- 2) Navy Considerations
- 3) Joint Cross Service Considerations
- 4) Air Force Considerations
- 5) Completion of Administrative Details

Voting Procedures For Final Deliberations

- I. Commissioners may make one or more motions on each agenda item to do the following.
 1. Accept the Secretary's original recommendation;
 2. Reject the Secretary's original recommendation;
 3. Amend the Secretary's original recommendation.

- II. When voting begins, the BRAC statute requires a simple majority (5 Commissioners) to carry a motion to accept, reject or amend recommendations on the Secretary's list.

- III. In the cases where the BRAC commission had added installations not on the Secretary's original list, the BRAC statute requires 7 votes to carry the recommendation.

- IV. All Commissioners are required to vote on each motion, however, any Commissioner may recuse him or herself if they feel there is an actual or apparent conflict of interest, thereby in effect abstaining from the vote.

Statement
of
Anthony J. Principi

Chairman
2005 Defense Base Closure and Realignment
(BRAC) Commission

Final Deliberations and Decisions

Arlington, Virginia

August 24, 2005

**** *****

Good morning and welcome to this, the first day of the 2005 Defense Base Closure and Realignment Commission's final deliberations.

I am Tony Principi, the Chairman of the Commission. With me are my fellow Commissioners, former Congressman Jim Bilbray; former Assistant Secretary of Defense Phil Coyle; former Congressman Jim Hansen; General Tom Hill U.S. Army Retired; Admiral Hal Gehman, U.S. Navy Retired; General Lloyd Newton, U.S. Air Force Retired; Samuel Skinner, former White House Chief of Staff and Secretary of Transportation; and Brigadier General Sue Turner, U.S. Air Force Retired.

On May 13 of this year, as required by law, the Secretary of Defense, presented the Commission, and the Nation, with a list of military installations that he recommends for closure or realignment. DoD subsequently provided the Commission with extensive, certified justification and supporting data.

We immediately began an exhaustive review of the Secretary's recommendations and backup data.

In addition, we analyzed data received from numerous sources including other Federal agencies, the Government Accountability Office, state and local governments, and interested citizens.

Commissioners and staff made 182 visits to 173 installations. We conducted 19 regional hearings around the country.

We held another 16 legislative and deliberative hearings and had hundreds of meetings with community representatives and elected officials. We received over a half million pieces of mail.

We hosted more than 1100 visitors to our offices, responded to over 7000 media inquiries, issued more than 50 press releases and advisories, and received more than 500 telephone calls a week.

Our website was visited eight million times. All these communications have been gratefully and carefully considered.

We went to extraordinary lengths to ensure the soundness, correctness, and integrity of the base realignment and closure process and to fulfill our commitment to transparency, honesty, and fairness for all.

Our goal was an open, nonpartisan, and independent analysis, conducted in full compliance with the spirit and letter of the Defense Base Closure and Realignment Act.

This BRAC round presented the Commission with unprecedented challenges. The Secretary's recommendations embody almost 900 separate actions affecting installations, which include leased spaces, aircraft, ships, and people.....more than double the combined total of actions considered by all prior BRAC Commissions combined. The relationships within and among recommended actions presented the Commission with daunting analytical challenges.

Last July 19th, following the rules set down in the BRAC statute, the Commission added eight installations for consideration for closure or realignment.

Each addition required seven votes.

When we consider those installations today seven votes will once again be required to add an installation to the list recommended to the President for closure or realignment.

Our Nation needs the BRAC process.

No institution can remain successful if it does not adapt to its constantly changing environment. Our armed forces must adapt to changing global threats, evolving technology, and new strategies and structures.

Military infrastructure must support their progress, not hinder it.

The BRAC process is a systematic, rational process to bring our nation's military infrastructure in line with the needs of our armed forces, not only by reducing costs but also by facilitating their transformation to meet the challenges of the new century.

At the same time, we know that the decisions we reach will have a profound impact on the communities hosting our military installations and, more importantly, on the people who bring those communities to life.

These are people who have written long and distinguished records of support for our armed forces and our country.

In many cases, they have devoted their careers to our national defense.

The Commission made extraordinary efforts to listen to their concerns and to place those concerns fairly on the scales as we balance closing and realignment recommendations against DoD's force structure plan and the eight statutory BRAC criteria.

Our Commission is independent.

We are neither an arm of, nor an instrument of, the Department of Defense or the Congress.

We are charged to cast a critical eye on the Secretary's recommendations and to make our decisions without regard to partisan or parochial political concerns.

To that end, we took unprecedented measures to make our process open and transparent and to ensure our deliberations are based on a thorough consideration of certified and sworn data, and our analysis fair to everyone.

We heard, or raised ourselves, serious questions about the Department's calculation of the costs and savings of its recommendations,

the effect of their recommended realignments or closures on homeland security,
and the wisdom of proposals that would leave large areas of our country without active-duty military installations.

We proposed closures or realignments ourselves when we believed the Department's recommendations fell short of the mark,

and we listened to the debate surrounding the Department's proposed recommendations for restructuring the Air National Guard.

We are aware that legal issues that may affect the BRAC process have been, or soon may be, brought before the Courts. The Courts will address these issues, but meanwhile the Commission will meet its responsibility to complete our work on schedule, as required by statute.

Commissioners and staff worked closely and continuously for three and a half months evaluating the data,

comparing and contrasting information received from all sources,

developing and considering options and alternative scenarios and studying the effects of modification to existing recommendations.

Commissioners devoted countless hours to the study and analysis of the recommendations. They took their task very seriously and brought the full force of their collective experiences and insights to guide them through the BRAC process. Their professionalism and dedication, as well as the personal sacrifices they accepted in the service of the Commission, demonstrate the integrity that made it a pleasure and an honor for me to serve with them.

The culmination of our efforts, and our collective assessment of the proposals, will be reflected in the votes we are about to take.

Before I turn to Charles Battaglia, the Commission's Executive Director to describe the procedures the Commission will follow today, I will ask all of the staff members who may testify to please stand.

Ms. Rumu Sarkar, our designated Federal Officer will administer the oath required by the BRAC statute.

(Staff Witnesses Sworn In)

Mr. Battaglia.

- REGIONAL HEARINGS GIVE COMMUNITIES A CHANCE TO TESTIFY
- ALL DOCUMENTATION USED IN DELIBERATIONS AVAILABLE TO GENERAL PUBLIC
- ALL COMMISSION ACTIVITIES OPEN TO THE PRESS AND THE PUBLIC
- EVERY AFFECTED COMMUNITY WILL BE HEARD

BASE CLOSURE CRITERIA

MILITARY VALUE CRITERIA:

- 1. The current and future mission capabilities and the impact on operational readiness of the total force of the Department of Defense, including the impact on joint warfighting, training, and readiness.**
- 2. The availability and condition of land, facilities, and associated airspace (including training areas suitable for maneuver by ground, naval, or air forces throughout a diversity of climate and terrain areas and staging areas for the use of the Armed Forces in homeland defense missions) at both existing and potential receiving locations.**
- 3. The ability to accommodate contingency, mobilization, surge, and future total force requirements at both existing and potential receiving locations to support operations and training.**
- 4. The cost of operations and the manpower implications.**

OTHER CRITERIA:

- 5. The extent and timing of potential costs and savings, including the number of years, beginning with the date of completion of the closure or realignment, for the savings to exceed the costs.**
- 6. The economic impact on existing communities in the vicinity of military installations.**
- 7. The ability of the infrastructure of both the existing and potential receiving communities to support forces, missions, and personnel.**
- 8. The environmental impact, including the impact of costs related to potential environmental restoration, waste management, and environmental compliance activities.**

Economic and COBRA Terms Used in BRAC 2005 Commission Report

20-Year Net Present Value (see Net Present Value)

Action

The BRAC 2005 action for the installation, such as closure or realignment.

BRAC

“BRAC” is an acronym which stands for Base Realignment and Closure. It is the process DoD has previously used to reorganize its installation infrastructure to more efficiently and effectively support its forces, increase operational readiness and facilitate new ways of doing business. DoD anticipates that BRAC 2005 will build upon processes used in previous BRAC efforts.

Changes as a Percent of Employment (see also Total Economic Impact)

The result of dividing Total Job Changes by Economic Area Employment.

Closure

Action for which all missions of a certain installation have ceased or have been relocated. All personnel positions (military, civilian, and contractor) have either been eliminated or relocated, except for personnel required for caretaking, conducting any ongoing environmental cleanup and disposal of the base, or remaining in authorized enclaves.

COBRA

An acronym for Cost of Base Realignment Actions (COBRA) model. It is an analytical tool that DoD used to calculate the costs, savings, and return on investment, of proposed realignment and closure actions.

Commission

The Commission established by section 2902 of the Defense Base Closure and Realignment Act of 1990, as amended.

Community Preference

Section 2914(b)(2) of BRAC requires the Secretary of Defense to consider any notice received from a local government in the vicinity of a military installation that the local government would approve of the closure or realignment of the installation.

Data Certification

Section 2903 (c)(5) of BRAC requires specified DoD personnel to certify to the best of their knowledge and belief that information provided to the Secretary of Defense or the 2005 Commission concerning the realignment or closure of a military installation is accurate and complete.

Economic Area

An area or region of influence assigned to each installation for BRAC 2005. DoD used the Office of Management and Budget's definitions for Metropolitan Statistical Areas (MSAs), Micropolitan Statistical Areas (MISAs), or Metropolitan Division as its economic areas in BRAC 2005. Details on the assignment of installations to economic areas are in the description of the activities of Joint Process Action Team 6.

Employment

Total employment (total number of jobs, both part-time and full-time jobs) in the economic area in calendar year 2002, the latest year available when BRAC 2005 Economic Impact Tool was developed. Employment data are compiled by the Department of Commerce's Bureau of Economic Analysis.

Force Structure

Numbers, size, and composition of the units that comprise the U.S. defense forces; e.g., divisions, ships, air wings, aircraft, tanks, etc.

In Civ

The number of civilian personnel authorizations relocating into the installation from another economic area.

In Mil

The number of military personnel authorizations relocating into the installation from another economic area.

Indirect Changes

The sum of estimated indirect and induced job changes in the community associated with the change in Total Direct Jobs.

- *Indirect job changes* are the net gain or loss of local non-government jobs supporting installation material, service, and infrastructure needs, such as a local motor pool parts distributors or base operations support (BOS) contractors.
- *Induced job changes* are the net addition or loss of local non-government jobs in industries that provide goods or services to the households of direct or indirect installation employees. Examples include local grocery stores, retail stores, and restaurants.

Infrastructure Executive Council (IEC)

One of two senior groups established by the Secretary of Defense to oversee and operate the BRAC 2005 process. The Infrastructure Executive Council, chaired by the Deputy Secretary of Defense, and composed of the Secretaries of the Military Departments and their Chiefs of Services, the Chairman of the Joint Chiefs of Staff and Under Secretary of Defense (Acquisition, Technology and Logistics)(USD (AT&L)), is the policy making and oversight body for the entire BRAC 2005 process.

Installation, AKA Facility or Base

A military station, including leased space, that supports DoD's activities.

Metropolitan Division

A Metropolitan Division, in general, is smaller than a metropolitan statistical area (MSA). A Metropolitan Division is a breakdown of a MSA whose core population is at least 2.5 million, by subdividing it to form smaller groupings of counties. In the latest redefinition round (November 2004), OMB identified 29 Metropolitan Divisions in the United States and Puerto Rico.

Metropolitan Statistical Area (MSA)

The U.S. Office of Management and Budget (OMB), under the White House, develops standards that define metropolitan and micropolitan statistical areas (MSAs and MISA) for the purpose of collecting demographic and economic data, based on a combination of population density and commuter patterns. The basic components of these areas are counties or county-equivalents, such as cities, municipalities, or townships.

A MSA must have at least one urban area with at least 50,000 people, plus adjacent counties that have strong social and economic integration with the core, as measured by commuting patterns. In the latest redefinition round (November 2004), OMB identified 369 MSAs in the United States and Puerto Rico.

Micropolitan Statistical Area (MISA)

An MISA has similar definition as MSA except that it has smaller urban area as its core (population between 10,000 to 50,000 people). In the latest redefinition round (November 2004), OMB identified 58 MISAs in the United States and Puerto Rico.

Military Departments

The Military Departments are the Department of the Army, Department of the Navy, which includes the Marine Corps, and Department of the Air Force.

National Environmental Policy Act (NEPA) Analysis

An analysis conducted to evaluate an installation's disposal decisions in terms of the environmental impact. The NEPA analysis is useful to the community's planning efforts and the installation's property disposal decisions. It is used to support DoD decisions on transferring property for community reuse.

Net Gain/(Loss) Civ

The net change in the number of civilian personnel authorizations by installation.

Net Gain/(Loss) Mil

The net change in the number of military personnel authorizations by installation.

Net Mission Contractors, AKA Non-Government Personnel

The net change in the number non-government employees who perform one or more of the *military* missions on the installation, and whose work tasks are virtually identical to government civilian employees or military personnel, expressed in full time equivalents.

Net Present Value (20-Year)

The present value of future costs of a scenario, discounted at the appropriate rate, minus the present value of future savings from the scenario over a 20-year planning period.

One-Time Cost

Nonrecurring cost to implement BRAC recommendations.

Out Civ

The number of civilian personnel authorizations that are either eliminated or re-located from the installation to a new location outside of their current economic area. Relocations within the same economic area do not constitute a BRAC economic impact.

Out Mil

The number of military personnel authorizations that are either eliminated or re-located from the installation to a new location outside of their current economic area. Relocations within the same economic area do not constitute a BRAC economic impact.

Payback Year

This is the point in time where the savings generated from an action equal (and then exceed) the cost incurred. The payback period is the period between the end of the realignment action and the payback year.

Realignment

An action includes any action that both reduces and relocates functions and civilian personnel positions, but does not include a reduction in force resulting from workload adjustments, reduced personnel or funding levels, or skill imbalances.

Redevelopment Authority

In the case of an installation to be closed or realigned under the BRAC authority, the term “redevelopment authority” means an entity (including an entity established by a State or local government) recognized by the Secretary of Defense as the entity responsible for developing the redevelopment plan with respect to the installation or for directing the implementation of such plan.

Redevelopment Plan

In the case of an installation to be closed or realigned under the BRAC authority, the term “redevelopment plan” means a plan that (A) is agreed to by the local redevelopment authority with respect to the installation; and (B) provides for the reuse or redevelopment of the real property and personal property of the installation that is available for such reuse and redevelopment as a result of the closure or realignment of the installation.

Total Direct Changes

The actual net changes in number of military, civilian, and non-government personnel authorizations by installation.

Total Economic Impact (see also Indirect Change and Change as a Percent of Employment)

An aggregation of economic effects or impact of an BRAC action on certain installation. It includes both direct and indirect job changes, expressed as a percent of the total employment in the economic area.

Total Job Changes

The sum of the Total Direct and Indirect Changes entries.

Transformation

According to the Department’s April 2003 Transformation Planning Guidance document, transformation is “a process that shapes the changing nature of military competition and cooperation through new combinations of concepts, capabilities, people and organizations that exploit our nation’s advantages and protect against our asymmetric vulnerabilities to sustain our strategic position, which helps underpin peace and stability in the world.”

Biographies of the Nine BRAC Commissioners

The Honorable Anthony J. Principi – Chairman

Recently served as Vice President of Pfizer Corporation and is a decorated Vietnam War veteran. Mr. Principi was nominated to be Secretary of Veterans Affairs by President George W. Bush on December 29, 2000, and was confirmed by the Senate on January 23, 2001. He once served as a Republican chief counsel for the Senate Armed Services Committee and Senate Veterans Affairs Committee. He also has been a top official with defense contractor Lockheed Martin. Mr. Principi is a 1967 graduate of the U.S. Naval Academy at Annapolis, Maryland, and first saw active duty aboard the destroyer USS Joseph P. Kennedy. He later commanded a River Patrol Unit in Vietnam's Mekong Delta. Mr. Principi earned his law degree from Seton Hall University in 1975 and was assigned to the Navy's Judge Advocate General Corps in San Diego, California. In 1980, he was transferred to Washington as a legislative counsel for the Department of the Navy.

The Honorable James H. Bilbray

Primary area of practice is government relations and administrative law. Former Congressman Bilbray received his B.A. in Government and Public Administration from the American University in Washington, DC in 1962, and his JD from the Washington College of Law in 1964. He is a Nevada native, and prior to being elected to the U.S. House of Representatives in 1987, was a Nevada State Senator, where he served as Chairman on the Taxation Committee and was a member of the Judiciary Committee. During his four terms in the US Congress, he served as Chairman of the Small Business Sub-Committee on Taxation, Tourism and Procurement. He was also a member of the Foreign Affairs, Armed Services, and Intelligence Committees. He joined the firm of Kummer Kaempfer Bonner & Renshaw as Of Counsel in 1996, where he specialized in dealing with local, state and federal issues. In 2001, he received an honorary doctorate of laws from the University of Nevada Las Vegas for his extensive contributions to the State and U.S. government.

The Honorable Philip Coyle

Philip Coyle is a Senior Advisor to the President of the Center for Defense Information and a defense consultant. Formerly, the Assistant Secretary of Defense for Test and Evaluation, (1994-2001), Mr. Coyle is a recognized expert on U.S. and worldwide military research, development and testing. During the 1995 BRAC, he served as the Co-Chairman of the DoD Joint Cross-Service Group for Test and Evaluation. Prior to serving at the Pentagon, Mr. Coyle served as Laboratory Associate Director of the Lawrence Livermore National Laboratory in Livermore, California, and as Deputy to the Laboratory Director. During the Carter Administration, Mr. Coyle served as Principal Deputy Assistant Secretary for Defense Programs in the Department of Energy. With more than 40 years of experience in testing and test-related matters, he was selected by Aviation Week magazine as one of its "Laurels" honorees for 2000, a select group of people recognized for outstanding contributions in the aerospace field.

Page 2 of 3

The Honorable James V. Hansen

Former US Representative from Utah, Congressman Hansen was elected to the 97th Congress and to the 10 succeeding terms (January 3, 1981 to January 3, 2003). Congressman Hansen did not seek re-election to the 108th Congress in 2002. During the 105th Congress, he served as Chairman on the Standards and Official Conduct Committee. During the 107th Congress, he served as Chairman of the Committee of Resources. He served in the United States Navy from 1951 to 1955. He also served as a member of the Farmington, Utah City Council from 1960 to 1972. He then was elected to the Utah State House of Representatives from 1973 to 1980 and served as Speaker of the House, 1979 - 1980.

General James T. Hill (USA, Ret)

Former Commander of the United States Southern Command. General Hill previously served as the Commanding General, I Corps and Ft Lewis. He is from El Paso, Texas, and was commissioned into the infantry following graduation from Trinity University in San Antonio, Texas, in 1968. He also graduated from the Command and General Staff College and the National War College. In addition, he holds a Master's degree in Personnel Management from Central Michigan University. General Hill's other key assignments include: Commanding General 25th Infantry Division and Deputy Commander United States Forces UN Mission Haiti.

Admiral Harold W. (Hal) Gehman, Jr., (USN, Ret)

Retired after 35 years of service on active duty in the U.S. Navy in October 2000, with his last assignment as NATO's Supreme Allied Commander, Atlantic and as the Commander in Chief of the U.S. Joint Forces Command, one of the five U.S. Unified Commands. Immediately after retiring, Admiral Gehman served as Co-Chairman of the Department of Defense review of the terrorist attack on the USS Cole. In 2003, he served as Chairman of the Columbia Accident Investigation Board. He graduated from Pennsylvania State University with a Bachelor of Science degree in Industrial Engineering and received a commission in the Navy from the NROTC program. He served at all levels of leadership and command before being promoted to four-star Admiral in 1996. He became the 29th Vice Chief of Naval Operations in September 1996. As Vice Chief, he was a member of the Joint Chiefs of Staff, formulated the Navy's \$70 billion budget, and developed and implemented policies governing the Navy's 375,000 personnel.

Page 3 of 3

General Lloyd W. "Fig" Newton (USAF, Ret)

Currently serves as Executive Vice President of Pratt & Whitney, Military Engines. Former Commander of Air Education and Training Command, headquartered at Randolph Air Force Base, Texas. He was responsible for the recruiting, training and education of Air Force personnel. His command included Air Force Recruiting Service, two numbered air forces and Air University. He was also commander of three wings and an air division and held numerous staff positions. From 1993 to 1995, he was Director of Operations, J-3, U.S. Special Operations Command. General Newton is a command pilot with more than 4,000 flying hours in the T-37, T-38, F-4, F-15, C-12 and F-117 stealth fighter. He earned a Bachelor of Science degree in aviation education from Tennessee State University and a Master of Arts degree in public administration from George Washington University.

The Honorable Samuel K. Skinner

Mr. Skinner is the retired Chairman, President and Chief Executive Officer of USF Corporation, one of the nation's leading transportation and logistics companies. He also served from 1993-1998 as President of Commonwealth Edison Company and its holding company, Unicom Corporation. Prior to joining Commonwealth Edison, Mr. Skinner served as Chief of Staff to President George H.W. Bush. Prior to his White House service, he served in the President's Cabinet for nearly three years as Secretary of Transportation. As Secretary, Mr. Skinner was credited with numerous successes, including the development of the President's National Transportation Policy and the development and passage of landmark aviation and surface transportation legislation. Mr. Skinner is currently an Adjunct Professor of Management and Strategy at the Kellogg School of Management at Northwestern University. He served as a member of the Illinois National Guard and the United States Army reserve from 1957-1968.

Brigadier General Sue E. Turner (USAF, Ret.)

General Turner retired in 1995, following 30 years active duty. Her key assignments included: Director, Nursing Services, Office of the USAF Surgeon General; Chief Nurse, Wilford Hall Medical Center; and the Medical Inspection Team, USAF Inspector General. General Turner joined the Air Force Nurse Corps in 1965 and went on to earn a Bachelor of Science in Nursing from Incarnate Word College and a Master of Science in nursing from the University of Alabama in Birmingham. She also completed Squadron Officer School, Air Command and Staff College, Air War College, and National Security Management. In recent years, she has served on the American Battle Monuments Commission and the Board of Directors of a large credit union.

Realigns Naval Air Station Oceana, Virginia Beach, VA by relocating the East Coast Master Jet Base to Cecil Field, FL, conditioned on prior actions by the State of Florida.

Group: Navy

Full Text

I move:

- that the Commission find that when the Secretary of Defense failed to recommend the realignment of Naval Air Station Oceana, Virginia Beach, Virginia, he substantially deviated from Final Selection Criteria 1, 2, 3, 4 and 5 and the Force Structure Plan;
- that the Commission add to the list of installations to be closed or realigned the recommendation:
 - "Realign Naval Air Station Oceana, Virginia by relocating the East Coast Master Jet Base to Cecil Field, Florida,
 - if the Commonwealth of Virginia and the municipal governments of Virginia Beach, Virginia and Chesapeake, Virginia fail to enact and enforce legislation to prevent further encroachment of Naval Air Station Oceana by the end of March 2006, to wit:
 - enact State-mandated zoning controls requiring the cities of Virginia Beach and Chesapeake to adopt zoning ordinances that require the governing body to follow Air Installation Compatibility Use Zone (AICUZ) guidelines in deciding discretionary development applications for property in Noise Level 70 dB Day Night Average Noise Level DNL or greater;
 - enact state and local legislation and ordinances to establish a program to condemn and purchase all the property located within all the Accident Potential Zone One areas for Naval Air Station Oceana as depicted for 1999 AICUZ Pamphlet published by the U.S. Navy.
 - codify the 2005 Final Hampton Roads Joint Land Use Study (JLUS) recommendations;
 - legislate requirements for the cities of Virginia Beach and Chesapeake to evaluate undeveloped properties in Noise Zones 70dB DNL or greater for rezoning classifications that would not allow uses incompatible under AICUZ guidelines;
 - establish programs for purchase of development rights of the Inter-facility Traffic Area between NAS Oceana and NALF Fentress; Enact legislation creating the Oceana/Fentress Advisory Council." at Chapter XI, Section 193 of the

Bill, and;

- and if the State of Florida:

- appropriates sufficient funds to relocate commercial tenants presently located at Cecil Field, Florida,
- appropriates sufficient funds to secure Public Private Ventures for all the personnel housing required by the Navy at Cecil Field to accomplish this relocation, and;
- turns over fee simple title to the property comprising the former Naval Air Station Cecil Field, including all infrastructure improvements that presently exist, to the Department of Defense on or before December 31, 2006, if the Commonwealth of Virginia and the municipal governments of Virginia Beach, Virginia and Chesapeake, Virginia decline from the outset to take the actions required above, or within six months of the Commonwealth of Virginia and the municipal governments of Virginia Beach, Virginia and Chesapeake, Virginia failing to carry through with any of the actions set out above, whichever is later. The State of Florida may not encumber the title by any restrictions other than a reversionary clause in favor of the State of Florida and short-term tenancies consistent with the phased relocation of the Master Jet Base to Cecil Field.
- If the Commonwealth of Virginia and the municipal governments of Virginia Beach, Virginia and Chesapeake, Virginia fail to take all of the prescribed actions, and the State of Florida meets the conditions established by this recommendation, the units and functions that shall relocate to Cecil Field will include, but are not limited to, all of the Navy F/A-18 Strike Fighter Wings, aviation operations and support schools, maintenance support, training and any other additional support activities the Navy deems necessary and appropriate to support the operations of the Master Jet Base." at Chapter XI, Section 193 of the Bill, and;
- that the Commission find this additional recommendation is consistent with the Final Selection Criteria and Force Structure Plan.

Additional statement of the Commission:

The BRAC 2005 report language shall state:

"It is the sense of the Commission that the Secretary of Defense deviated from the BRAC criteria by failing to consider NAS OCEANA for closure or realignment. The long standing and steadily worsening encroachment problem around NAS OCEANA, without strong support from State and City governments to eliminate current and arrest future encroachment, will in the long term, create a situation where the military value of NAS OCEANA will be unacceptably degraded. The remedies presented to the Commission thus far have been unconvincing.

It is also the sense of the Commission that the future of Naval Aviation is not Naval Air Station Oceana. The Commission urges the Navy to begin immediately to mitigate the noise encroachment and safety issues associated with flight operations around the Virginia Beach area by transitioning high intensity training evolutions to other bases that are much less encroached such as Navy Outlying Field Whitehouse, Florida or Kingsville, Texas.

The Secretary of Defense is directed to cause a rapid, complete, due diligence review of the offer of the State of Florida to reoccupy the former NAS Cecil Field and to compare this review against any plan to build a new master jet base at any other location. This review is to be completed within six months from the date the BRAC legislation enters into force, and is to be made public to the effected states for comment.

After review of the states comments, which shall be submitted with 120 days after publishing the review, the Secretary of Defense shall forward to the oversight committees of Congress the review, the states' comments and his recommendation on the location of the Navy's future Atlantic Fleet Master Jet Base."
