Arlington, Va 22202.

Dear member of the BRAC Commission,

We the people of Portales New Mexico do not want the Cannon Air Force Base to close down. The Air Force Base is very important because of our safety. Ever since I was a little girl I always saw the airplanes flying over me. I don't want that to change. If they close the bad people from Iraq might come and bomb the state. That would be extremely scary. The first atomic bomb was invented here. We need for them to build more so we can kill all of the people that cause or mean harm to us. So don't shut down the base we need it here. If we lose 34 of our students to the base closing then we will not get as much money.

Sincerely Thank-you  
Tanya
