Justification: This recommendation will reduce excess capacity through the consolidation of 12 Navy Reserve Centers and Navy Marine Corps Reserve Centers with other reserve centers in the effected areas or into Armed Forces

Reserve Centers. Nine of 12 of the reserve center closures are joint actions with the Department of the Army that support relocation into Armed Forces Reserve Centers. This recommendation will also relocate two Inspector-Instructor activities to existing reserve facilities aboard active duty bases. Sufficient capacity for drilling reserves is maintained throughout the United States, and all states will continue to have at least one Navy/Navy Marine Corps Reserve Center. This recommendation reduces excess capacity in the Department of the Navy reserve center functional area, but existing capacity in support of the Department of the Navy Reserve component continues to be in excess of force structure requirements. This recommendation is part of the closure of 37 Department of the Navy reserve centers, which includes 35 Navy centers (Navy Reserve Centers, Navy Reserve Facilities and Navy Marine Corps Reserve Centers) and two Marine Corps centers (Inspector-Instructor activities). The closure of 35 Navy centers will result in a capacity reduction of 12.7 percent of total current square footage. The closure of two Marine Corps centers will result in a capacity reduction of 5.5 percent of total current square footage.

Capacity Analysis Results: This recommendation will reduce excess capacity through the closure of a Navy Marine Corps Reserve Center. This recommendation will result in a capacity reduction of 7,152 square feet which includes the construction of replacement capacity at the AFRC. Closure of 35 reserve centers retains sufficient capacity to meet future requirements given a 16.4 percent force structure reduction in Navy Reserve personnel.

Summary:

 Close NMCRC Los Angeles, CA and relocate to AFRC Bell, CA.

Time Phasing: We do not use automatic time phasing. This is necessary in order for us to match the Army's approach to COBRA runs for this joint reserve center.

Errors: There are errors reported that are an artifact of the way COBRA handles time phasing (This may include personnel movement messages). These are not really errors. The Overhead/Sustainment message is related to introduction of a new (currently non-existent) reserve center as a destination. The results are not affected.

FOOTNOTES FOR SCREEN ONE

=====

Close NMCRC Los Angeles, CA and relocate to AFRC Bell, CA.

Time Phasing: We do not use automatic time phasing. This is necessary in order for us to match the Army's approach to COBRA runs for this joint reserve center.

Errors: There are errors reported that are an artifact of the way COBRA handles time phasing (This may include personnel movement messages). These are not really errors. The Overhead/Sustainment message is related to introduction of a new (currently non-existent) reserve center as a destination. The results are not affected.

FOOTNOTES FOR SCREEN FOUR

=====

The Army did not enter BAH for their sites. If we leave the Army BAH blank there are false saving calculated for moving to the Army site. We enter the BAH costs from the nearest Navy reserve center.

FOOTNOTES FOR SCREEN FIVE

=====

71k recurring BOS cost are 25% of the cost the Army reported
