## ▶ **NGA Background**

- **Formed from all or part of eight DoD and Intelligence agencies as NIMA**
- **Name changed to NGA in 2003**
- **None of the agencies and facilities were co-located**
  - NGA inherited and now occupies aging legacy facilities from its predecessor agencies
    - Average facility age 60-years
  - Facilities are the oldest in the Intelligence Community
  - Many single points of failure and vulnerabilities

# ► NGA East Locations

**Bethesda**

**Southeast Federal Center (WNY)**

**Ft. Belvoir**

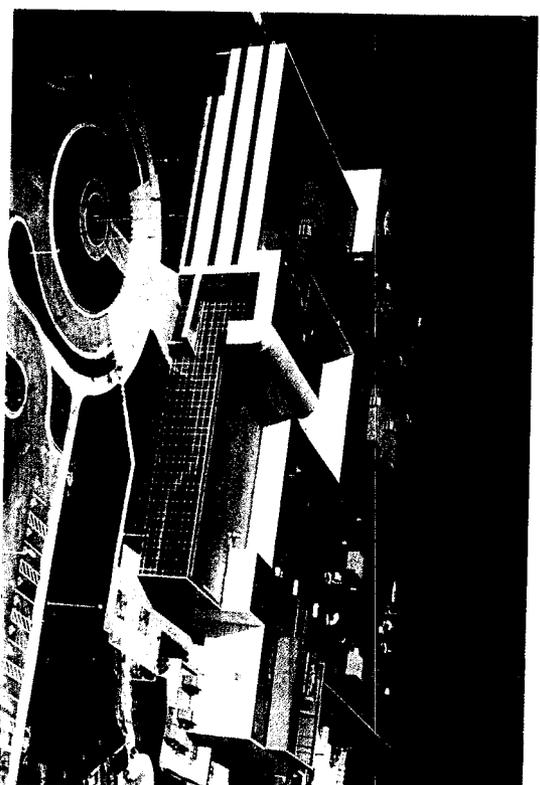

**Reston**

# ► NGA West Locations

Second Street St. Louis

Arnold

## ▶ **NGA's Facility Plan**

- **NGA's Objective: Consolidate operations**
  - Protect our workforce
  - Eliminate single points of failure
  - Get out of expensive leased space
- **Consolidation planning started in 1996**
  - Original plan: Close Building 213 at WNY in FY 2005
  - Plans changed after 9/11 due to increases in analyst workforce
  - GSA redevelopment plans for the SEFC based on NGA timelines
  - GSA notified NGA to vacate Bldg 213 by **1 Oct 2010**

## ► NGA Plan

- **Facilities**

- A secure 150 acre campus compound
- 2.2 M GSF of space
- Supporting infrastructure: power, water, communications
- Self-contained operations and security

- **Objective**

- Protect the workforce and enhance mission assurance
- Reduce facility operation and maintenance costs
- Enable integrated operations and improve interface with end users
- Conclude integration of disparate legacy elements  
Provide an environment that attracts and retains high caliber people

▶ **DOD BRAC Recommendation: May 13, 2005**

“Close National Geospatial-Intelligence Agency (NGA) Dalecarlia and Sumner sites, Bethesda, MD; Reston 1, 2 and 3, leased installations in Reston, VA; Newington buildings 8510, 8520, and 8530, Newington, VA; and Building 213 a leased installation at the South East Federal Center, Washington, DC. Relocate all functions to a new facility at Fort Belvoir, VA. Realign the National Reconnaissance Office (NRO) facility, Westfields, VA, by relocating all NGA functions to the new facility at Fort Belvoir, VA. Consolidate all NGA National Geospatial-Intelligence College functions on Fort Belvoir into the new facility at Fort Belvoir, VA.”

**Total Projected NGA Workforce: 8,000-8,500**

**Assume NGA Contractors live where the Federal Employees live**

## ► **Why Ft. Belvoir?** (continued)

- **Land is available at Ft. Belvoir**
  - EPG, Southwest Area (SWA), North Post Golf Course
- **Land is presently unencumbered**
  - EPG, SWA
  - Ft. Meade golf course must be relocated, which will add 2-years to the construction timeline
  - NGA will not be able to vacate Navy Yard by Oct 2010
- **Environmental/Cultural issues**
  - EPG: One environmental area; no cultural areas
  - SWA: Two environmental areas; nine cultural areas
  - N Post Golf Course: CERCLIS site; twelve cultural areas
  - Ft. Meade: Five environmental areas; four cultural areas

## ► **Why Ft. Belvoir?** (continued)

- **The EPG has no height limitation**
  - SWA, N. Post Golf Course: Height limits
  - Ft. Meade: 4-story buildings required
  - will increase cost of construction and require more land
- **Transportation**
  - EPG: Fairfax County Parkway construction is planned and funded with an expected 2008 opening and 2009 completion
  - SWA and N. Post Golf Course: Improvements needed to Fairfax County Parkway and Route 1
  - Ft. Meade: Improvements to Route 32 and BW Parkway Interchange

## ► **Why Ft. Belvoir?** (continued)

- **Ft Belvoir Mass Transit**
  - Express bus service from the Huntington Metro
  - Proximity to the Springfield-Franconia Metro Stop and VRE
  - Ft. Meade close to MARC line
- **Utilities are available at all sites**
- **County support for development of the EPG site and Ft. Belvoir**
  - Statements by County Supervisor Kaufmann
  - Fairfax County plans to rezone to accommodate Ft. Belvoir growth

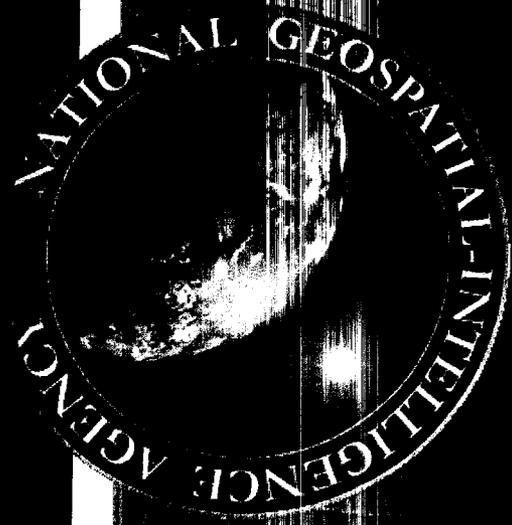

## ► **Conclusion**

- **Ft. Belvoir is the best location for the NGA**
- **NGA is presently working with the installation and Army to identify a site**
  - Begin Master Planning and Environmental Impact Statement
  - Start Design

**Thank you for the opportunity to tell our story.**

# ► Vulnerabilities: Activities in Southeast DC

## Near Southeast

**VISION:** Transform the bleak landscape of vacant lots, industrial warehouses and public housing into a lively, mixed-use neighborhood that would essentially extend Capitol Hill south of Interstate 395/Southeast Freeway to the water's edge.

- 1 The U.S. Marine Corps** has almost completed a new headquarters for the Marine Corps Band, expanding its Southeast Washington barracks complex across Eighth Street and south of the freeway. The project includes a recording studio.
- 2 The Arthur Capper-Carrollsbury public housing complex** will be torn down and replaced with a mixed-income neighborhood that will include more than twice as many townhouses and apartments, plus new offices, restaurants and shops. Housing officials say the new development will include 700 public housing units, the same number as existed in the complex, plus at least 800 market-rate units.
- 3 A new headquarters for the U.S. Department of Transportation** is under construction at the long-vacant **Southeast Federal Center**, slated to open in 2006 with an estimated 5,000 employees. On the remaining 4.2 acres of the site, Forest City Enterprises is planning to build 2,500 apartments and townhouses over the next 15 years, along with offices, shops, restaurants and a riverfront park.
