determination will be required. Additional impacts to Land Use and Wetlands are noted. There are no impacts to the resource areas of Cultural Resources, Dredging, Marine Mammals, Noise, TES, Waste Management and Water Resources.

Ft Sam Houston is in attainment. Impacts to Cultural Resources, TES and Water Resources are noted. There are no impacts to the resource areas of Air Quality, Dredging, Marine Mammals, Noise and Waste Management.

Overall, there are no known environmental impediments to implementation of this recommendation.

This recommendation indicates impacts of costs at all the installations involved. The closing installation, SUBASE New London, reports costs of approximately $1 thousand for HAZMAT Procurement/HAZWASTE disposal, unidentified costs for closure of Treatment, Storage and Disposal Facilities and Controlled Industrial Facility and removal of existing HAZMAT (product in tanks, storage containers, fuel in abandoned pipelines, etc). NAVSTA Norfolk indicates impacts of costs to prevent disruption to the POTW requiring unidentified additional labor and disposal costs, increased waste disposal costs, $15 thousand for a dredging permit, $93 thousand for an environmental assessment for dredging, and $20 thousand for an Air Conformity determination for Sea Wolf projects. SUBASE Kings Bay indicates $8.2 million for Water, Sanitary/Wastewater and Oily Waste System Upgrades, $2 million for a Cumulative Environmental Assessment, $75 thousand for Hazardous Waste Response Satellite Sites and $375 thousand for updating environmental plans: Spill Prevention, Control and Countermeasure, Facility Response Plan, Hazardous Waste Management Plan, Integrated Natural Resources Management Plan, and Industrial Waste Water Management Plan. NAS Pensacola reports $5 thousand for HAZWASTE disposal, $30 thousand to modify the Title V Air permit and $150K for NEPA documentation (EA). Walter Reed indicates costs of $25 thousand to $75 thousand for Air Conformity, $100 to $500 thousand for new source review and permitting, $100 thousand for NEPA documentation (EA) and various Cultural/Tribal Resource costs from $500 to $40 thousand for site assessments. Ft Sam Houston indicates costs of $10 thousand for a programmatic agreement, $500 to $2 thousand for Tribal consults, $20 thousand to $2 million for TES management and $100 thousand for NEPA documentation (EA). These costs were included in the payback calculation. SUBASE New London reports $23.9M in environmental restoration costs. Because the Department has a legal obligation to perform environmental restoration regardless of whether an installation is closed, realigned, or remains open, this cost is not included in the payback calculation. This recommendation does not otherwise impact the costs of environmental restoration, waste management, or environmental compliance activities.

SECDEF/CJCS

Xx

SECNAV/CNO

1. Do you think this list should suffice through 2014?
2. What are the most important changes in ship and aircraft design and capability that you see on the horizon that would impact Navy depots?
3. Describe the Navy in terms of the number of carriers, destroyers, and submarines that you used to identify the number of shipyards, naval stations, etc. that we need.
4. On a percentage basis, how much of a sustained increase in workload can our shipyards and NADEPS, given the changes that are proposed, accept during a surge period without hiring additional skilled personnel? Do you envision any program to enable industrial facilities to bring on skilled personnel with minimal delay, and if so describe what you have in mind in terms of size and mechanism?
5. On a percentage basis, how much of a sustained increase in workload can our shipyards and NADEPS, given the changes that are proposed, accept during a surge period without procuring additional equipment? Do you plan to move any major equipment from closing industrial facilities to those that are staying open?
6. During BRAC 1995 the Navy proposed certain actions, but when it came to carrying them out, changes were made. For example, Naval Aviation Technical Services Facility, an ASO (now NAVICP, Philadelphia) tenant was scheduled to be moved to NADEP North Island, where it was to become a department within the command. Instead, it was set up with a separate commanding officer and command structure. Do the best of your knowledge, does the Navy plan and expect to implement the changes as described to this BRAC Commission?
7. What were the non-environmental total costs for BRACs 1993 and 1995, as envisioned at the time and what were the actual costs? Given what you know now, are there moves that you would not have recommended. What lessons learned are there from the COBRA cost estimations and what has been done to get more accurate estimates this time?
8. Were environmental remediation costs about what was expected? Are there any Navy or USMC bases that you will not recommend for closure because of environmental costs? Is there any indication that with time costs may be mitigated either through technological improvement or simply through the effects of time? If so, is the argument that the Navy has to pay the bill eventually still valid?
9. Some changes, like the closure of NAVICP Philadelphia (ASO to the old-timers) were proposed during BRAC 95, but this facility, which was not closed, is not on the list this time. Is this an acknowledgement that the Commission was right in its 1995 decisions or is it an anticipation that the Commission would likely again decline to close the base, or what?
10. Were there opportunities to "purple-ize" functions that did not materialize? What functions would it have benefited the Navy to take such action? Would Navy

have seriously considered allowing other Services to become the DOD "center of excellence" for additional functions?

11. Explain how the Navy defined capacity for laboratories and technical facilities. Is capacity a useful measure for such activities?
12. Would the Navy consider renting space to other Government agencies on bases where it has sufficient capacity if it were permitted to do so?
13. If a company had three warehouses – one each in LA, Dallas, and Atlanta, and it decided to close one, it would probably choose the Dallas facility. But, if asked to close a second it would be in a predicament. However, if it initially decided to close two, it would probably keep the one in Dallas. Has the Navy gotten itself in similar conundrums by this gradual downsizing as we have gone through four BRACs and are now undertaking a fifth one?
14. Do you perceive that the Navy has been unduly hampered in its quest to reduce the number of Navy and USMC Reserve Centers by state and local issues.
15. Which, if any, of your proposed closures have legitimate economic impact issues?
16. Recently there has been renewed interest in agility and quick response. Are we at a disadvantage in places like Seattle and Bremerton where there are long "sea and anchor" details before ships reach the open seas. Does Oakland look more attractive as a homeport than it did ten years ago?
17. SSBN submarines have had two crews almost from "the beginning." Please describe to us current initiatives that keep some of the Navy capability forward-positioned and explain how that plays out vis-à-vis homeporting, naval stations, and naval air stations.

Navy Base Specific Questions:

1. The economic impact section does not provide a breakdown between military and civilian job losses. Are the numbers just civilian? How can we check the consistency of these numbers vis-à-vis Appendix C?

2. 1. China Lake #1: The discussion of Fleet Readiness Centers indicates that 70 K DLH will go to NAS Lemoore. Do any employees move and, if so, how many are military and how many are civilian?

3. China Lake #2: The proposal that involves the creation of an Integrate Weapons & Armaments Research, Development & Acquisition, Test & Evaluation (RDA, T&E) does not match up well when you compare the recommendation to the economic impact. Please refer to the following chart, which describes moves personnel moves to the indicated facilities. Is the chart correct? Is Seal Beach in Santa Anal-Anaheim-Irvine? Does the 2,250 job loss include both Point Mugu and Port Hueneme? For each of the nine moves, please indicate the military/civilian breakdown. Why does this proposal include Weapons and Armaments RD&A and T&E workload moving from Yorktown to Indian Head – I thought you were attempting to consolidate at China Lake? Why are FCTC Port Hueneme Detachment, San Diego assets being moved to Dahlgren and then to China Lake?? Where is FCTC Port Hueneme Detachment, San Diego? If it is at Port Hueneme, why does the chart show jobs leaving San Diego? Is the 155 job gain from Dahgren to China Lake also reflect the move from FCTC to Dahlgren or is it to China Lake?

Recommendation Per Page Tech-15	Economic Impact on Communities (Per Page Tech-16)	Economic Impact # of direct jobs transferred (Per Page Tech-16)
NSWC Crane	Martin County, IN	258
NSWC Indian Head	Lexington Park, MD	258
NAS Patuxent River	Washington-Arlington-Alexandria	52
Naval Base Ventura County Point Mugu	Oxnard-Thousand Oaks-Ventura	2,250
NWS Seal Beach	Santa Ana-Anaheim-Irvine	45
NSWC Yorktown	Virginia Beach-Norfolk-Newport News	61
Naval Base Ventura County Port Hueneme	Oxnard-Thousand Oaks-Ventura	
FCTC, Port Hueneme Sam Diego	San Diego-Carlsbad-San Marcos	47
NSWC Dahlgren	King George County	155

4. China Lake #4, to create a n Integrated Weapons & Armaments Specialty Site for Guns and Ammunition includes relocating gun and ammunition RDA to Picatinny Arsenal. The economic impact section does not mention China Lake – is this Bakersfield?

5. The recommendation to collocate Extramural Research Program Managers proposes moving a variety of commands, including ONR to National Navla Medical Center, Bethesda, MD. Was any consideration given to the unused land, currently controlled by GSA adjoining the Washington Navy Yard? Please provide a COBRA for such a move.

6. The recommendation for closure Engineering Field Division/Activity said to close NAVFAC Engineering Field Activity Northeast in Lester and relocate it both to Norfolk Naval Shipyard and NAVFACLANT at Naval Station Norfolk. This is the only part of the recommendation that references the metropolitan Philadelphia area. However, the Economic impact section of the recommendation notes 247 direct jobs lost in Philadelphia, but Appendix C lists 1 military and 54 civilians. Which is correct? Furthermore, the same Recommendation refers to both NAVFAC Engineering Field Activity Northeast and to Navy Crane Center., Lester, PA. Are these the same activity or two different activities. If they are different, is Navy Crane Center part of NSWC Crane, or what? The economic impact section of the recommendation mentions job losses in Charleston and Philadelphia, but does not mention job losses in Jacksonville, FL and Great Lakes, IL. Do both of these two moves take all the employees or are there some RIFs? It is not clear what the job gains are in Norfolk and Jacksonville. Also, it is not clear whether the fourth of these consolidations is taking place at Norfolk Naval Shipyard, Naval Station Norfolk, or NAVFACLANT in Norfolk.

7. The recommendation to move Naval Supply Corps School, Athens, GA proposes moving it to Newport, RI. It would seems that collocating it with a school(s) that offers Class "C" (advanced) courses of study to senior enlisted personnel in supply ratings might offer some efficiencies, besides the same types of efficiencies available at a school such as the Naval War College. Alternatively, locating NSCS in Norfolk would enable numerous opportunities for contact with different types of ships, the Fleet Industrial Support Center, the Supply Center, and Fleet Type Commanders before students even report to their first operational assignment. Also, locating in the Tidewater area would eliminate the need for about several hundred PCS orders each year. Was any consideration given to either of these alternatives? If so, please discuss. Please provide a COBRA for both such moves. Also, Appendix C shows 393 military departing and four coming in, in addition to the 108 civilians. However, the recommendation 1) does not mention the four people coming in and 2) it shows 513 direct job losses, which does not equal 393 + 108 or 397 + 108.

8. The recommendation to "Consolidate C4ISR RD&A, T&E has about nine parts. Please provide the detailed number of people (military and civil service) associated with each gain and loss, for each of the nine parts of the recommendation.

9. Why is there no attempt to merge and form a "purple "C4SIR organization. Was a COBRA done? If so, please provide that and a discussion. If not, please discuss with Navy and Joint teams and perform COBRAs consolidating most functions at 1) NWAC China Lake and 2) Egland AFB. Which population center does Dahlgren fall under – Washington-Arlington-Alexandria?

10. In the recommendation to "Create a Naval Integrated Weapons & Armaments RD&A, T&E Center," shows the loss of 52 direct jobs in Washington-Arlington-Alexandria, DC-VA-MD-WV. Is this the same area that was elsewhere described without mentioning Maryland or West Virginia? Is it not true that there will also be job losses in Maryland, which is about five miles from Dahlgren? Is 52 the net impact? Please provide details on both the gains and losses and indicate where it is likely that employees, who had been supporting the work moved to China Lake, can immediately start working on the work coming from Port Hueneme.

11.

Installation Overview

For more information on this subject:
http://www.subasenlon.navy.mil

In 1868, Connecticut gave the Navy land and, in 1872, two brick buildings and a "T" shaped pier were built and officially declared a Navy Yard. Today the Naval Submarine Base New London (SUBASE NLON), located on the east side of Thames River in Groton, CT, proudly claims its motto to be "The First and Finest." All submariners in today's Navy will be stationed here for training and perhaps a tour onboard a fast attack submarine or with a pre-commissioning crew while their new submarine is under construction. SUBASE NLON is home to more than 40 tenant commands including the submarines and crews of Submarine Group TWO, the faculty and students of the Submarine School, and the Naval Submarine Support Facility (NSSF).

The base occupies approximately 500 acres and has over 400 buildings. A walking tour of the base is outlined in a booklet available from the Navy Family Service Center.

The base is easily accessible from Interstate 95 and is within an hour's drive from two major airports. See MUST KNOW ITEMS for directions from airports, bus, and train stations.

SUBASE NLON's mission is: "To support fleet readiness by providing quality services and faciliies to the submarine community and their families."

Name: NAVAL SUBMARINE BASE NEW LONDON COMMANDING OFFICER
POC: Captain H.A. Lincoln
Address: NAVSUBASE NLON
City: Groton, CT 06349
Phone: (860) 694-3400
FAX: (860) 694-2653

Must Know Items

For more information on this subject:
http://www.subasenlon.navy.mil

DIRECTIONS:

The SUBASE is easily accessible from I-95 and is within an hour's drive from the major airports: Bradley International Airport in Hartford, CT and T.F. Green Airport, Providence, RI.

BY AIR:

GROTON/NEW LONDON AIRPORT, GROTON, CT

Upon leaving the airport grounds, turn right on Tower Ave. and drive approximately 1 mile to a stop light and US 1. Take a left on Rte. 1 and proceed north for approximately 5 miles. (US 1 will change to HWY 12 - stay on HWY 12.) A large sign for SUBASE NLON is on the left side of HWY 12. Take a left at the stop light and on to Crystal Lake Rd. Proceed to the main gate at the end of the road.

Proximity to SITE..... : about 5 miles

T.F. GREEN AIRPORT, PROVIDENCE, RI

Follow signs from the airport to I-95 south to CT approximately 53 miles. Take exit 86 - turn right onto Route 12. Drive approximately 2 miles - at the fifth stop light, turn left on Crystal Lake Rd. Follow this road to the end and to the main gate.

Proximity to SITE..... : about 54 miles.

BRADLEY INTERNATIONAL, HARTFORD, CT

Starting at Bradley International Airport driving toward Hartford, CT, begin on US 75 for .8 miles. Turn left on I-20 heading southeast. Take I-91 south into Hartford for approximately 10 miles to Exit 32 (I-84). (I-84 Eastbound is a left hand exit. USE CAUTION!) Proceed on I-84E to Rte. 2 south to I-395. Take I-395 south to Exit 78 (Rte. 32). Follow Rte 32 south into New London and I-95. Take I-95 north across the Gold Star Bridge to exit 86 (a left lane exit). At the bottom of the ramp, turn right on US 12 and proceed north approximately 2 miles to Crystal Lake Rd. (From exit ramp, Crystal Lake Rd. is at the fifth stop light.) Take a left on Crystal Lake Rd. and drive to the end of the road - main gate on right.

Proximity to SITE..... : about 66 miles

BY CAR: POINTS NORTH (IF DRIVING FROM, ME, MA, NH, VT)

Follow I-95 south to CT. Take Exit 86 - at the bottom of ramp - right onto US 12 and proceed north

approximately 2 miles to Crystal Lake Rd. (From exit ramp, Crystal Lake Rd. is at the fifth stop light.) Take a left on Crystal Lake Rd. and drive to the end of the road - main gate on right.

POINTS SOUTH (IF DRIVING FROM, NY, NJ, MD, VA, ETC.)

Take I-95 north into CT. Take Exit 86 - at the bottom of ramp - right onto US 12 and proceed north approximately 2 miles to Crystal Lake Rd. (From exit ramp, Crystal Lake Rd. is at the fifth stop light.) Take a left on Crystal Lake Rd. and drive to the end of the road - main gate on right.

ARRIVAL AND CHECK-IN PROCEDURES:

Each command has its own procedures for checking in. Your sponsor should let you know where to go to officially report to your command.

... SUBSCOL students and staff report in at the quarterdeck in Bldg 518

... SUBASE and tenant command personnel check in at PSD in Building 83 during normal working hours, or have your orders stamped by the Bachelors Officers' Quarters or Enlisted Bachelors' Quarters desk after normal working hours and report to PSD at 7:00 a.m. on the next working day.

... Sailors reporting to deployed units should report to the appropriate squadron duty office, as do people assigned to squadron staffs.

... Those assigned to the staff of Commander Submarine Group TWO report to Building 439.

... Naval Ambulatory Care Center (NACC) personnel check in at NACC.

IMPORTANT DOCUMENTS TO HAND CARRY.

Service record, Medical and Dental records, PCS orders, and copies of Exceptional Family Member (EFM) records, if applicable.

Geographically Separated or Satellite Locations

None

Nearby Installations (Listed Separately in SITES)

RI Newport Naval Education Training Center (SITES 4180)

The Naval Education Training Center in Newport, RI is the nearest separately listed SITES installation. It is approximately one and a half hours away from SUBASE NLON. Travel to Newport requires traveling one toll bridge. Traffic is often heavy during rush hour and in the summer tourist season. This extends the travel time by one half hour or more.

Nearby Installations (Listed Separately in SITES)

State/Country	*Site Name*	*Service*	*Distance*
Rhode Island	Naval Station Newport	USN	1 1/2 hours

Regulations

TRAFFIC

Traffic on SUBASE NLON is mild to light even during peak hours. Speed limits on base are 15 to 25 MPH as posted and are monitored by radar. Parking regulations are strictly enforced due to the shortage of parking on base. If it becomes necessary to tow your vehicle, it will be done at owner's expense and risk. During snow conditions, some parking lots and spaces are secured to promote the most effective snow removal procedures. These are posted and further information can be provided by the Public Works Department. Damages and charges incurred during towing will rest solely with the owner.

SEAT BELTS ARE MANDATORY ON BASE! Child safety seats are required for all children under the age of 4 and less than forty pounds. Children 4 or older who weigh 40 pounds and more, must have an approved child restraint system.

VEHICLE CHECKS

Random checks are conducted at each of the gates on a daily basis. The checks are made once per shift or as deemed necessary. These checks include physical checks by police and by military working dogs.

ACCIDENTS

All auto accidents should be reported to SUBASE Police at 694-3777. If an ambulance is required, call 694-3333.

CRIMINAL OFFENSES

Housing residents are under the jurisdiction of the Town of Groton. There are neighborhood watch programs in both Southeastern Connecticut & Rhode Island. For more information on military housing areas, call (860)694-4423.

PHOTOGRAPHY

You are welcome to photograph the many beautiful sites and historical buildings on Upper Base.

PASS AND ID

The Pass and ID office issues identification badges to civilian employees and contractors. Vehicle passes are issued through the Pass Office, Bldg. 500 located at the Main Gate.

MILITARY ID's

Military ID's are issued through PSD in Bldg. 83.

DRIVING ON SUBASE: Passes and Decals

If you are operating a privately owned vehicle (POV), you must stop at the Vehicle Pass Office prior to entering the base. Temporary vehicle passes and base decals are issued through the the Vehicle Pass Office. The following items are needed to register your vehicle with the base:

1) Your vehicle must be registered in your name or your spouse's name. Decals and passes are mandatory! Any vehicle caught on base without authorization will be towed at the owner's expense.

2) You must produce a valid insurance card.

3) You must have a valid operator's permit from the state your vehicle is registered in or from the State of CT.

4) You must have a valid military ID.

5) If your vehicle is ten years old or older, it must pass a safety and emissions inspection that meets CT's requirements. deals and passes are mandatory!
6) All vehicles are required to have the minimum of liability insurance.

MOTORCYCLES

In order to operate a motorcycle on base, you must complete a DOD Motorcycle Safety course. Check with SUBASE Security before bringing a motorcycle on base.

CONNECTICUT VEHICLE REGISTRATION AND DRIVER'S LICENSE

SUBASE_NEW_LONDON_CT, CT

Demographics

The following tables provide a short description of the area near the installation/activity. SUBASE_NEW_LONDON_CT is 50.7 miles from Hartford, CT, the nearest city with a population of 100,000 or more. The nearest metropolitan statistical area (MSA) is

MSA	Population
New London-Norwich, CT NECMA	259,088

The following entities comprise the military housing area (MHA):

County/City	Population
New London	259088
Windham	109091
Total	368,179

Child Care

This attribute captures the number of nationally accredited child-care centers within the local community: 31

Cost of Living

Cost of Living provides a relative measure of cost of living in the local community. General Schedule (GS) Locality pay provides a relative scale to compare local salaries with government salaries and Basic Allowance for Housing (BAH) is an indicator of the local rental market. In-state tuition is an indicator of the support provided by the state for active duty family members to participate in higher-level education opportunities. For median household income and house value, the basis of the data (either MSA or number of counties in the MHA or the county of the installation) is indicated.

Median Household Income	(US Avg $41,994)	$50,646	Basis: MSA
Median House Value	(US Avg $119,600)	$142,200	
GS Locality Pay	("Rest of US" 10.9%)	17.9%	
O-3 with Dependents BAH Rate		$1,624	
In-state Tuition for Family Member		Yes	
In-state Tuition Continues if Member PCSs Out of State		Yes	

Education

This attribute defines the population in local school districts and identifies capacity. The pupil/teacher ratio, graduation rate, and composite SAT I/ACT scores provide a relative

quality indicator of education. This attribute also attempts to give communities credit for the potential intellectual capital they provide.

NOTE: "MFR"--means a Memorandum For Record is on file at the installation/activity/agency to document problems in obtaining the required information. Reasons for not being able to obtain information may be that the school district refused to provide the information or the school district does not use or track the information. For each entry, the number of school districts for which data are available of the total number of school districts reported, and the number of MFRs is indicated.

		Basis
School District(s) Capacity	40,881	17 of 18 districts, 1 MFR
Students Enrolled	37,545	18 of 18 districts
Average Pupil/Teacher Ratio	13.3:1	18 of 18 districts
High School Students Enrolled	12,052	12 of 12 districts
Average High School Graduation Rate (US Avg 67.3%)	90.1%	12 of 12 districts
Average Composite SAT I Score (US Avg 1026)	1002	12 of 12 districts
Average ACT Score (US Avg 20.8)		0 of 12 districts, 12 MFRs
Available Graduate/PhD Programs	7	
Available Colleges and/or Universities	8	
Available Vocational and/or Technical Schools	1	

Employment

Unemployment and job growth rates provide an indicator of job availability in the local community. National rates from the Bureau of Labor Statistics are also provided. For each entry, the basis of the data (either MSA or number of counties in the MHA or the county of the installation) is indicated.

The unemployment rates for the last five years:

	1999	2000	2001	2002	2003
Local Data	3.3%	2.3%	2.8%	3.7%	4.8%
National	4.2%	4.0%	4.7%	5.8%	6.0%
Basis:	MSA	MSA	MSA	MSA	MSA

The annual job growth rate for the last five-years:

	1999	2000	2001	2002	2003
Local Data	1.8%	2.5%	- .2%	2.7%	1.5%

National	1.5%	2.4%	.03%	-.31%	.86%
Basis:	MSA	MSA	MSA	MSA	MSA

Housing

This attribute provides an indication of availability of housing, both sales and rental, in the local community. Note: According to the 2000 Census, Vacant Sale and Vacant Rental Units do not equal total Vacant Housing Units. Vacant housing units may also include units that are vacant but not on the market for sale or rent. For each entry, the basis of the data (either MSA or number of counties in the MHA or the county of the installation) is indicated.

Total Vacant Housing Units	10,839	Basis: MSA
Vacant Sale Units	1,085	
Vacant Rental Units	2,328	

Medical Providers

This attribute provides an indicator of availability of medical care for military and DoD civilians in the local community. The table reflects the raw number of physicians/beds and ratio of physicians/beds to population. The basis of the data (either MSA or number of counties in the MHA or the county of the installation) is indicated.

	# Physicians	# Beds	Population	
Local Community	543	433	259,088	Basis: MSA
Ratio	1:477	1:598		
National Ratio (2003)	1:421.2	1:373.7		

Safety/Crime

The local community's Uniform Crime Reports (UCR) Index for 2002 per 100,000 people and the national UCR based on information from the Federal Bureau of Investigation (FBI) for 2002 is provided. The basis of the data (either MSA or state) is indicated.

Local UCR	2,997.2	Basis: state
National UCR	4,118.8	

Transportation

Distance to an airport shows convenience and availability of airline transportation. Public transportation shows potential for members and DoD civilians to use it to commute to/from work under normal circumstances and for leisure.

Distance from SUBASE_NEW_LONDON_CT to nearest commercial airport: 4.7 miles
Is SUBASE_NEW_LONDON_CT served by regularly scheduled public transportation? Yes

Utilities

This attribute identifies a local community's water and sewer systems' ability to receive 1,000 additional people.

Does the local community's water system have the ability to meet an expanded need of an additional 1,000 people moving in the local community? Yes

Does the local community's sewer system have the ability to meet an expanded need of an additional 1,000 people moving in the local community? Yes

Subject: BRAC calendar

I have set up two calendars in Outlook. The first is the master BRAC calendar, which will show all in house meetings, as well as regional hearings and the base visit schedule. In addition, I have set up a r&a schedule. This will help keep track of the r&a travel, and availability for meetings here at the office.

There are only a few people who have editing rights, so please funnel your meeting requests and travel to the following people:
R&A = Nat
Admin = Marcy

Here is how to get those calendars.
1. Go to calendar in Outlook
2.Go to File and then Open
3. Choose "other users folder"
4. type in BRAC (and make sure the drop down below, says calendar)
5. Select the file called BRAC calendar.
6. repeat this, but the second time, type in r&a and this will pull up the r&a calendar.

If you have any questions, please let me know.

30.0 to 34.9 percent	1,062	315	1,809
35.0 percent or more	15,415	11,699	19,131
Not computed	5,871	3,492	8,250

The 2003 American Community Survey universe is limited to the household population and excludes the population living in institutions, college dormitories, and other group quarters. Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate is represented through the use of a confidence interval. The confidence interval computed here is a 90 percent confidence interval and can be interpreted roughly as providing 90 percent certainty that the true number falls between the lower and upper bounds.
(Note: Table 1,2,3,4)

The number of householders does not necessarily equal the number of households because of differences in the weighting schemes for the population and occupied housing units.
(Note: Table 1,3)

Ancestry listed in this table refers to the total number of reports; for example, the estimate given for Russian represents the number of people who listed Russian as either their first or second ancestry. This table lists only the largest ancestry groups; see the Detailed Tables for more categories. Race and Hispanic origin groups are not included in this table because official data for those groups come from the Race and Hispanic origin questions rather than the ancestry question (see Table 1).
(Note: Table 2)

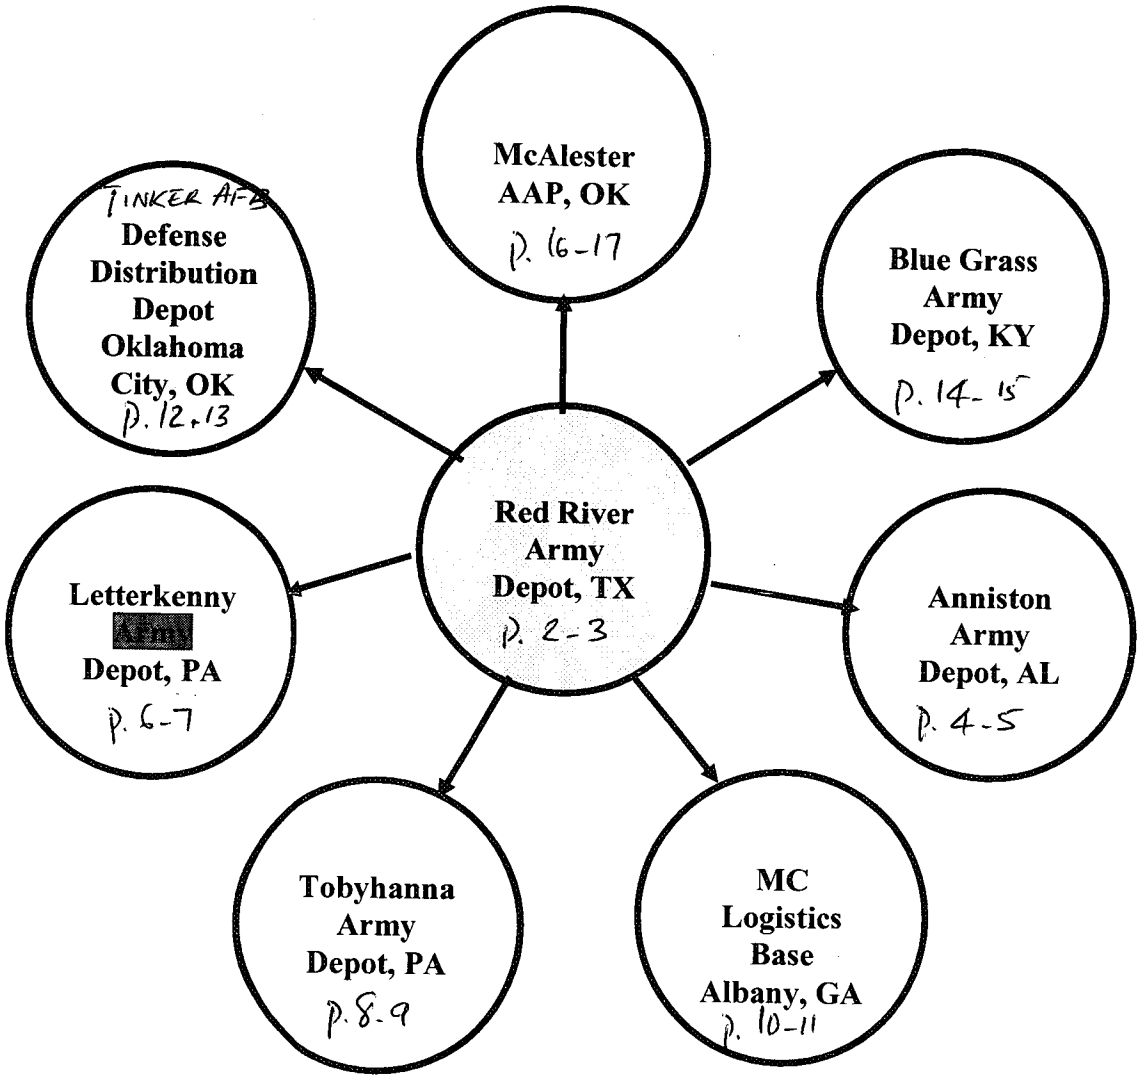
Employment and unemployment estimates may vary from the official labor force data released by the Bureau of Labor Statistics because of differences in survey design and data collection.
(Note: Table 3)

Occupation codes are 4-digit codes, but are still based on Standard Occupational Classification 2000.
(Note: Table 3)

Industry codes are 4 digit codes and are based on the North American Industry Classification System 2002. However, the Industry categories adhere to the guidelines issued in Clarification Memorandum No. 2, "NAICS Alternate Aggregation Structure for Use By U. S. Statistical Agencies," issued by the Office of Management and Budget.
(Note: Table 3)

1. *An '*' entry in the lower and upper bound columns indicates that too few sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.*
2. *An '**' entry in the lower and upper bound columns indicates that no sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.*
3. *An '-' entry in the estimate column indicates that no sample observations were available to compute an estimate.*
4. *An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.*
5. *An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.*
6. *An '***' entry in the lower and upper bound columns indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.*
7. *An '*****' entry in the lower and upper bound columns indicates that the estimate is controlled. A statistical test is not appropriate.*
8. *An 'N' entry in the estimate, lower bound, and upper bound columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.*

RED RIVER ARMY DEPOT, TX



Candidate #USA-0036

Candidate Recommendation: Close Red River Army Depot. Munitions to McAlester & Blue Grass; depot maintenance to Anniston, Albany, Tobyhanna, and Letterkenney. Disestablish the wholesale supply, storage, and distribution of packaged POL, tires, and compressed gas. Storage and distribution functions and associated inventories of distribution depot to Oklahoma City, OK

Justification

- ✓ Preserve and optimize depot maintenance capability while minimizing excess capacity
- ✓ Preserve and optimize storage, demilitarization, and munitions maintenance capability while minimizing excess capacity
- ✓ Streamlines supply and storage processes
- ✓ Privatizes wholesale supply, storage and distribution of POL, tires, and compressed gas

Military Value

- ✓ Improves military value by moving functions to installations with higher military value
  - ✓ Depot maintenance
  - ✓ Munitions maintenance, storage and demil
- ✓ MVI: Anniston (25), McAlester (27), Letterkenny (39), Red River (40), Blue Grass (45)

Payback

✓ One time cost:	$456.2M
✓ Net Cost:	$216.6M
✓ Annual Recurring savings:	$76.5M
✓ Payback Period	4 years
✓ NPV (savings):	$539.0M

Impacts

- ✓ Criterion 6 – Max potential reduction of 4176 jobs (2500 direct and 1676 indirect) or 6.15% of the economic area employment
- ✓ Criterion 7 – Low risk; the trend of all attributes is to improve when moving to the other sites
- ✓ Criterion 8 – Moderate impact; Eight ranges and DERA sites (CTC $48M) require cleanup

✓ Strategy	✓ Capacity Analysis / Data Verification	✓ JCSG Recommended	✓ De-conflicted w/JCSGs
✓ COBRA	✓ Military Value Analysis / Data Verification	✓ Criteria 6-8 Analysis	✓ De-conflicted w/Services

Economic Impact Report

This report depicts the economic impact of the following Scenarios:

USA-0036: Close Red River Army Depot

The data in this report is rolled up by Action

As of: Tue Jun 21 08:11:54 EDT 2005

ECONOMIC IMPACT DATA

Scenario: Close Red River Army Depot
Economic Region of Influence(ROI): Texarkana, TX-Texarkana, AR Metropolitan Statistical Area
Base: RED RIVER
Action: Close Red River Army Depot

Overall Economic Impact of Proposed BRAC-05 Action:

ROI Population (2002):	130,731
ROI Employment (2002):	67,895
Authorized Manpower (2005):	2,500
Authorized Manpower(2005) / ROI Employment(2002):	3.68%
Total Estimated Job Change:	-4,176
Total Estimated Job Change / ROI Employment(2002):	-6.15%

Camden, Georgia (13039)

Camden is one of 159 counties in Georgia. It is part of the St. Marys, GA Micropolitan SA. Its 2003 population of 44,346 ranked 42nd in the state.

PER CAPITA PERSONAL INCOME

In 2003 Camden had a per capita personal income (PCPI) of $22,730. This PCPI ranked 70th in the state and was 78 percent of the state average, $29,000, and 72 percent of the national average, $31,472. The 2003 PCPI reflected an increase of 0.8 percent from 2002. The 2002-2003 state change was 1.1 percent and the national change was 2.2 percent. In 1993 the PCPI of Camden was $16,101 and ranked 59th in the state. The 1993-2003 average annual growth rate of PCPI was 3.5 percent. The average annual growth rate for the state was 3.9 percent and for the nation was 4.0 percent.

TOTAL PERSONAL INCOME

In 2003 Camden had a total personal income (TPI) of $1,007,965. This TPI ranked 43rd in the state and accounted for 0.4 percent of the state total. In 1993 the TPI of Camden was $622,940 and ranked 40th in the state. The 2003 TPI reflected a decrease of 1.7 percent from 2002. The 2002-2003 state change was 2.7 percent and the national change was 3.2 percent. The 1993-2003 average annual growth rate of TPI was 4.9 percent. The average annual growth rate for the state was 6.2 percent and for the nation was 5.1 percent.

COMPONENTS OF TOTAL PERSONAL INCOME

Total personal income includes net earnings by place of residence; dividends, interest, and rent; and personal current transfer receipts received by the residents of Camden. In 2003 net earnings accounted for 75.6 percent of TPI (compared with 81.0 in 1993); dividends, interest, and rent were 11.2 percent (compared with 10.8 in 1993); and personal current transfer receipts were 13.2 percent (compared with 8.1 in 1993). From 2002 to 2003 net earnings decreased 2.0 percent; dividends, interest, and rent decreased 6.5 percent; and personal current transfer receipts increased 4.6 percent. From 1993 to 2003 net earnings increased on average 4.2 percent each year; dividends, interest, and rent increased on average 5.3 percent; and personal current transfer receipts increased on average 10.2 percent.

EARNINGS BY PLACE OF WORK

Earnings of persons employed in Camden decreased from $890,235 in 2002 to $849,797 in 2003, a decrease of 4.5 percent. The 2002-2003 state change was 3.9 percent and the national change was 4.1 percent. The average annual growth rate from the 1993 estimate of $664,557 to the 2003 estimate was 2.5 percent. The average annual growth rate for the state was 6.4 percent and for the nation was 5.3 percent.

Note: All income estimates with the exception of PCPI are in thousands of dollars, not adjusted for inflation.

Georgia (13000)

The population of Georgia in 2003 was 8,676,460. Its rank was 9th in the nation. (The District of Columbia is included for ranking purposes.)

PER CAPITA PERSONAL INCOME

In 2003 Georgia had a per capita personal income (PCPI) of $29,000. This PCPI ranked 31st in the United States and was 92 percent of the national average, $31,472. The 2003 PCPI reflected an increase of 1.1 percent from 2002. The 2002-2003 national change was 2.2 percent. In 1993 the PCPI of Georgia was $19,719 and ranked 30th in the United States. The 1993-2003 average annual growth rate of PCPI was 3.9 percent. The average annual growth rate for the nation was 4.0 percent.

TOTAL PERSONAL INCOME

In 2003 Georgia had a total personal income (TPI) of $251,620,610. This TPI ranked 11th in the United States. In 1993 the TPI of Georgia was $137,606,937 and ranked 13th in the United States. The 2003 TPI reflected an increase of 2.7 percent from 2002. The 2002-2003 national change was 3.2 percent. The 1993-2003 average annual growth rate of TPI was 6.2 percent. The average annual growth rate for the nation was 5.1 percent.

COMPONENTS OF TOTAL PERSONAL INCOME

Total personal income includes net earnings by place of residence, dividends, interest, and rent; and personal current transfer receipts received by the residents of Georgia. In 2003 net earnings accounted for 72.7 percent of TPI (compared with 71.5 in 1993); dividends, interest, and rent were 14.3 percent (compared with 15.9 in 1993); and personal current transfer receipts were 13.0 percent (compared with 12.6 in 1993). From 2002 to 2003 net earnings increased 4.1 percent; dividends, interest, and rent decreased 2.0 percent; and personal current transfer receipts increased 0.6 percent. From 1993 to 2003 net earnings increased on average 6.4 percent each year; dividends, interest, and rent increased on average 5.1 percent; and personal current transfer receipts increased on average 6.5 percent.

EARNINGS BY PLACE OF WORK

Earnings of persons employed in Georgia increased from $197,082,005 in 2002 to $204,698,882 in 2003, an increase of 3.9 percent. The 2002-2003 national change was 4.1 percent. The average annual growth rate from the 1993 estimate of $110,271,340 to the 2003 estimate was 6.4 percent. The average annual growth rate for the nation was 5.3 percent.

Note: All income estimates with the exception of PCPI are in thousands of dollars, not adjusted for inflation.

Economic Impact Report

This report depicts the economic impact of the following Scenarios:

DON-0084A: Cambria / Willow Grove to McGuire

The data in this report is rolled up by Action

As of: Fri Jun 24 08:55:22 EDT 2005

ECONOMIC IMPACT DATA

Scenario:	Cambria / Willow Grove to McGuire
Economic Region of Influence(ROI):	Philadelphia, PA Metropolitan Division
Base:	NAS WILLOW GROVE
Action:	Nas Willow Grove (Lose)

Overall Economic Impact of Proposed BRAC-05 Action:

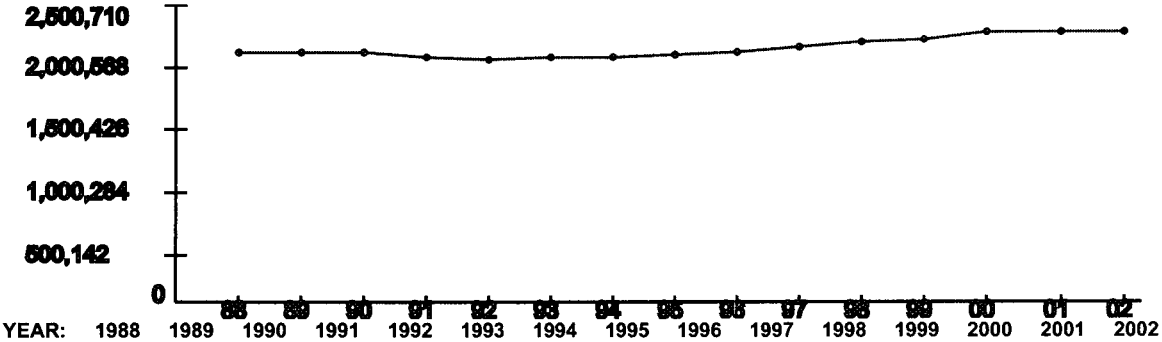
ROI Population (2002):	3,866,263
ROI Employment (2002):	2,273,372
Authorized Manpower (2005):	1,012
Authorized Manpower(2005) / ROI Employment(2002):	0.04%
Total Estimated Job Change:	-1,801
Total Estimated Job Change / ROI Employment(2002):	-0.08%

Cumulative Job Change (Gain/Loss) Over Time:

YEAR:	2006	2007	2008	2009	2010	2011
Direct Military:	0	-739	0	0	0	0
Direct Civilian:	-2	-374	0	0	0	0
Direct Student:	0	-20	0	0	0	0
Direct Contractor:	0	-5	0	0	0	0
Cumulative Direct:	-2	-1140	-1140	-1140	-1140	-1140
Cum Indir/Induc:	-2	-661	-661	-661	-661	-661
Cumulative Total:	-4	-1801	-1801	-1801	-1801	-1,801

Philadelphia, PA Metropolitan Division Trend Data

Employment Trend (1988-2002)



YEAR:	1988	1989	1990	1991	1992	1993	1994	1995	1996	1997	1998	1999	2000	2001	2002

Economic Impact Report

This report depicts the economic impact of the following Scenarios:

USAF0114V3: AF Cannon (125.1c2)

The data in this report is rolled up by Action

As of: Mon Jun 06 10:12:42 EDT 2005

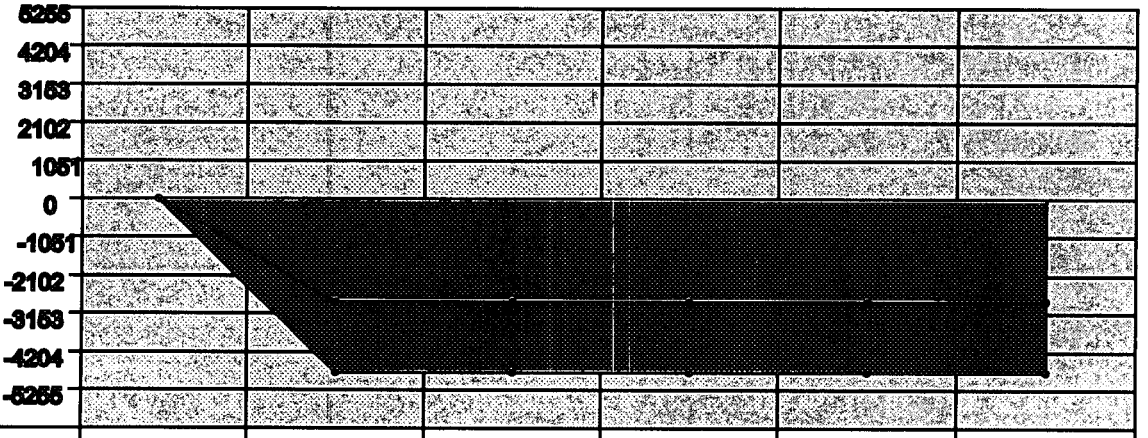
ECONOMIC IMPACT DATA

Scenario: AF Cannon (125.1c2)
Economic Region of Influence(ROI): Clovis, NM Micropolitan Statistical Area
Base: Cannon AFB
Action: 60 F-16 from Cannon

Overall Economic Impact of Proposed BRAC-05 Action:

ROI Population (2002):	44,921
ROI Employment (2002):	23,348
Authorized Manpower (2005):	3,919
Authorized Manpower(2005) / ROI Employment(2002):	16.79%
Total Estimated Job Change:	-4,780
Total Estimated Job Change / ROI Employment(2002):	-20.47%

Cumulative Job Change (Gain/Loss) Over Time:



YEAR:	2006	2007	2008	2009	2010	2011

All,

I've just got access to the Economic Impact Tool (EIT) little while ago.
Although I'm still trying to familiarize myself with the model, I can begin running scenarios for your analysts.
Please tell them to send requests to me via email (for my record), with all the details they want in new scenarios:

- Names or codes of affected base
- Action types
- Their proposal for job changes between 2006-2011 for different groups (mil, civ, students, or contractor)

In the mean time, if they need more ROI's economic data or have issues that are outside EIT, I still have time to help out. Just direct them to me. Thanks.

)uke

Robert.mccreary@wso.whs.mil
19 MAY 2005

BRAC Commission Releases Regional Hearings Schedule

Arlington, Virginia, May 19, 2005—Today the Defense Base Closure and Realignment (BRAC) Commission released the regional hearing schedule which the Commission will hold in various locations throughout the country.

The locations for the regional hearings were selected by the Commissioners in response to the number and type of Defense Department (DoD) closure and realignment recommendations. One of the Commission's main objectives to ensure maximum public access and input is by state and community representatives. In addition, several Commissioners will be at each regional hearing.

Chairman Anthony Principi stated, "The regional hearings will provide the primary means for communities to educate the Commissioners and their staff on their disagreements with the DoD base recommendations. If a potentially impacted community feels DoD deviated from the selection criteria, the regional hearings will provide those stakeholders with an opportunity to be involved in the information-gathering process and present to the Commission how and why the DoD proposals are flawed or should be changed".

"The Commission will perform base visits prior to the public hearing for that particular region, so they will be better informed about what each base's real-world situation looks like, and familiarize themselves with the key issues likely to be discussed at the regional hearing", Chairman Principi added.

The Commissioners have pledged to visit all of the bases which are on the list for major closure or realignment, as proposed by DoD. When a Commissioner visits a base, he or she will be preceded by an analyst. The analyst will gather the preliminary information on a base and then will visit the base concurrently with the Commissioner.

The following provides regional hearing cities and dates. Exact times and locations TBD.

Salt Lake City, Utah – Tuesday, June 7
St. Louis, Missouri – Tuesday, June 7
Fairbanks, Alaska – Wednesday, June 15
Portland, Oregon – Friday, June 17
Rapid City, South Dakota - Tuesday, June 21
Dallas, Texas – Wednesday, June 22
Grand Forks, North Dakota – Thursday, June 23
Clovis, New Mexico – Friday, June 24
Buffalo, New York – Monday, June 27
Charlotte, North Carolina – Tuesday, June 28
Atlanta, Georgia – Thursday, June 30
Boston, Massachusetts – Wednesday, July 6
Baltimore, Maryland – Friday, July 8
San Antonio, Texas – Monday, July 11
New Orleans, Louisiana – Tuesday, July 12
Los Angeles, California – Thursday, July 14

For additional information, please go to www.BRAC.gov

Recommendation: Realign Grand Forks Air Force Base (AFB), ND. Distribute the 319th Air Refueling Wing's KC-135R aircraft to the 126th Air Refueling Wing (ANG), Scott AFB, IL (12 aircraft), which retires its eight KC-135E aircraft; the 916th Air Refueling Wing (AFR), Seymour-Johnson AFB, NC (eight aircraft), which will host an active duty associate unit; the 6th Air Mobility Wing, MacDill AFB, FL (four aircraft), which will host a Reserve association with 927th Air Refueling Wing (AFR) manpower realigned from Selfridge ANGB, MI; the 154th Wing (ANG), Hickam AFB, HI (four aircraft), which will host an active duty associate unit; and the 22d Air Refueling Wing, McConnell AFB, KS (eight aircraft), which currently associates with the 931st Air Refueling Group (AFR). Grand Forks will remain an active Air Force installation with a new active duty/Air National Guard association unit created in anticipation of emerging missions at Grand Forks.

Recommendation: Realign McConnell Air National Guard (ANG) Base by relocating the 184th Air Refueling Wing (ANG) nine KC-135R aircraft to the 190th Air Refueling Wing at Forbes Field AGS, KS, which will retire its eight assigned KC-135E aircraft. The 184th Air Refueling Wing 's operations and maintenance manpower will transfer with the aircraft to Forbes, while the wing's expeditionary combat support (ECS) elements will remain at McConnell.

Economic Impact Report

This report depicts the economic impact of the following Scenarios:

USAF0117v3: AF Grand Forks (420c4)

The data in this report is rolled up by Action

As of: Tue Jun 14 12:37:50 EDT 2005

ECONOMIC IMPACT DATA

Scenario: AF Grand Forks (420c4)
Economic Region of Influence(ROI): Grand Forks, ND-MN Metropolitan Statistical Area
Base: Grand Forks AFB
Action: Realign Grand Forks

Overall Economic Impact of Proposed BRAC-05 Action:

ROI Population (2002):	95,827
ROI Employment (2002):	66,242
Authorized Manpower (2005):	3,080
Authorized Manpower(2005) / ROI Employment(2002):	4.65%
Total Estimated Job Change:	-4,929
Total Estimated Job Change / ROI Employment(2002):	-7.44%

by J. Arnow

Airspace/Operational Environment Comments: Ellsworth AFB, SD; Dyess AFB, TX.

Range Impact on Domestic Air Traffic:

- There is no significant difference attributed to existing range use impact on the domestic Air Traffic System; although Dyess operations are conducted in an area where there exists higher per capita traffic flows in and out of major hubs and for overflights.
- There are no current airspace proposals in an informal or formal process status at either location for new or expanded range capabilities.

Airspace range availability:

- Ellsworth and Dyess both have significant range availability.
- Dyess exhibits more capability to transition to and from more Military Operating Areas (MOA's) and Air Traffic Control Assigned Airspace (ATCAA's) seamlessly.
- FAA Central Enroute Service Area advises the advent of recent additional electronic training and scoring ranges easily accessible to Dyess based aircraft.

Recommendation #: 109
Title of Recommendation: **Ellsworth Air Force Base, SD and Dyess Air Force Base, TX**
# of Elements in Recommendation:
One-time Cost: $299.1 million
Savings (FY2006 thru FY2011): savings of $316.4 million
Return on Investment: annual savings: $161.3 million (payback expected in one year)
FINAL ACTION:

Secretary of Defense Recommendation

Close Ellsworth Air Force Base, SD. The 24 B-1 aircraft assigned to the 28th Bomb Wing will be distributed to the 7th Bomb Wing, Dyess Air Force Base, TX. Realign Dyess Air Force Base, TX. The C-130 aircraft assigned to the 317th Airlift Group will be distributed to the active duty 314th Airlift Wing (22 aircraft) and Air National Guard 189th Airlift Wing (two aircraft), Little Rock Air Force Base, AR; the 176th Wing (ANG), Elmendorf Air Force Base, AK (four aircraft); and the 302nd Airlift Wing (AFR), Peterson Air Force Base, CO (four aircraft). Peterson Air Force Base will have an active duty/Air Force Reserve association in the C-130 mission. Elmendorf Air Force Base will have an active duty/Air National Guard association in the C-130 mission.

Secretary of Defense Justification

This recommendation consolidates the B-1 fleet at one installation to achieve operational efficiencies. Ellsworth (39) ranked lower in military value for the bomber mission than Dyess (20). To create an efficient, single-mission operation at Dyess, the Air Force realigned the tenant C-130s from Dyess to other Air Force installations. The majority of these aircraft went to Little Rock (17-airlift), which enables consolidation of the active duty C-130 fleet into one stateside location at Little Rock, and robusts the Air National Guard squadron to facilitate an active duty association with the Guard unit. The other C-130s at Dyess were distributed to Elmendorf (51-airlift) and Peterson (30-airlift) to facilitate active duty associations with the Guard and Reserve units at these installations.

Community Concerns

There were no formal expressions from the community.

Commission Findings

The Commission found no reason to disagree with the recommendation of the Secretary of Defense.

Commission Recommendations

The Commission finds that the Secretary of Defense did not deviate substantially from the force-structure plan and the statutorily required military value criteria. Therefore, the Commission recommends the following: Close Ellsworth Air Force Base, SD. Realign Dyess Air Force Base, TX. All elements within the original Department of Defense recommendation remain unchanged by the Commission.

ELLSWORTH AIR FORCE BASE, SD AND DYESS AIR FORCE BASE, TX

Rapid City, SD (39660)

Rapid City is one of 361 Metropolitan Statistical Areas (MSAs) in the nation. Its 2003 population of 116,000 ranked 301st in the nation.

PER CAPITA PERSONAL INCOME

In 2003 Rapid City had a per capita personal income (PCPI) of $29,281. This PCPI ranked 137th in the United States and was 93 percent of the national average, $31,472. The 2003 PCPI reflected an increase of 4.1 percent from 2002. The 2002-2003 national change was 2.2 percent. In 1993 the PCPI of Rapid City was $18,667 and ranked 193rd in the United States. The 1993-2003 average annual growth rate of PCPI was 4.6 percent. The average annual growth rate for the nation was 4.0 percent.

TOTAL PERSONAL INCOME

In 2003 Rapid City had a total personal income (TPI) of $3,396,572. This TPI ranked 279th in the United States. In 1993 the TPI of Rapid City was $2,047,697 and ranked 286th in the United States. The 2003 TPI reflected an increase of 4.7 percent from 2002. The 2002-2003 national change was 3.2 percent. The 1993-2003 average annual growth rate of TPI was 5.2 percent. The average annual growth rate for the nation was 5.1 percent.

COMPONENTS OF TOTAL PERSONAL INCOME

Total personal income includes net earnings by place of residence; dividends, interest, and rent; and personal current transfer receipts received by the residents of Rapid City. In 2003 net earnings accounted for 64.3 percent of TPI (compared with 68.6 in 1993); dividends, interest, and rent were 22.0 percent (compared with 19.8 in 1993); and personal current transfer receipts were 13.7 percent (compared with 11.6 in 1993). From 2002 to 2003 net earnings increased 7.3 percent; dividends, interest, and rent decreased 1.0 percent; and personal current transfer receipts increased 2.2 percent. From 1993 to 2003 net earnings increased on average 4.5 percent each year; dividends, interest, and rent increased on average 6.4 percent; and personal current transfer receipts increased on average 6.9 percent.

EARNINGS BY PLACE OF WORK

Earnings of persons employed in Rapid City increased from $2,327,991 in 2002 to $2,491,986 in 2003, an increase of 7.0 percent. The 2002-2003 national change was 4.1 percent. The average annual growth rate from the 1993 estimate of $1,599,157 to the 2003 estimate was 4.5 percent. The average annual growth rate for the nation was 5.3 percent.

Note: All income estimates with the exception of PCPI are in thousands of dollars, not adjusted for inflation.

South Dakota (46000)

The population of South Dakota in 2003 was 764,905. Its rank was 46th in the nation. (The District of Columbia is included for ranking purposes.)

PER CAPITA PERSONAL INCOME

In 2003 South Dakota had a per capita personal income (PCPI) of $28,856. This PCPI ranked 33rd in the United States and was 92 percent of the national average, $31,472. The 2003 PCPI reflected an increase of 7.4 percent from 2002. The 2002-2003 national change was 2.2 percent. In 1993 the PCPI of South Dakota was $18,289 and ranked 38th in the United States. The 1993-2003 average annual growth rate of PCPI was 4.7 percent. The average annual growth rate for the nation was 4.0 percent.

TOTAL PERSONAL INCOME

In 2003 South Dakota had a total personal income (TPI) of $22,072,287. This TPI ranked 47th in the United States. In 1993 the TPI of South Dakota was $13,207,446 and ranked 48th in the United States. The 2003 TPI reflected an increase of 8.0 percent from 2002. The 2002-2003 national change was 3.2 percent. The 1993-2003 average annual growth rate of TPI was 5.3 percent. The average annual growth rate for the nation was 5.1 percent.

COMPONENTS OF TOTAL PERSONAL INCOME

Total personal income includes net earnings by place of residence; dividends, interest, and rent; and personal current transfer receipts received by the residents of South Dakota. In 2003 net earnings accounted for 64.3 percent of TPI (compared with 65.4 in 1993); dividends, interest, and rent were 21.6 percent (compared with 20.4 in 1993); and personal current transfer receipts were 14.2 percent (compared with 14.2 in 1993). From 2002 to 2003 net earnings increased 13.0 percent; dividends, interest, and rent decreased 1.2 percent; and personal current transfer receipts increased 2.1 percent. From 1993 to 2003 net earnings increased on average 5.1 percent each year; dividends, interest, and rent increased on average 5.9 percent; and personal current transfer receipts increased on average 5.2 percent.

EARNINGS BY PLACE OF WORK

Earnings of persons employed in South Dakota increased from $14,424,366 in 2002 to $16,124,521 in 2003, an increase of 11.8 percent. The 2002-2003 national change was 4.1 percent. The average annual growth rate from the 1993 estimate of $9,761,226 to the 2003 estimate was 5.1 percent. The average annual growth rate for the nation was 5.3 percent.

Note: All income estimates with the exception of PCPI are in thousands of dollars, not adjusted for inflation.

Meade, South Dakota (46093)

Meade is one of 66 counties in South Dakota. It is part of the Rapid City, SD (MSA). Its 2003 population of 24,527 ranked 7th in the state.

PER CAPITA PERSONAL INCOME

In 2003 Meade had a per capita personal income (PCPI) of $29,732. This PCPI ranked 18th in the state and was 103 percent of the state average, $28,856, and 94 percent of the national average, $31,472. The 2003 PCPI reflected an increase of 7.3 percent from 2002. The 2002-2003 state change was 7.4 percent and the national change was 2.2 percent. In 1993 the PCPI of Meade was $17,860 and ranked 25th in the state. The 1993-2003 average annual growth rate of PCPI was 5.2 percent. The average annual growth rate for the state was 4.7 percent and for the nation was 4.0 percent.

TOTAL PERSONAL INCOME

In 2003 Meade had a total personal income (TPI) of $729,249. This TPI ranked 6th in the state and accounted for 3.3 percent of the state total. In 1993 the TPI of Meade was $426,776 and ranked 5th in the state. The 2003 TPI reflected an increase of 7.4 percent from 2002. The 2002-2003 state change was 8.0 percent and the national change was 3.2 percent. The 1993-2003 average annual growth rate of TPI was 5.5 percent. The average annual growth rate for the state was 5.3 percent and for the nation was 5.1 percent.

COMPONENTS OF TOTAL PERSONAL INCOME

Total personal income includes net earnings by place of residence; dividends, interest, and rent; and personal current transfer receipts received by the residents of Meade. In 2003 net earnings accounted for 69.3 percent of TPI (compared with 72.5 in 1993); dividends, interest, and rent were 18.8 percent (compared with 17.6 in 1993); and personal current transfer receipts were 11.9 percent (compared with 9.9 in 1993). From 2002 to 2003 net earnings increased 10.4 percent; dividends, interest, and rent decreased 1.1 percent; and personal current transfer receipts increased 4.7 percent. From 1993 to 2003 net earnings increased on average 5.0 percent each year; dividends, interest, and rent increased on average 6.2 percent; and personal current transfer receipts increased on average 7.4 percent.

EARNINGS BY PLACE OF WORK

Earnings of persons employed in Meade increased from $319,979 in 2002 to $355,393 in 2003, an increase of 11.1 percent. The 2002-2003 state change was 11.8 percent and the national change was 4.1 percent. The average annual growth rate from the 1993 estimate of $212,636 to the 2003 estimate was 5.3 percent. The average annual growth rate for the state was 5.1 percent and for the nation was 5.3 percent.

Note: All income estimates with the exception of PCPI are in thousands of dollars, not adjusted for inflation.

Pennington, South Dakota (46103)

Pennington is one of 66 counties in South Dakota. It is part of the Rapid City, SD (MSA). Its 2003 population of 91,473 ranked 2nd in the state.

PER CAPITA PERSONAL INCOME

In 2003 Pennington had a per capita personal income (PCPI) of $29,160. This PCPI ranked 20th in the state and was 101 percent of the state average, $28,856, and 93 percent of the national average, $31,472. The 2003 PCPI reflected an increase of 3.3 percent from 2002. The 2002-2003 state change was 7.4 percent and the national change was 2.2 percent. In 1993 the PCPI of Pennington was $18,891 and ranked 16th in the state. The 1993-2003 average annual growth rate of PCPI was 4.4 percent. The average annual growth rate for the state was 4.7 percent and for the nation was 4.0 percent.

TOTAL PERSONAL INCOME

In 2003 Pennington had a total personal income (TPI) of $2,667,323. This TPI ranked 2nd in the state and accounted for 12.1 percent of the state total. In 1993 the TPI of Pennington was $1,620,921 and ranked 2nd in the state. The 2003 TPI reflected an increase of 3.9 percent from 2002. The 2002-2003 state change was 8.0 percent and the national change was 3.2 percent. The 1993-2003 average annual growth rate of TPI was 5.1 percent. The average annual growth rate for the state was 5.3 percent and for the nation was 5.1 percent.

COMPONENTS OF TOTAL PERSONAL INCOME

Total personal income includes net earnings by place of residence; dividends, interest, and rent; and personal current transfer receipts received by the residents of Pennington. In 2003 net earnings accounted for 62.9 percent of TPI (compared with 67.6 in 1993); dividends, interest, and rent were 22.9 percent (compared with 20.3 in 1993); and personal current transfer receipts were 14.2 percent (compared with 12.1 in 1993). From 2002 to 2003 net earnings increased 6.4 percent; dividends, interest, and rent decreased 1.0 percent; and personal current transfer receipts increased 1.6 percent. From 1993 to 2003 net earnings increased on average 4.3 percent each year; dividends, interest, and rent increased on average 6.4 percent; and personal current transfer receipts increased on average 6.8 percent.

EARNINGS BY PLACE OF WORK

Earnings of persons employed in Pennington increased from $2,008,012 in 2002 to $2,136,593 in 2003, an increase of 6.4 percent. The 2002-2003 state change was 11.8 percent and the national change was 4.1 percent. The average annual growth rate from the 1993 estimate of $1,386,521 to the 2003 estimate was 4.4 percent. The average annual growth rate for the state was 5.1 percent and for the nation was 5.3 percent.

Note: All income estimates with the exception of PCPI are in thousands of dollars, not adjusted for inflation.
