to the Brac Commission

Gentlemen (Ladies)

We, my wife and I are deeply troubled by the 2005 Base Realignment and Closure suggestion to realign the 152nd Airlift Wing based in Reno. The unit there provides a wonderful service to the State of Nevada and our nation, but most of all, their presence affects my well-being. Knowing they're there, should any emergency arise, provides me a certain degree of security that I don't get from anyone else. I see the airmen in their uniforms around town, I see their aircraft fly above our city and I know my hometown is secure. Plus, the money they bring into our economy is unmatched by any other military organization. So please let us keep our Citizen Soldiers in Reno

Sincerely,

Donald Lewis
